TREES. - Ornamental Fruit Trees from S. T. Cannon. Maine, will arrive in Chatham the last of this week and be delivered to parties ordering them, on arrival.

INHUMAN CRUELTY. - A Newcastle con respondent's letter, which will be found in another column, will be quite a revelation to many of our readers. The man who could be guilty of treating a friendless child as therein stated is simply a wretch.

CONCERT AT SEA. - A Concert was given on board the steamer Polynesian on the 19th April, in aid of the Liverpool Seaman's Orphan Institution. The chairman on the occasion was J. B. Snowball, Esq., Mr. Walter C. Miller took part in the programme. - Advocate.

A BROKEN ARM. -Mr. Kethro of this ged in paper-hanging the upper hall of his residence on Thursday last, fell with the staging to the lower hall, breaking one of the bones of his right arm just above the wrist, and being otherwise bruised. - Advocate.

EXTORTION, -A commercial traveller called upon us yesterday to complain of his treatment on the Steamer Andover in the way of charges. He was obliged to pay twenty cents for his passage and twenty cents each for three trunksmaking the charge 80 cents in all from Newcastle to Chatham.

THE "BIG HOLE" of the Northwest Miramichi is one of the best salmon-fish ing privileges on that splendid river, and we have no doubt that Mr. Quigley, the riparian owner, who proposes to lease it by auction at Newcastle on 15th inst. will realise a nice sum for it. The grilse and trout fishing there, also, is excellent, It is one of the nearest to the towns of our first class fishing grounds.

A Modern Colossus. - The Colossus of Rhodes must take a back seat. Bartholdi's Statue of "Liberty Enlightening the World" is a revelation. New York is to be envied. And in some smaller degree we may be envied. We have just been presented with a superb picture, 26x36, by the Travelers Ins. Co., of Hartford, Conn., giving a capital representation of the majestic image.

DRIFT LUMBER, -We are glad to learn that the drift by the freshet from the S.W. boom was largely over-estimated. It did not amount to more than 40,000.

The drift in the Northwest was also arrested at the Railway bridge where R. P. Whitney, Esq. hung a boom and stopped the ice as well as the logs-a new and enterprising feat, for which he deserves great credit.

THE "TRADE REPORTER."-This is the title of a new monthly, published at St. John, the first number of which ha reached us. The purpose of the Trade Reporter is quite ambitious, viz-to give, in concise form, carefully prepared and accurate statements of the condition of trade and business in their various forms throughout the Dominion, and summaries of the commercial enterprises of the world. These will be diversified by articles upon current topics of the day, general intelligence and correspondence.

ORANGE JUDD, Editor of the American Agriculturist for some thirty years, but unconnected with its business manage. ment for a year or two past, has lately retired from its editorial department and located in the West. Mr. Jupo's address is Chicago, Illinois.

HARD UP FOR AN ITEM. - The public of Moncton and vicinity must interest themselves in the Times and its affairs in an unusual degree if we are to judge them by an account in that paper of Friday last of how the office cat was found mewing under the ground floor and released by the boards thereof being raised for the purpose. The Times gravely conjectures that the animal must have got there by its enterprise in the pursuit of mice. Just imagine the rush there would be for the Times if the pranks of all the cats in Moncton were recorded with the care bestowed upon this Times office cat. Such is journalism at "the Bend."

St. John's Church has, for some time, been undergoing exter e alterations and improvements in its is or arrangements. The old pews have been removed and new seats of modern style, in ash and walnut, (stained birch) put in their place. These are arranged so as to make all the sittings face the platform, the seats approaching thereto being placed in circular form. There are two aisles, with 16 seats on each side next the walls of the building, and 13 on each side forming the centre group. The platform has been enlaged by taking in a portion of the adjoining school room, so as to provide ample accommodation for the choir, and this portion of the church, when the improvements are completed, will add much to the effect of the whole. It will be open to all the grades and the reward will be to the pupil making the highest per centage in any one grade. The ordinary work through the year as well as that at the final examination will be the bases of the award.

Home Again .- Mr. Snowball returned to Chatham from England on Wednesday last about midnight. He was met and serenaded by the Chatham band. He is not altogether discouraged by the bad treatment the Railway Company have received at Ottawa, and expresses his lief that the hostility of the Dominion Government has been created by misre presentations that will yet be dispelled. and that justice will be done in the matter sooner or later. While in England he contracted, absolutely, in of the Company, for 3,000 steel rails and, conditionally, 3,000 tons more. As before stated, a portion of these rails are now en route for

THE RECENT FRESHET has been disparticularly those on the Buctouche river. It is reported that the mill dams of Mr. Coates, James McNairn, Johnson Bros. and Luc Johnson have been damaged more or less. One mill is reported to have been washed away. Several bridges are missing. The Miles Smith mill at Little Buctouche is reported wiped out. The bridge near this mill has been washed away. The dam of Russ' mill, at Kouchibouguac, is among the missing. Peters Bros.' mill was saved by cutting away a portion of the dam. A similar operation prevented the loss of Rev. Mr. Richard's mills. The roads have been much impaired throughout the country by recent heavy rains. - Globe.

GRAND DIVISION.—The Semi-Annual Session of the Grand Division Sons of Temperance was held at Moncton, last week. There were present representatives from Dalhousie, Kingston, Richibucto, Northumberland, Harcourt, Moncton Intercolonial, Salisbury, Guerney and Granite Rock Divisions. Thirteen candidates were initiated. The Secretary's report representated the total member. ship to be 2,564, being a gain of 333 members since last year. Five new Divisions have been established and three resuscitated. The Treasurer's report CHATHAM CASES, -The following is the showed a cash balance on hand of \$229. The vacant Crown Lands are shown by coloring, as are also the lands of the New Brunswick Land and Lumber Company, which comprise the best of our settling lands. The geological formations are indicated by lines and letters, so that by inspection any one can form a tolerably correct opinion of the character of the soil in any district of the Province. The parishes, towns, villages and post offices are all shown correctly. This map, which has been prepared with great care and labour by Mr. Loggie, and in its geological portion has had the advantage of supervision from Prof. Bailey of the University, is intended to be a part of Mr. Jack's equipment at the forthcoming Forestry Exhibition at Edinburgh, and will be a great assistance to him in giving strangers a clear idea of the country. -Fredericton Capital.

THE SHIPPEGAN P. O. MATTER. The following extract, taken from the St. John correspondence of the Montreal Gazette, of date the 25th inst., will show that the above matter, as well as the gross failure of justice consequent upon Stipendiary Magistrate Maclauchlan's dismissing the complaint, and the consequences that that decision may entail, are engaging the attention of the public mind not only throughout this Province but elsewhere,-A trial that gave promise of being a cause celebre has just come to a rather lame and impotent conclusion. The prosecution of the sheriff of Gloucester county, for felony

and misdemeanour, naturally excited a great deal of attention, and the facts of the case, as published in the papers and admitted to be correct, seemed to leave offence was the seizure of a registered letter at a country post office, and the appropriation of its contents in satisfaction of an execution he held against the party to whom it was addressed. The office was in charge of a woman, and the sheriff took the letter out of the bag and carried it off by force, in spite of the protests of the week before the stipendiary magistrate of Bathurst, a perfect Daniel among the a move in the right direction by the aurural magistracy, and the charges against him were summarily dismissed. Correspondence. A Case of Cruelty to an Orphan Child in Newcastle.

Editor of the Advance.

SIR,-The late Dr. Elder, a man whose sympathy always went out to the poor and the suffering, in an editorial once remarked that he believed little children ad to bear more than their share of the sufferings incident to humanity. The truth contained in this statement may never be fully realized until the day when the secrets of all hearts shall be revealed.

The N. Y. Herald of the 22nd ult. contains an account of the arrest of a Mrs. Blinzley, on a charge of cruelty to a little girl whom she had adopted from a charitable institution. The woman "had used a hot poker in punishing the child; the child's skull was fractured; the feet in a horrible condition from either burning or freezing," etc., etc.

A late edition of the Chatham World copied an article relating to the arrest a woman in Chicago for her cruelty to the inmates of a "Home for children." so, we might prolong the list.

To-day, I wish to give publicity to a case of cruelty towards a poor orphan, in order, if possible, to prevent one monster in human form from again receiving the control of a motherless child. Mr. Moody. a dentist of this town, having given "good references" to the Supt. of "The Home hop Coadjutor of Fredericton, visited the for Destitute Children," in Boston, obtainmission of Weldford on Tuesday last, and ed, some weeks ago, a little orphan girl was met at Weldford Station by the Rev- nine years of age. The mystery cleared up when it became known that Moody was in the habit of gagging the little helpless creature while torturing her. The "gag," a wooden one pressed in behind the upper and lower rows of teeth, of itself caused torture. On one occasion the child escaped to Moncton, but was followed by her tormentor and brought back for increased punishment. One night, lately, she again escaped by jumping from the window of the second story. She went to On Monday night Dr. Kingdon left for the Railway Station in the hope of finding her way back to the "Home" in Boston, where she says she was well used, but spent the most of her time in a corner. SHIPPEGAN, N. B., April 28th, 1884. MR. EDITOR, -Having left Bathurst for home Friday morning, I was not present at the conclusion of the Shippegan P.
