Mr. Burns. Coming as 1 do from a county in the same Province as the hon. gentleman's county is in, and having identical interests with the County of Northumberland, I think it right to criticise, in a few words, the remarks which have fall en from the hon, gentleman who represents that county. I think he was rather importunate in the argument he addressed to the House. I think he was rather importunate in claiming that the National Policy had not only not benefited the lumbering and the fishing industries of the County of Northumberland, but was actually injuring them. That I entirely deny. The hon, gentleman mentions two or three items to show how the National Policy has injured these industries. He mentioned the item of axes. Now I would ask the hon, gentleman how many axes have been imported into the County of Northumberland during the past tifteen years. I contend that 95 per cent of the axes used in the County of Northumberland during that time, and under a Tariff of 15 or 171 per cent., were manufactured in the Province of New Brunswick or in the Province of Quebec. The National Policy did not affect the price one iota, unless it lowered the price, by giving the manufacturers an enlarged market. With regard to chains, to which he also referred. I ask him if their cost has been increased 21 per cent. by the National Policy? I might ask the same question with regard to the article of harness. I can simply say that not 5 per cent, of the harness used in the County of Northum berland, during the last fifteen or twenty years, has been imported. All the harness used in the lumber industry has been made in Canada, and largely in the chief town of the county; and its cost has not been increased to any appreciable extent. The hon. gentleman also spoke of flour. How many barrels of flour have been imported from the United States into the County of Northumberland during the last tifte-n years? All the flour Jused inthe northern part of New Brunswick comes from Quebec or Ontario, and that flour. being a portion of the surplus produced by these Provinces, is not enhanced oncent in its price. In regard to the question of cornmeal I am free to admit that the sentiment of the people of New Brunswick is in favor of placing cornmeal on the Free List; but, in acknowledging that fact, I say there is not the clamor against the imposition of the duty which is represented to exist, nor is cornmeal used down there as a matter of food to the extent claimed. A great portion used in New Brunswick is used for horse feed, and, on account of the imposition of the duty, a large quantity of oats is kept out of the country to the damage of the American farmers and advantage of the farmers in New Brunswick an l Quebec. Mr. Mackenzie. It is evident we are drifting into a discussion on the Tariff,

produced or not. Mr. Speaker. I hardly know how much latitude is to be given in this matter. The papers called for all relate to the Tariff, and it is difficult to say whether they have not some connection with the subject brought up by the hon. gentle man. at ali. Unl ke the hon, member for Northumberland, I endeavored to give my views on the Tariff in the debate on the Budget Speech. I was saving that commeal not used for human food in the Lower Provinces to the extent represented, and therefore, when it comes into competition with grain the benefit is to the farmer. I come to another item which shows the fallacy of the arguments of the hon, member for Northumberland, that is with respect to the fisheries. He has claimed pared to say what is the number of men as follows. who are benefited in his county by it; but in the county I have the honor to represent, a very great deal of good has been, and is being done, because of that bounty. We have at least 500 fishing boats there. The House can easily understand the immense benefit the bounty is to those people. In connection with the fishing and lumbering business I may refer to two important articles of food, tea and pork. We have now free tea. That is a great boon to the lumbermen and enormous consumption of tea there is in the woods. Any time you go to a lumbering camp, the first thing put before you is a good tin panakin of black tea. and as the quantity consumed is very large the admission of tea without duty is a great boon to the lumbermen. The next item is that of pork. Under the old Tariff the same duty was imposed on pork as now, that is one cent per lh .. so that in respect to that article the Tariff does not impose any additional duty. I have no desire to occupy the attention of the House at greater length. but rose simply to refute a number of statements made by the hon, member for Northumberland.

I know my obligations, and as member sent here to support the Government I know my duty, and I intend to support them until I find that their gen ra! policy is such that I cannot support them; and then I will know what course to take; but the idea of that hon, gentleman telling me here-he who was a Minister of the members of Parliament, and members of the Press, and friends outside of Parliament to support him, and he was very indignant when they did not support himthe idea of that hon, gentleman, who has been a Minister of the Crown, and who knows the obligations of members of Parliament to their party and to the Govern ment—the idea of his—simply because I ventured to say that the cases were analogons, as I believe them to be-throwing that insult-shall I say-

And when poor Gallant was there, why did not Mr. Adams impress him with the fact that he must not too closely imitate the political morality of his distinguished patron. If Mr. Adams had secured a subsidy for the poor fellow he might have escaped being sent to Dorchester gaol.

Deanery of Chatham Choral Union -D. C. S. Meetings, etc.

The first annual service of the Deanery of Chatham Choral Union was held in St. Mary's Chapel, Chatham, on Wednesday evening, the 11th inst., at 7.30. The church was filled with a very large and interested congregation. The choir, which numbered about 30 singers, was composed of members of St. Mary's, Lost -. Between Hon. T. F. Gillespie's St. Paul's and St. Andrew's, (Newcastle), and Mr. Wm. Kerr's Napan, one railway choirs, and was under the conductorship of Rev. Canon Medley, Rector of Sussex, K. C. The music was rendered in a highly satisfactory manner, and notwithstanding the difficulty of holding united preparatory practices, owing to the condition of the travelling, gave evidence of careful preparation. His Lorship, Bishop Kingdon-accompanied by most of the clergy of the Deanery, and the Rev'ds H. S. Wainwright, Rector of Kingston, K. C., and J. Roy Campbell, Rector of Dorchester-was present on the occasion and preached an able and interesting sermon, from the text 1 Cor. 16, verse 22. The prayers were said by the Rev. H. S. Rev. J. Roy Campbell and the 2nd lesson by Rev. W. H. Street, Rector of Bathurst. A SUMMER RESORT.-Mr. Williston's The clergy, followed by the Bishop entered the church at the beginning of the ser vice in procession while the hymn "Ten thousand times ten thousand," was being sung, and at the close of the service retired in the same manner, while the hymn "The roseate hues of early dawn," was which amounted to \$14, was for the funds of the choir union. S. was organised on the general plan of the So ciety for Promoting Christian Knowledge and the Society for the Propagation of the Gospel, under the auspices of Bishop Inglis of Nova Scotia, whose Diocese embraced New Brunswick, Fredericton being at that time (1836) in charge of Archdeacon Costar. The Speaker traced the work of the Society down to the time when the first Bishop of New Brunswick was appointed, and showed that while it Society for the Propogation of the Gospel, which had always paid the clergy it sent to the Province, changed its mode of support and decided to give the D.
