Canadian Live-stock Journal.

There has been few more marked successes in journalism than has been achieved by the CANADIAN LIVE-STOCK JOURNAL, of Hamilton, Ont. Started less than two years ago as a 20-page monthly, it has gone on steadily increasing in matter and interest, as well as in size, first to 24, thne to 28, and finally to 32 pages. Though devoted especially to Stock-raising, it includes The Farm, The Dairy, The Apiary, Poultry, Horticulture and The Home, so that for the general farmer or such farmers as make live-stock breeding in any of its departments a leading feature of their business, we do not know where to find its equal in Canada. We heartily recommend it to our patrons as the leading paper of its class in the Dominion. It is published at Hamilton, Ont., by the Stock Journal Co. Price \$1 per annum. We can furnish it and the ADVANCE together from now to end of 1886 for \$2. Call at our office and examine it, or send to the publisher for a free specimen copy.

Moneton's Market Muddle.

Two years ago the ratepayers of Moncton who still adhere to the old "town meeting," which should have been done away with when the place became incorporated, decided after much wrangling to erect a large building for a public market and opera house. The money was borrowed (from Nova Scotia capitalists) and a handsome and substantial three-story brick building was erected without delay. The public market was occupied a year ago, and the opera house was completed and occupied last spring. The stalls and stands in the market were leased for the first year at a rate considerably above the upset price fixed by the council; the tolls were sold at so high a price that the buyer lost money by the transaction, and the opera house when finished was leased "did engage in loud bawling, yelling, close to a most delightful trip along the for a five years term at \$975. The troubles began in conmembers of the craft but with all classes | was Archibald McKay, who gave as sureties two prominent merchants. McKay's tender (\$975 a year for five years) was several hundred dollars above that of the next highest. He was a man who had had no experience in such matters, and the knowing ones predicted that he was giving too high a rental and that there would be trouble. He took possession in May last, paid two quarters rent satisfactorily and closed the opera house against the public in October, claiming that the town had failed to put in heating apparatus as specified in the lease. The council offered to put in the apparatus if allow ed access to the building. This McKay refused to give and the result is that the opera house is still closed, while McKay has instituted an action against the town for \$3,000 damages, and the town has sued McKay's bondsmen for rent due.

THE SECOND TROUBLE came recently. The butchers and others holding stalls and stands in the market met, and by resolution sent to the council, decided on what terms they would renew their leases. They had been paying from \$80 to \$140 for stalls and stands, and paid country market tolls for everything they sold. The butchers also paid an annual license of \$2 9 They decided to pay the current year not more than \$100 for th best stalls, and \$80 for stands, including license fees, and to pay no tolls. The council refused to entertain their proposition and offered the stalls and stands at same rate as last year. The proprietors of stalls and stands struck in a body, and on the 1st instant every place in the market was deserted, the butchers taking up positions in the section set apart for a country market. Since then two or three of the stalls have been leased, the others gress against reciprocity with Canada in remain empty. Some of the butchers asserted their determination to open shops outside of the market building and to test before the assembling of Congress, and the law which prohibits the cutting of
