said a good deal of Mr. Adams'speech had been devoted to him and a good many of that gentleman's statements were misstatements. Every member of the Government voted for the bill to extend the Grand Southern Charter after a committee of the House had investigated the matter and found that the only money actually paid in by the company was \$20 by one [laughter.) The legislature thought it better to lose the \$120,000 already spent than to throw \$300,000 more away after it. In the face of this, however, the Government took it upon itself to give that money to the Company, There was no law to justify it and the

Supreme Court decided that the Company had no legal existence at the time. Mr. Adams.-But did not you vote last session to sustain them?

Mr. Hutchison, -Yes, because the Government had given the money and I voted for an Act which was to give the company facilitics to legally run the road. Japplause.

Mr. Adams had charged him with not talking about the Government's extravagance and sins in the House and intimated that he was not attentive to business. Hutchison, not Adams who was always in his place attending to his duties. [Cheers.] Adams was not very often seen in the House, while Hutchison was seldom away who, from it when duty required him to be poor there. [Cheers.] He might not possess those transcendent abilities on which Mr. Adams seemed to pride himself, but he performed his duties to the County faithally and if Mr. Adams was possessed of able to put them to better uses. The Advocate of yesterday said. -

While Mr. Adams was dressing down his slanderer D. G. Smith at the Chatham meeting the other night, that worthy manifested much uneasiness, and tried to interrupt the speaker, who told him that before he was done with him he would make him dance an Irish gig. [What's an Irish gig?] Mr Smith did try to speak but a good index of the contempt entertained for him is seen in the fact that at this meeting, called by his friends, those present refused to hear him. Every man who was present at th meeting knows that no attempt to speak

was made by Mr. Smith. The meeting Leod and the matter was taken up by Mr. was called to hear candidates only. As Willis in the House, but he demanded specific charges and when Willis would Mr. W. C. The Napan Bass Fisheries.

Mr. Donald McInnis, of Napan, called at this office yesterday and requested us to state that he had, on several occasions. this spring, directed the attention of Mr. Wm. Wyse, Fishery Overseer, and James

Fitzpatnick, Fishery Warden, to the fact that several men were engaged every night fishing for bass with smelt bag nets in the spans of the Murphy Bridge, so called, at Napan. Mr. Wyse said he would try and get Warden McDairmid to go and look after the matter and Mr. Fitzpatrick said he would go and look after them. He would tell the meeting that it was Nothing, however, was done and after he (Mr. McInnis) had importuned Mr. Wyse again to prevent the complete barricading of the river with the bag nets, that officer, on Saturday last, appointed him (Mr. Mc-Innis) as a special officer to look after the law-breakers, himself swearing him in. He went down to act on Monday night, when he was abused by the persons who great talents it was a pity he had not been had nets ready to set at the bridge. He prevented the nets from being set that night. On Tuesday night he went down and waited for Wardens McDairmid and Mr. Adams might have made a bet- Fitzpatrick who, Mr. Wyse had promised, Canada. would be there, but they falled to put in an appearance. Mr. Wyse had instructed

him not to use violence, so as he could do nothing, he left for home about eleven o'clock. The men there abused him threatened to stone him and "trample him under their feet." There were thirteen or fourteen men present.

Mr. McInnis' statement shows what the effect has been of the successful efforts of Messrs. Wyse, Venning and others in preventing the fisherman of Napan from taking bass in a legal and proper way. Let the law be carried out or changed. The unjust Regulation prohibiting bass fishing in Napan is leading to this destructive bag-net business, which the Overseers are clearly winking at.
