spring debility, languor, lassitude, and that general feeling of stupidity, weariness and exhaustion which everyone feels during this season, we should be able to present to our readers such an overwhelming mass of commendatory messages, that the few who have not tried it would do so at once. It is a positive fact, and has been so effectually demonstrated that no one to-day denies it, that the Shaker Blood Syrup contains more real medicinal value than any article now before the public. Hundreds, in spite of their prejudices, are taking The Shaker Blood Syrup, and now honestly declare it to be the best medicine ever offered to the public; and they are quite right, and this sentiment must and will extend just as far as people will allow themselves to be influenced by facts and by the testimony of those people who have tried it and know whereof they speak. In presenting The Shaker Blood Syrup to the public we suffer, because people have been so often humbugged by the weak decoctions with which the country is filled. It is often difficult to make people believe what an advertisement says, because of the evil influence produced by those unreliable, worthless preparations. It is true that honest people are constantly suffering from the effects of dishonesty, and this will probably always be so, but it does not repuire any remarkable ability to see how the real worth of The Shaker Blood Syrup impresses itself upon people. Our reputation rests upon the value of this medicine and we are proud of the record it is making. For sale at Mackenzie's Medical Hall, Chatham, N. B.
