WANTS PROTECTION .- The following story is going the rounds :- In Campbellton there resides an old lady to whose house erican fishermen, when in that port, were in the habit of going for a drink of milk. A short time ago some of these fishermen, who had previously been in the port, went, as they had done before, to the house for a draught of milk, and the old lady, thinking no doubt that she should derive some benefit from the ex. piration of the treaty, charged them more McMillan, were married at the residence than was her wont. During the night the of the bride's father, Rothesay, last week. men came ashore and robbed the old lady's creamery, which is a place apart from her Park. Ili. house. The old lady was, of course, exasperated, and, as the story goes, she has applied to the Dominion government for a cruiser to protect her from further depredations .- Halifax Chronicle.

Kindness to Animals.

Every one should know that kindly treated animals will do their best for

in a race by a strange driver. The horse was evidently dissatisfied and lost two heats. The old driver knew the horse could do better, and begged the owner to be permitted to drive him. His entreaties prevailed, and when he mounted the buggy the horse on TUESDAY next, the 7th Sept whinnied with pleasure, and won the next three heats with ease, making such a record that the owner had an offer of fifteen thousand dollars for the animal. It is always thus. A farm horse kindly treated will do more work than one which is not attached to its owner or he found that Mr. Beecher had caught, driver. A cow will lose milk when attended by a strange or disagreeable person, and one that is petted and treated with gentleness will never exhibit the common fractiousness of kicking or holding up the milk. This is true of all farm animals, who return kindness with affection and generosity, and abundantly repay the consideration shown them by their owners. Every boy, especially every farmer's boy, should early learn to treat all animals with kindness.
