It is a dangerous thing to neglect a cough or cold or any difficulty of the throat or lungs. Lose not a moment getting a bottle of Johnson's Anodyne Liniment. You can rely upon it to cure you. It is also a sure preventive of diphtheria.

THE BEST WAY TO REPAIR STRENGTH and increase the Lodily substance is to invigorate the stomach and improve the circulation with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Simutaneously with the disappearance of indigestion it relieves that morbid despondency, and the nervousness which are as much the product of dyspepsia as the weakness of the stomach and loss of vigor and flesh which proceed from it; as a blood purifier it has no equal.

Five female members of the Salvation Army at Bridgeport, Conn., have been ar-

rested for parading the streets. Mrs. A. Nelson, Brantford, writes: "I was a sufferer from Chronic Dyspepsia for eleven years. Always after eating an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, Chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with best results.

Coun. Freeze said it had been urged by the advocates of the line by the south side of the river that construction by the north side route would be almost impracticable. Assisted by a competent railway surveyor he had gone over the north-side route and was assured that road could be built over the route they had found for about one-third less than the estimates made for the routes laid down by Messrs. Buck and Maxwell, respectively. A good line was found on the north side which had the best country and the most people on it to be accommodated. The south-side route was mostly through green woods and swamps--an unsettled country-while there was excellent lumber land on the north side. The Derby Bark Factory alone would afford a large traffic, as it would receive 200,000 cords of bark a year by the proposed northern line, while the years and a grant of \$15,000,000 to finish traffic from it in supplies and in shipping extract would be very large. As a prac-Fleeing before Cold Winter's Blast. | tical land surveyor he was in a position to say that the road could be built as cheaply by the north as by the south side, while, by the survey he had made. the road would be a mile and a quarter shorter than by the Buck and Maxwell surveys. Then, if the legislation on the subject were changed was there not a possibility of amalgamation between the Valley and Central interests, by which
