New Brunswick and Nova Scotia Lumber Shipments.

It has been our annual custom at this season of the year to publish a statement of the shipments of lumber from New Brunswick and Nova Scotia to the United Kingdom, and, this year, our labors have been lightened very much by receipt of Trade Circular for 1885" and we reproduce its tables in their entirety on the opposite page. The circular says,-

The depression that existed during the year 1884, and that was supposed to have reached bottom, has continued through the year 1885, now closed. The same discouraging results have been repeated, and a further curtailment of production resorted to.

The extreme depression in the trade and heavy losses sustained, have naturally led those interested to question the policy of the local Government of this Province, in increasing While the tax in 1874 represented only about twenty cents per thousand superficial feet, or one shilling and eight pence per St. Petersburg standard, it is now increased until the direct tax and land tax (the tax is levied in two forms) amounts to one dollar and forty cents per thousand superficial feet or twelve shillings (12/.) sterling per St. Petersburg Standard. Without dwelling on the enormity of this tax, we feel the Government will have to grapple with the difficulty with a view to reform.

The shipments from this port for the year show a falling off of 20% from last year, and last year's were 27% less than the year 1883.

The total shipments from the Province show a shortage of over 12%. There would be a much greater re. Peace. duction were it not for the excessive quantity of Nova Scotia goods shipped from St. John this season, which passed as St. John production. Nova Scotia shipments however show an increase of 5.277 St. Petersburg Standards, viz; 40.221 stds. this season against 34.944 stds. for 1884. The only ports in New Brunswick that show any increase are Sackville, Shediac and Cocagne, all ports bordering on Nova Scotia.

The stock being wintered is estimated at 17 millions superficial feet, against 26 millions last year and 40 millions in 1883.

ARRESTED IN BOSTON ON THE CHARGE OF Louis Hammondi will be well remembered in St. John, where he lived for several years, and had much to say and to do concerning the fashions in that city and, indeed, all over the province. He is

Four or five years ago Messrs L. Hollander & Co., the well known Washington street tailors, secured the services of Louis Hammondi to fill the position of head cutter of ladies' and children's garments. Hammondi said he came from Paris a few years before. He was an expert in his line of business,

and commanded a large salary. About a year ago he began to drink heavily, and soon afterward disappeared no one knowing w'ere he ha gone. There were suspicions of dishonesty at that time, and Private Detectives Chapman and Dearborn were engaged by the firm to look up the whereabouts of their expert from Paris. It was then found that Hammondi had embezzled a large quantity of goods from the firm, had sold mortgaged property and engaged in other crooked transactions. It was next ascertained that he was in Montreal and the detectives were taken off from his trail.

After arriving in Montreal Hammondi applied to the firm of Henry Morgan & Co, of that city for a position similar to W J O'Brien, Skip 14 Henry White, Skip 11. that held by him in Boston. IN TROUBLE .- A London despatch says, "The Jersey bank has suspended. The liabilities are not believed to be heavy. The bank was doing only a small business." It is reported that the firm of Robin & Co., the largest fish dealers in the world, are involved in the Jersey bank. This firm has been carrying on business in Cape Breton for over a century, and have large establishments at Arichat, Cheticamp, besides at various places in New Brunswick and Quebec. It is sincerely to be hoped that they are not seriously affected by the failure, and that the present alleged trouble will only be temporary and will not interfere with their extensive business affairs in this province. - Halifax Herald.

HARDWICKE, 17th Jan., 1886. To the Editor of the Miramichi Advance. DEAR SIR, -Allow me space in your columns to draw the attention of the Councillors of Hardwicke and Chatham to a matter affecting the latter Parish. The past summer Mr. Wm, Wyse, one of the Commissioners of roads for Chatham. notified me that I would have to pay my road tax in Chatham. I informed him that I had already done my statute labour where I resided in Hardwicke, in Overseer . John Mills' district, or that my son had done it for one. He said that I had not done so as he had enquired about it and that I was telling him what was not true. I heard nothing more about the matter until after I had refused to point out to him a certain party's box of fish I had landed out of the steamer "Miramichi." on the wharf. This I had a per fect right to do as Master of the above named steamer. After this, through spite, Mr. Wyse had me served with an execution, and I had to pay it, although I I had got from Overseer Mills, showing where I had done my statute labour in Hardwicke long before I was asked for it by the zealous Chatham Commissioner. was taken to Black's and photographed, and those of Nova Scotia, excepting the How is it that other parties who, like my- that one Councillor from each Parish be self, reside in Hardwicke, but are employ- on the Parish Accounts Committee, ed in schooners and steamers plying on whereas two were appointed for Alnwick. came from Paris he worked for a large Thursday last for the purpose of organiz- the Miramichi, were not subject to these Couns. GRIP Canada's Comic Journal! GREAT IMPROVEMENTS

The aim of "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingy than whole colums of editorial. In this pungent, easily appreciable, and artistic style of prenting a subject, the whole situation is revealed at a glance. The success of Grip shows how well this fact is appreciated -its Cartoons on the presing political events of the country being even more agerly sought after than the chaste and humor is letter-press of the paper,-though the latter
