PloughIng Match and Cattle Show

The Blackville and Derby Agricultural Society held its annual Ploughing Match and Cattle Show at Indiantown, Derby, on the 13th inst. The exhibition this year was not as large as usual, the number of enteries being very few. This was accounted for by the fact that a great many of the farmers were employed on the railroad and could not spare the time and expense to attend to the exhibition. We the dairy and farm product exhibition, which is held later in the season, combined with Show, thus saving much inconvenience to exhibitors and giving a greater incentive and interest to the exhibition by the increased variety and number of exhibits. The Society now owns the large field in which the Cattle Show took place and expect soon to erect buildings for the storing of grain and the general accommodation of exhibitors, The Society also, we understand, expects to secure one of the horses lately imported by the local government and to travel him under conditions favorable to the public. The ploughing match was successful, but owing to the continued hard dry weather the ground was not in the best of condition. The following is a list of the prize win-

The Toronto Globe says: -

The victory in Quebec is a satisfactory though not unexpected one, which, unless it leads the party everywhere to overconfidence, probably presages the accession of the Liberals to power at Ottawa. We must insist first of all on the evil consequences that may result from undue elation over Mr. Mercier's success. An examination of the yet incomplete majority returns does not lend to the opinion that the revulsion against Toryism Quebec is anything like so general as might be surmised from the bald statement that a Liberal minority of thirty has been turned to a majority of five or six over Tories and Independents combined, or of fifteen or sixteen over the Bella Mills. To the Electors of the County of Northumber land and of the other counties of the North Shore of New Brunswick :-Gentlemen :- Political events that have recently ranspired in the Dominion impress me with the idea that it may not be out of place for me to address you at this time. The Chambly election was, no doubt, a genuine surprise to many of you, while that in Haldimand seemed to still further complicate the situation, so much so that even our wisest politicians cannot now predict with any precision whether we shall or shall not have Dominion election this fall. In the midst of uch uncertainty it is well that at least one of sound, for whatever may be the existing doubts

vour fellow-citizens should give no uncertain surrounding the issues of the great political contest that is pending or not pending, whatever may be the opinions you hold respecting the N. P., the administration of the fisheries, the justice of the stumpage policy, secession, maritime union or annexation, there can be no doubt whatever that with the splendid facilities I now have in both machinery and men, I am safe in saying that I can manufacture Office, Church and School furniture—such as Desks, Bookcases, Counters, Showcases, Pulpits and School Desks—both in solid workmanship and style, equal and, in some features, superior to anything that can be bought in any other town in the Maritime Provinces. On the strength of this assertion I invite any persons in want of such articles to inspect my work and give me a call before going elsewhere.
