BLOWN DOWN .- One of the two large pine trees that have so long served as channel guides for craft between Newcastle marsh point and their location, nearly opposite the "Tickle," was blown down on Thursday afternoon last.

SKATING RINK. - Owing to the absence of the Secretary of the Skating Rink Company and also of the books with reports, etc. of the year's business, the annual meeting of the stockholders, called for Monday evening last, was postponed until to-morrow (Friday) evening.

To "LIBERAL" .- You should send your name in confidence, although it would hardly be fair to publicly charge the party you refer to with acting the spy and carrying news to the enemy, without giving better evidence than that to which you refer. As to the "inspiration" of the sheet referred to it is a small matter hardly worth

ANNIVERSARY SERVICE &c .- The 2nd anniversary of St. Mary's Juvenile Temperance Guild will be held on Tuesday the 16th inst. There will be evening prayer, with an address, in St. Mary's Chapel at half past seven, after which there will be a social meeting of the children, parents and friends in the Sunday School Room.

Good Work.-On Tuesday afternoon the town steam fire engine and about 2000 feet of hose were submitted to a test on Ritchie's Wharf. The water pressure was run up to 165 lbs. to the square inch and a few lengths of hose only showed signs of weakness. We understand that the tested hose has been distributed to the different engine houses, although it seemed to be a mistake to reel up a quantity of it at once without it being properly

NORTHERN VISITORS.-The N & W Rail road brought excursion parties from Chat ham on Thursday and Friday at one first class fare, \$3.50. Those who arrived on Thursday returned this morning. Last evening's excursionists will remain in the city over Sunday. HUNG UP IN THE GLOAMING. - A New castle correspondent writes as follows:-The Advocate seems to have had the monopoly of bear and skunk stories, but I should like to tell of a young man set to a long metre tune who was treed, or, rather, laddered by a dog-a cross between a bull and black and tan. Perhaps some of your readers will remember two very tall trees a short distance above Newcastle, which mark the spot where a sailor was buried. One of these was blowndown during the gale on Thursday, In pursuit of information for our local paper and regardless of the fourth commandment, our hero sallied forth. Not being wise in his day and generation, he left home without either a clear conscience or umbrella. When quite a distance from the town he was overtaken by the storm and knowing full well how hospitable the people of Newcastle al. ways are, he made for the nearest house. But alas! how often are our sweetest hopes h lighted. ## Serious Fire at Dalhousie,

Dalhousie was visited by a most destructive fire last Wednesday night. It broke out soon after 10 p. m. in a tenement adjoining the building occupied by H, A. There were no fire appliances in the town, so the buildings in the track of the flames could not be saved—all that could be dene being to remove as much as possible of the stocks of the different stores and other removable property in the doomed quarter. The expedition has jately returned and Mr. Mowat reports that they went as far north as Skedeage, on the west coast shore of Queen Charlotte Island, and found black cod there in great abundance in depths of 180 and 210 fathoms with but a temperature of 47 degrees, sur face 53 to 55 degrees: also plenty of the various species of rock fish and great quantities of halibut found. There was no com mon cod off Queen Charlotte or Vancouver Islands at a distance of from four to twelve miles, but found limited quantities in the

## Legal Verbosity.

(New York Herald.) The attack on legal verbosity made by Mr. David Dudley Field in his Buffalo address on law and lawyers is as timely as it is forcible. He shows, for instance, that more than nine hundred words are used in a deed which can be drawn in less than two hundred. ## An Actuary's Opinion.

Mr. D. Parks Fackler, the eminent New York actuary, replying to a policy holder of the Mutual Reserve Fund Life Association gives an opinion of the concern which is not calculated to beget much confidence in the security it offers to those who invest their money in its policies. After dealing with some of its statements and showing their worthlessness he says,-"A concern which puts out such state" ments as that above must be generally unreliable in other respects, though I do not doubt it will continue to make a fair showing for some years to come, while the members are fresh from the medical ex. aminations; but the end will surely come, even though the managers use their facili-
