The most astonishing claim yet made in behalf of electricity is that it has been to speak with a distant friend, but to see him. According to the Otago Times, Dr. The paper in question says that a public test of this instrument was made in Melbourne in the presence of some forty scienof white burnished metal, the race course at Flemington, with its myriad hosts of active beings. Each minute detail stood out with perfect fidelity to the original, and as they looked at the wonderful picture through binocular glasses it was difficult to imagine that they were not actually on the course itself, and moving among those whose actions they could so com-

Two new parts-Nos. 15 and 16 of Picturesque Canada-have been issued. They describe the Niagara District. which is deeply interesting, natural ly, historically, and for its canal.-Part 15 contains a number of very fine views taken in the vicinity of the falls and the rapids, and part 16 is scarcely less interesting from its views and description of what man has done to overcome the obstacles to navigation by reason of the falls and rivers.
