REMINISCENCES. - Preparations have been made for removing the old Methodist Church to make room for the new parsonage to be erected on the same site. While the work of blocking up the building was in progress, Mr. Alex. Reid, of Douglastown, while passing one day, said that he had been born in that cellar a short time after the great Miramich fire. It appears that there were two houses on that lot at the time of the fire, both of which were destroyed. The cellar of one of them was roofed over and the family of which Alex. Reid was a member, lived there for some time. In proof of this statement the old hearth stone was discovered as well as an old frying-pan. - Advocate.

THE TWO WATCH-THIEVES, McRae and Bernard, who were sent up for trial by police magistrate Blair last week, secured an opportunity to have their cases disposed of by Mr. Niven, police magistrate of Newcastle, and two other justices, the trial being brought on yesterday. We have not,, up to the present writing, learned the result, but cannot help believing that it would be more in the interest of justice and a greater discouragement of such crimes, if such matters were allowed to go to the higher courts. THE REDPATH CONCERT COMPANY has a large audience in Masonic hall, Chatham, on Monday evening. The performance was an excellent one, although many who were present hardly anticipated Mr. Rey nolds' style of entertaining them, recitatations and semi-character songs being somewhat off color for such an occasion. Miss Christie's violin solos were superb and, alone, well worth the price charge l for admission. Nothing approaching them was ever before heard by a Chatham audience. Good Work.

On her last voyage from London, the

North Atlantic Steamship Company's steamer, Clifton, was partially disabled. The mishap occurred in the Strait of Canso and was no less serious a matter than the breaking of the high pressure crank-shaft. Chief Engineer White was, however, equal to the emergency and, in a short time had disconnected the broken crank and so "re-organized" the engines as to run the vessel at seven-knot speed with the remaining, or low pressure crank. Charlottetown was reached in safety by careful management, where the "lame duck" was met by the Miramichi tug, Sea King, and assisted to Chatham. On reaching this port the work of making good the damage was entrusted to Mr. Wm. Muirhead's Miramichi Foundry and Machine Works, of which Mr. Geo. Dick is the Mechanical Superintendent. He put on night and day crews, who practically dismounted the steamer's engines, got the spare shaft, which the steamer had on board, up from where it had lain for years, ready for an emergency, fitted it, made good the other damages caused by and consequent upon for sea, in good working order, by the time her cargo was in, so that there was, practically, no detention, excepting the initial one caused by the accident. Much credit is slop basin. The service is handsomely given to Eugineer White for the prompt and efficient manner in which he mastered The many friends of Mr. Johnston will the mishap when it occurred, as well as ing the later work of restoring his engines to perfect working order. It is, also, matter of interest to the owners of steamship tonnage to know that the port of Chatham, which has so well-established a reputation for the production of sailing merchantmen, has also such plant and other facilities as are found at the Miramichi Foundry and Machine Works for the prompt and thorough repair of such breakdowns as that of the Clifton.

Mr. Aitken moved the following resolution in the case, which was adopted: "That this presbytery while not ignoring the serious drawback of blindness, they are of opinion that Mr. Howie is perfectly competent to discharge a pastor's duties His labors within the bounds, as well as his numerous certificates abundantly justify this resolution, and encourage the hope that the General Assembly will see it their duty to admit him to the status

of a minister of this church." "Rev. F. W. George was appointed Commissioner to General Assembly in place of Rev. John McCarter.

His lecture was listened to most attentively by the large number present. The Moncton Transcript gives the following sketch of this gentleman:-Mr. Howie, the blind preacher, is native of Mt. Lebanon and a grandson of a Greek clergyman. In 1874 he visited Britain making Edinburgh his Western home. In 1877 he returned to the East and became Superintendent of a School in Beyrout. The Short Line Railway. Hon. Mr. Thompson has announced in the Dominion Parliament that the government has entered into a contract with the International Company for the construction of the Short Line Railway from Montreal, via Fredericton, to Salisbury. This is a bad blow to St. John interests. but is in accordance with the wishes of the people of Halifax. The sentiment of this city is of course strongly in favor of the route selected. St. George and St. Andrews, and the St. Croix towns, are subjected to grave disappointment by the decision which makes the route definite and final. Still it is better that the road should go by Fredericton than that no Short Line should be built. The work on the road is being pushed, and the prospects for its early completion are said to be excellent. Work is already commenced on several sections in Maine, and in a few days operations will be in progress on the Sherbrooke end .- Bangor Commer-
