It seems that one the most skilful physicians, but they did of the men was felling a tree which in its descent fel in a different direction from what was anticipated. The workman, seeing his danger, with the intention of making his escape, threw his axe from nim not noticing at the time a companion who was coming up to his assistance. The axe thus thrown came against the knee of the coming friend, cutting him very seri ously, and in such a way as to completely disable him. The chopper, meantime, but was struck by it in its descent receiving s rious injuries about the head. Both men have been removed to the house of Mr. Blundel in Balmoral, where every attention is being given to them. We have not learned the names of the men, who are reported to be natives of

The following account of the proceedings of the Municipal Council has been handed to us by a friend.

During the third week in January our County Parliament, commonly called the "Council" held its seventh winter session, and the duties imposed upon its members Shaves and Hair Cuts were, we believe, carefully attended to. The weather was cold and the meetings were not attended by the public to the extent one would wish, if proper interest were taken in the business transacted. However, it is quite probable the quiet and una-suming gentlemen who compose the Council did not regret the absence of outsiders. We believe the ratepayers are we'l satisfied with the Board-from the dignified Warden who so ably fills the chair, to the venerable Constable, whose voice is so often heard repeating the solemn and just a little monotonous cry of "Oyez! Oyez! God save the

Queen!" in our courts. The important work of the session was the adoption of the new valuation made during the past summer. This is the basis on which taxes will be levied on the to remove all kinds of corns and warts.
