GENERAL BUSINESS. FARM MACHINERY AND CARRIAGES. I have just received for the spring trade, 1 car load of Wilkinson's FIRST PRIZE STEEL PLOWS (No. 5, and one horse.) 1 car load of GILLIE'S FLEXIBLE STEEL and IRON HARROWS. Wisner's Combined Drill and Broadcast SEEDER.

This Seeder is without doubt the best machine of its kind made in Canada at the present time. It will adapt itself to the wants of any farmer. It can be arranged to sow grain in any quantity either broadcast or in drills. It has a separate attachment for sowing hay seed which can be used at the same time the farmer is using the sower for other grain. I have also a large lot of MANN'S BROADCAST SEEDERS. (complete) and ATTACHMENTS FOR HORSE HAY RAKES, which have been extensively used on the North Shore and have given the best of satisfaction. A full stock of PLOW REPAIRS has just been received consisting of: - EL MOULDBOARDS, STEEL LANDSIDES, SHARES, SOLE-SHOES, CLEAVES, COLTERS AND BOLTS for "FARMER'S FRIEND," "LOUISE," "SOLID GOMFORT," "BONA," WILKINSON'S No. 5 and ONE HORSE, and FROST & WOOD'S No. 5 and 8 PLOWS. A car load of CARRIAGES from the celebrated Gananogue Carriage Works daily expected. READ WHAT THE FARMERS SAY who have used the above goods.

Geo. Hildebrand, Esq. DEAR SIR: - I purchased from Messrs. Johnson & Co. through you one of Mann's Seeders, which I have used for four years, and I can safely say that I would not be without it for three times the cost. I could never raise more than 53 or 6 bushels from one when sown by hand, but now I can raise 8 to 9 from one when sown with the Seeder. A farmer who will sow 70 bushels of grain in one year will save enough in that time to pay for his Seeder. I also bought one of your first prize steel plows, I had used two of Frost & Wood's Plows before getting one from you, and I could not get more than three or four days in the week with them. My team is very heavy and my farm is very rocky and whenever they would strike a rock they were sure to break, but the one I got from you proved most satisfactory and easy. I also purchased a heavy iron Harrow from you and have been using it in a very strong soil, and it has given entire satisfaction and stood the test most wonderfully. I was almost getting discouraged with farm work before I purchased these implements, as I was a daily visitor to the Blacksmith's during the farming season. Very respectfully, DANIEL SULLIVAN, Renous, Northumberland Co

Geo. Hildebrand Esq. DEAR SIR: - I have purchased through you of the late firm of Johnson & Co., one Iron Harrow and one of Mann's Broadcast Seeders on wheels. The harrow has been used on my farm three seasons and I am well satisfied with it. It will do twice the amount of work the old wood-frame harrow will do and does it much better, for by means of its narrow sections it adapts itself very nicely to uneven surfaces. I have thoroughly tested it on rough ground and it stood its work first class. The seed-sower is just what is wanted for putting in grain. I have used it for two seasons, and can sow whatever quantity per acre I wish and do it evenly whether there is a wind or not. I am also convinced that machine sown grain ripens more evenly than hand sown, and that less seed requires to be put to the acre. I am, Yours Truly, WM. A. McLAGGAN, Blackville, March 17th 1885. Thos. Flanagan, agent, Chatham, will keep on hand samples of all machinery and a full stock of Repairs. GEO. HILDEBRAND.
