

Miramichi and the North Shore, etc.

Snow flew about in the Miramichi air yesterday. FRENCH-ENGLISH dry goods clerk wanted—See advt.

REV. MR. McLEAN'S Farewell Sermon will be found on the first page.

CHINA, GLASS, AND EARTHENWARE are advertised by Mr. Geo. Stothart.

THE "ADVOCATE" is running to Chatham, Newcastle and other points.

PERSONAL.—Mr. Thos. Marquis is home from college for the summer vacation.

DWELLING AND SHOP.—Mrs. Lyons advertises a dwelling and shop to let.

THE MILLS.—Among the mills at work are Snowball's, Hutchison's, Burchill's and Sargent's.

FURNITURE of all kinds will be found in great variety at Mr. Fairley's, Newcastle. See advt.

UNDERTAKING.—Mr. Wm. McLean is keeping well up with the times in the undertaking business. Read his advt.

THE "DEUCE" Piano was sold at auction on Saturday last and purchased for \$190 by Mr. Wm. Johnson of the Canada House.

WHAT OFFICE was it that Mr. Turgeon of Gloucester was promised by the Dominion Government? Mr. Turgeon says it was a good one.

THE ICE still remains unbroken in the river below, although we have had clear water since Saturday down to, and below Sheldrake Island.

TICKETS for the dance in Masonic Hall, Newcastle, on Tuesday next, are for sale at Mackenzie's Drug Store, Chatham, at a one dollar each.

"ELECTOR," HARDWICK.—Your communication is received, but before publishing it we would like to have explanation of one or two points in it.

SCHOOL EXAMINATIONS.—We are obliged again to hold over our notes of Chatham school examinations and also those sent by our Hardwick correspondent.

SEEDS.—Attention is directed to Mr. Mackenzie's large and varied stock of seeds. He has had them carefully put up from selected stocks and they are without doubt fresh and reliable.

NEW OVERSEER.—Mr. J. A. Verge, of Quebec, nominee of Mr. Beauchance, has been appointed Overseer of Fisheries for the Restigouche District, vice Overseer John Morant, whose resignation was accepted in February last.

PROPERTY SALE.—The sale of the Lobban property advertised this week offers an excellent chance for the securing of nice building lots. Quite a large portion of the property, however, is to be offered in one lot and will make an excellent market farm.

THE "WORLD" says if Mr. Mitchell doesn't run for Northumberland and take Mr. Snowball's thumb, two or three others are ready and willing to do so. Just so, the whole lot of them would like to run. The "World" will get used to our affairs by and bye and learn to keep cool.

THUNDER!—They, actually, had thunder showers at St. John on 2nd of May, although the Kennebecasis, Miramichi, Bathurst Harbor and almost all other inland and semi-land Provincial waters were frozen up. On the evening of the same day a blinding snow storm prevailed at Chatham.

FOR SUMMER.—Mr. Alex. Robinson has on hand a very fine lot of new wagons of different kinds, of his own make, also carts, slovens, etc.—a variety from which almost any requirement may be met. He has also a lot of second-hand wagons in good repair for sale cheap, to make room for new stock.

GOOD SHOOTING.—Our Hardwick correspondent writes:—"C. S. Ramsay Esq., has been in Hardwick the last few days gunning. On Tuesday the 2nd Mr. Ammon Savoy and Mr. Ramsay shot 16 geese and 5 smaller birds; besides these Mr. Ramsay succeeded in shooting a good many geese, brant and ducks. He will take a fine lot of fowl to Newcastle when he goes home."

A CORNER IN DEATH.—Mr. Gibson has, we are told, bought all the deals in the Province. His shipments during the past few weeks have been enormous, averaging fully two million feet a day.—Friedlander Herald.

The St. John River is not quite the whole Province, just yet, and we doubt whether Mr. Gibson has secured all the deals, even there. It will be found that Mr. Gibson has not bought even one half of all the deals in the Province.

FOR THE "TELEGRAPH."—A correspondent sends us the following for an explanation:—"The Alexandrova was bound from Rotterdam, in ballast, to Cardiff, to load for Calcutta, having sailed from Rotterdam about ten days ago, after discharging a cargo of wheat landed at Calcutta."

The sentence occurred an item in the Telegraph of 2nd inst, and we confess that we cannot understand it. Perhaps the Telegraph will explain how the vessel came to sail from Rotterdam after discharging a cargo of wheat at Calcutta in the matter?

THE "ADVOCATE" intimates that an extra sent from this office last week was with the compliments of Mr. Snowball, M. P. This is untrue. We believe Mr. Snowball obtained some of the same sheets and had them sent out, with his compliments. The Advocate complains that some of our subscribers in Newcastle did not get our extra. Well, our circulation there was larger than our supply of the extras, and we were obliged, reluctantly, to slight some of our best friends. If the Advocate has "nosed" out any other matter connected with our business and will let us know, we will do what we can to explain. Meantime we hope our esteemed contemporary will preserve its temper.

Melancholy Accident.—Our Hardwick correspondent, writing on 4th inst., says:—"A sad accident happened in this Parish, to-day, which resulted in the death of a fine young man about 25 years of age, whose name was Joseph Manuel, Jr. He was out in a flat-bottomed boat, shooting, and fired at a flock of ducks and the boat upset; he got hold of the boat and drifted down the channel, which runs out from Huckleberry Island and McLean's Beach, and which is known as McLean's Gully. There was no other boat in the channel but the one and he could not be reached until the boat

drifted down a long distance and caught against a point of ice. He did not let go his hold of the boat, and Joseph Martin got him. He was then insensible. He was conveyed to Daniel McLean's house where all available remedies were applied to restore him, but he died soon after he was got to the house. The deceased leaves a wife and one child.

Curating.—Chatham had the honor of playing the first game of curating of the season now closed and also the last. The ice at the Club's rink was in fair condition on Friday morning, 5th inst., when sides were made up about half past six o'clock and a game played as follows:—

Jan. Bassett, Wm. Johnston, Geo. Stothart, R. Murray, John McDonald, Arthur Johnston, Wm. Wilson, skip 7. D. Chesman, skip 5.

Later curating than this has never been played in Canada.

Bathurst Notes.—MAY 9th, 1882.

Henry C. Baldwin, Esq., Registrar of Deeds and Judge of Probates for this County, died at his residence on Tuesday the 2nd inst., as stated in last week's ADVANCE. Having been a resident of Bathurst for upwards of half a century and during a very large portion of that period held the most important public offices in the County, his death calls for more than a mere passing notice and affords a fitting opportunity for a short sketch of a life that has been so largely devoted to the public service. He was an Irishman by birth and emigrated to St. John when a boy. He came to Bathurst from St. John in the year 1831 and engaged in mercantile pursuits in partnership with Mr. Frank Wheeler. On the 4th April, 1837, he was appointed Sheriff of the County, which office he held till the year 1853, when he was succeeded by Sheriff Carman. He was again appointed to the office in 1855 and resigned in 1857, when he was succeeded by Sheriff Waldon. He was a very efficient officer, and possessed good administrative abilities, he performed the duties of his office in a manner alike creditable to himself, the office and the County. In the year 1840 he was appointed Registrar of Deeds, succeeding the late William End, and in 1842 he was appointed Judge of Probates, both of which offices he held till his death. In his official capacity he was ever courteous and attentive, and he possessed in a marked degree the entire confidence of the public. It may be said that it will be some time before his position is successfully filled. He had the respect of all who knew him and information received from him upon what ever subject was always to be relied on. He was sworn in to all the above offices by the late William End. In 1855 he was appointed a Notary Public and was granted the freedom of the City of St. John in 1829. Mineralogy was his favorite subject, upon which he was thoroughly posted. In his younger days he explored several of the rivers of the County in search of minerals, which resulted in his discovery of what are known as the Baldwin copper mines on the Nepisiguit River and to which the attention of American capitalists has lately been directed. He was always sanguine of successful ultimate results from these mines. He died possessed of them. He was something of an antiquary in his way, and kept a diary which was regularly posted and contains much that would be valuable to the future historian of this section of the Province.

He was a member of the Church of England, holding Evangelical views, and has, since his coming to the country, been an active member of St. George's congregation, by whom he will be buried. He leaves a sister, two sons and a daughter to whom he will be a father and a son-in-law. He leaves a sister, two sons and a daughter to whom he will be a father and a son-in-law. He leaves a sister, two sons and a daughter to whom he will be a father and a son-in-law.

The examinations of the public schools which took place on Friday the 28th ult. were very creditable and satisfactory. In the Grammar School the scholars were examined in reading, spelling, narrative composition, arithmetic, practical mathematics, French reading, translating and parsing Latin reading, translating, parsing and scanning. The Latin class were subjected to a severe examination in Ovid's metamorphoses by Messrs. Sievwright, Burnham and W. J. O'Brien, and acquitted themselves very well. K. F. Burns Esq., handled the class in arithmetic, and Messrs. Sievwright and J. M. O'Brien in French. A spelling match came off at the close, Miss L. Miller carrying off the prize. The spelling was very good indeed. Prizes furnished by Messrs. K. F. Burns, W. J. O'Brien and Sievwright were awarded as follows:—General Standing, 1st, H. Hornbrook, 2nd, Lizzie Miller, 3rd, Philip St. Caenr. Arithmetic, Lizzie Miller, Orthography, 1st, Lizzie Miller, 2nd, H. Hornbrook, 3rd, Sievwright, Secy. to Trustees, complimented the pupils upon the proficiency to which they had attained as also the Teacher Mr. J. W. Mersereau, on the zeal and ability which he had displayed. On behalf of the Trustees, he expressed himself as highly satisfied with the standing of the school.

THE ICE. The Bar ice moved out this morning. The ice in the harbor is much broken and will soon be gone.

The Irish Question.—A Dublin despatch of 3rd inst. says:—"Parnell and O'Kelly have been released from Kilmalmain jail. After their release they drove in a cab around the outskirts of the city to Harcourt street station, where they took the train for Avondale. They were to remain at Parnell's residence two days and arrive in London on Friday."

In the House of Lords on Tuesday evening, 2nd inst., Earl Granville announced the resignation of Mr. Forster, Chief Secretary for Ireland, and the intention of the Government to release the three imprisoned members of Parliament.

Earl Granville stated that the reconsideration of the prisoners' cases would not extend to the case of Michael Davitt.

Mr. Gladstone, in the Commons, made an announcement similar to that of Earl Granville in the House of Lords. Mr. Gladstone stated that a large number of other suspects will be cleared, and that the Government, instead of renewing the Coercion Act, would introduce a measure

remedying the administration of justice in Ireland. He said instructions had already been sent to Ireland for the release of three imprisoned members of Parliament and that the list of suspects is being carefully considered with a view to release all except those arrested on suspicion of having been personally concerned in outrages. These releases would be on the Government's sole responsibility. Mr. Gladstone stated that Mr. Forster resigned because he was not willing to share this responsibility, and that Mr. Forster would make a personal explanation on Thursday. The measure which the Government will introduce remedying the administration of justice in Ireland, deals with the protection of life and property.

Mr. Seaton, at the conclusion of Mr. Gladstone's remarks, said that the Government had taken the first step in a policy that would crown its administration with glory, and would produce ties of mutual interest between Ireland and England.

Brutal Political Murders in Ireland.—One of the most revolting crimes ever committed was the murder on Saturday afternoon last, of the Chief Secretary and Under Secretary for Ireland, in Dublin Park. From among the many press despatches giving details, we select the following:—

DECEASED, May 7.—Lord Frederick Cavendish and Mr. Thos. Henry Burke, Under-Secretary for Ireland, were assassinated at 7.10 o'clock last evening in Phoenix Park. They were strolling in the Park about half a mile from the city gate and a quarter of a mile from the Chief Secretary's lodge, when a car drove up containing four men, two of whom jumped down from the car and attacked Lord Cavendish and Mr. Burke, stabbing them both several times in the throat and breast. The victims struggled hard for life, and in the struggle became separated, their bodies being found some 10 paces apart. The bodies were first discovered by two young gentlemen riding bicycles through the Park. Rides soon reached the spot, and their examination showed the act the murderers immediately drove off. A large quantity of notes and gold coin, besides their gold watches, were found in the pockets of the victims, which showed the object of the crime was not robbery.

DUBLIN, May 8.—Capt. Greatrix, of the Dragoons, who thought the affair in the Park had been a drunken row, said, as the men passed, "You have roughly handled them." They replied roughly, "You be damned." Greatrix says he can identify one of the men concerned in the assassination, and a gate keeper of the Park says he can identify two.

LONDON, May 8.—The Times says it is imperatively necessary that Gladstone should prove to England without an hour's delay that he has at length come to understand the true nature of the Irish difficulty. No attempt to explain the murders as an accidental outbreak, or as the least hopeless effort of organized disaffection, will avail with those who advocate Forster's measures as indispensable for restoring order.

The Standard says Burke being an Irishman and a Roman Catholic, one would have thought that those circumstances would have disarmed hostility in his case.

New York, May 8.—Speaking of the assassination, O'Donovan Rossa to day said: "The deed was not done by these milk-and-water Land Leaguers who prate much of us freeing Ireland and ridding the country of landlordism without striking a blow. This blow has now been struck by men—if they happen to be Irishmen—who fight the wrongs of their country and would not flinch from the word of a despotic man. They shall have no word of denunciation from us. Cavendish was killed perhaps on account of being in bad company. Burke was about the slimiest target living. He was Forster's instructor. It was he who used to point out where arrests were to be made and who were to be arrested."

Dublin, May 9.—The jury of inquest returned a verdict of willful murder against some person or persons unknown. A man named Charles Moore was arrested on suspicion at Mayoath last evening. He had travelled by the four o'clock train to Dublin. He stated that he intended to do so to Longford, but, feeling ill, had taken a ticket for Mayoath. He almost fainted when arrested. He returned from America last Friday. He answered the description of one of the murderers, and has marks on his face, which were formerly in the army. Moore has been brought to Dublin for identification.

Two men with a dray on Saturday evening nearly came in contact with a red-backed car, which contained four men, who can be identified.

The police have issued a circular giving a description of the two men who is believed to have committed the murders of Cavendish and Burke, and calling for their apprehension.

Another arrest is reported at Kildare. It is reported that a car containing four persons was seen on Saturday night driving off from the Knockmaroon gate of Phoenix Park, in the direction of Lucan, and the horse was covered with foam and dust. This report corroborates the evidence given at the inquest to-day, and the police can follow up this clue there is some hope of the capture of the murderers.

The draymen who were nearly run into by the car supposed to have contained the assassins of the Secretaries were returning from Mayoath when they met the car, the occupants of the car appeared to be greatly excited and motioned the draymen to halt to clear the way. One of the party aimed a blow with a stick at the driver of the dray. The witnesses feel certain that they could identify two of the strangers.

One of them had an English rather than an Irish accent, another had a black beard, the third wore a buff colored dust coat, the fourth appeared about 22 years of age and had a soldier like bearing. The man who attempted to strike the blow held his hand up to prevent his face being seen.

At an inquest yesterday, on the bodies of Cavendish and Burke, medical evidence was given that the victims had apparently been stabbed simultaneously before and behind with long bowie knives. The wounds all appeared to have been inflicted with exactly similar weapons.

ROME, May 9.—When the Pope heard of the assassination he sent instructions to Irish Bishops to request the clergy to express from the pulpits execration of the crime, and exhort the faithful to respect the law of the land.

DUBLIN, May 9th.—The man who drove the murderers' car has been arrested.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will cure and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Putnam's Painless Corn Extractor, the great remedy for corns, is absolutely safe and does its work promptly, without in the least interfering with the comfort of patients, and is absolutely alone as a safe, painless remedy for corns. Do not be imposed upon by dangerous counterfeits. Use only PUTNAM'S CORN EXTRACTOR. Beware of base substitutes. Sold everywhere by druggists and dealers in medicine.
