SAMPLE ROOMS. For Commercial Men

THE demand for Sample Rooms to accommodate the commercial travellers being so great, and the supply being inadequate, causing the travellers some instances to remain three or four days awaiting their turn, has induced the subscriber t build two Sample Rooms, well lighted, aired and warm. Commercial men can depend on obtaining just what they require, being situated in the cen tral part of the business community, namely, cor-ner Main and Wesley Streets, they will be found to be far more suitable, comfortable and convenient.
Should a horse and sleigh be required it will be furnished without additional expense. Rooms se cured either by letter or telegram.

FURNITURE EMPORIUM

The Golden Ball Boot and Shoe Store is the oldest established in Miramichi. It is now ffteen years since we commenced business exclusively in the above line, and we can now point with pleasure, to hosts of pations, who have invariably, purchased from us, during that length of time. The reason is plain. We buy entirely from the best manufacturers, consequently our goods give satisfaction. We might purchase cheap, shoddy goods (that are only meant to sell and not to wear) but by pursuing that policy, it would be impossible to retain our customers. The best goods are the cheapest in the end.

We have full lines of

Children's Misses', Youth's, Boy's Women's and Men's Boots Shoes, Slippers. etc.,

The Secretary presented the report of the past year's work, from which the fol lowing extracts are made: The donations for the year amount

\$5,358,16, as compared with \$3,401.53 i 1882. This increase has led the committee to increase the staff of colporteurs to thirty men, to be located as follows: Eleven in Nova Scotia, twelve in New Brunswick, three in Cape Breton, two ir Prince Edward Island, and two in New-

SUMMARY OF COLPORTAGE IN 1883. Twenty-six men have been at work in the Provinces for some portion of the year. Their united services equal that of one man for twelve and one fourth years. Miles travelled aggregate 20,841. Sales tortured animals are exhibiting their spirit amount to \$13,332.86. Grants to the needy, \$913,85. Religious meetings participated in by colporteurs number 625. Protestant families found destitute God's Word and supplied, reach the surprising number of 205.

FINANCIAL ASPECT OF THE YFAR. In 1881 the volume of receipts from sources was \$20,761.18; in the past year the Treasurer's statement shows a total of \$31,517.88. The increase is principally due to bequests, increased donations and colporteur sales.

BIBLE CIRCULATION. With pleasure we note that during the past year the importation has reached the large numbers 15,500 Bibles and 15,800 Testaments.

HALF-PRICE SUNDAY SCHOOL LIBRARIES.

To supply the rising generation with suitable Sunday School books is an important branch of our work. For fifteen years the committee have been selecting from the various publishing houses in Great Britain and America the choicest publications for this purpose, until now the collection for Sunday Schools is un equalled in the Maritime Provinces. Among the most popular of our publications are the new half-price books of the Religious Tract Society, London. They take first rank among Sunday School books for the durable nature of the binding. having strong leather backs and black come pepular with Medicloth covers; for the clearness of type and character of illustrations, and, what more important than all else, for their thorough soundness in doctrine. The demand for these has steadily increased To meet this demand and to interest schools in remote sections in securing a supply of substantial and cheap reading matter, we have obtained permission from the publishers to supply our colporteurs with these libraries, so that superinten-

The Useless Check Rein.

WHAT THE ILLINOIS HUMANE SOCIETY SAYS ABOUT IT. The Illinois Humane Society has pub lished a little pamphlet on the useless

check rein, in the course of which it says "Why men possessed of ordinary intel igence in other respects should resort to such a device as the over-check for use on horses can only be accounted for on the ground that when a new fashion is intro duced people often adopt it without con-

from the mouth over the horse's head is a most foolish contrivance of torture which possesses not one excuse for its use. The butcher who transports a number of calves in his wagon and allows their heads to dangle over the sides of the box, excuses himself on the score of want of room. The teamster who brutally pounds his horses when they are unable to draw the load claims that such beating will sometimes impart more strength. The drover who prods his cattle with a sharp iron defends his barbarity on the plea that the animals can be more rapidly driven when made to suffer from this pain. But the man who fastens up his horse's head in an unnatural, painful position, with nose extended and eyes glaring upward at the sun has absolutely no excuse. "He cannot claim that the horse travels better, is surer footed or draws more. And he certainly cannot excuse himself on the claim that the animal presents a bet. me of Rheumatism after I tried many ter appearance, for the exact contrary is medicines to no purpose. It is a good

much complaint, but as the hours go by and the pain in the neck becomes excraciating, and the mouth bloody from the

effort to get the head down, they will understand and appreciate what causes the continual restless tossing of the head which the horse exhibits when he is thus tortured by the over-check. To add to the pain arising from this terrible, unnatural position, let these men, while the sun is blinding their eyes, with their burdens to draw or carry, unable to see where they are to step, be whipped into a run over the rough roads of the town, and we have the brutality of the exhibition complete. "A day of watching the best horses of

head held up thus and eyes blinded by

the sun, and unable to see where he steps,

the horse is compelled to travel at a rapid

rate over our common roads, drawing a buggy which often contains two or three persons. In order to fully realise what the horse has to endure, suppose we eheck up a couple of the drivers of these

"The first ten minutes these men will probably endure this torture without

horses into this unnatural position.

our city as they are being driven will reveal the fact that this torture is imposed on them under the impression on the part of their owners that rigged out thus, with a straight strap over their necks, they exhibit more 'style.' The real fact is, however, that the horse is greatly injured in appearance." It would be easy to multiply authorities

showing the commercial folly, the artistic absurdity and the practical uselessness of these bearing reins, so that long before humanity calls out, common sense would have the matter settled, but experience shows that neither of these produces the desired end. Ignerant owners allow lazy coachmen to do as they please. Purse proud women vainly imagine that their when they stamp and twist and toss and suffer. And, doubtless, many stable men are as ignorant as their masters. Fortunately there is a law which can take hold of it, and a society whose duty it is to enforce the law. A new development of this particular cruelty appears to have blossomed out, as a drive or walk along our fashionable streets will disclose. The spirit of the people is against it and any effort made by proper authority to compel a humanity which other considerations fail to secure would be in harmony with the desire of the general public.

"The Old Life Preserver" is what they call Johnson's Anodyne Liniment way up in Maine where it is made. This name is well deserved, for it is the best liniment in the world. It will certainly prevent diphtheria, and will relieve croup and asthma instantly .- Western Paper.

Expose the Fraud.

Patent medicine venders are now putting up condition powders in packages as large as a nigger's foot for 25 cents, but they are utterly worthless. One small package of Sheridan's Condition Powders is worth a dray-load of them. Gen'ls Andrew Jackson, G. T. Bean-

regard and Jubal A. Early.

The military chieftains above named were brought in strange contact a few days ago at New Orleans, La., on the 9th of January, 1883, when the 152d Grand Monthly Drawing of the Louisiana State Lottery took place, immediately after the anniversary of the Battle of New Orleans, known there as St. Andrew Jackson's day, and is observed as a general holiday. Gen'ls Beauregard and Early had (as they always do) the entire management of the distribution of \$265,500 in prizes, and here dents and pastors may make their own selection.
