BUSINESS NOTICE

The "MIRAMICHI ADVANCE" is published at Chatham, Miramichi, N. B, every Thursday morning in time for despatch by the earliest mails of It is sent to any address in Canada, the United States order at Britain (Postage prepaid by the Publisher) at the following rates: One year in advance, If not paid until after 6 months,

Miramichi and the North Shore, etc.

IT GETS FULL TWICE this month not withstanding the Scott Act -the moon.

THE "ADVOCATE" is blasphemously funny over the big drum question and we fear that its method of making parodies of the Scriptures has been acquired from its drum-beating friends.

THE "GLEANER" comes to us in a new dress and displaying other signs of improvement. It is a vigorous paper and its enterprise is fast placing it in the front rank of New Brunswick journals.

THAT FOUR-WINGED GOOSE. - The Advance intimates that Mr. Jardine never had a four-winged goose. We have to inform our contemporary that its four-winged relative was indeed a fact, and that it was seen and examined by many reliable persons. - Advocate. All right, brother.

CARD OF THANKS:-The Rev E. W. Waits, pastor of St. Andrew's Church. Chatham, desires to tender his grateful thanks to the inhabitants of Black Brook for the liberal donation presented to him, on their behalf, by Mrs. Wm. I. Loggie and Mrs. Robert Manderson.

LECTURE AT BLACK BROOK:-The Rev. John Robbins of the first Presbyterian Church, Truro, N, S. will deliver his popular lecture in the new temperance hall, Black Brook on Thursday next, 27th October, at 7.30 p. m. Subject:- "Scotland and France, the home of Knox, and land of Voltaire." Proceeds of lecture in aid of the building fund of the Hall.

A SINGULAR COMBINATION was found in Mr. Wm. Mather's garden, Chatham the other day, it being a potato with a common seal ring, surrounding and grown into one of its ends. The ring had evidently lain in the ground so that the potato germinated within its circle and as the tuber expanded in growth the ring became firmly fixed in it as found.

POSTPONED MEETINGS.—The Rev. Dr. Sutherland, of Toronto, and Rev. Hiraiwa, a native Japanese minister, will address a missionary meeting in Methodist Church, Newcastle, (Thursday) evening, the 20th instsimilar meeting will be held in Chatham to-morrow (Friday) evening, the 21st. These meetings, it will be observed are each one day later than announced last

On the same morning the steamer Canonbary on her way to sea ran into a Norwegian bark at Chatham, breaking away the top gallant mast and topsail yards of the latter.

COUNTY COURT. -The county court opened on Tuesday, Judge Wilkinson presiding. There was one civil case entered, Geo. Brown vs. Jas. Falconer. The plantiff pleads an action for account, the defendant enters a set off and pleads the are hard to beat. Stat to of Limitations. Davidson & Davidson for plaintitt, E. P. Williston for defendant. them that this paper is still the best advertising medium in town.

DAILY MAIL: - The Advocate says that petitions for a daily mail service between Fredericton and the North Shore are in circulation. Both the Advocate and Ap-VANCE have urged this matter upon the notice of the government and the neglect of it year by year can only be accounted for in one way. We hope the time will yet come when all sections of the country will stand equal chances for just treatment in public matters. Northumberland will then be free from the injustice and persecution of Ottawa revenge.

A SMALL BUSINESS: - Councillor Flanagan, who has generally had the enmity of the World, sent his election card to that paper for publication and it appeared in mutilated form in the columns of that paper, which made it read ridiculously. We received a copy of the card for publication and it shows that the mutilation must have been intentional. Mr. Fianagan called for an explanation and was informed by the World people that they had lost the copy since the proof was read.

Blackville and Derby Exhibition. Pilot Dovle brought her into port. The visits of French war-vessels to this port are something like angel's visits, few and far between, consequently considerable nterest was manifested in her arrival, and quite a number of persons were on hand at an early hour to-day to obtain a glimpse at her equipments. They had to content themselves with what they could see from their boats, as visitors were not permitted on board during the morning. W. B. Although the vine did not cover an area greater than about forty square feet, it produced between sixty and seventy pounds of grapes, showing that in this line of horticulture at least, the possibilities of our climate are equal to those of districts much further south. Another proof of the capabilities of the Miramichi for fruit-producing was furnished to us last week from the orchard of Mr. James McDonald of Douglastown, in the form of an apple of the Alexander variety. It was well formed and of beautiful rosy coloring. Its girth was a little F. H. Jardine, over thirteen inches and weight thirteen David Bell, ounces. These products of our district

Councillor Smith, in the absence of his legal adviser, said that he felt the decision of the court was one based rather on the sympathy of the magistrate with the army James Dixon, Derby than on the law as applied to the facts proved by the prosecution, and, such being the case, he desired to protect the public as far as possible by not omitting to do anything at the present stage of the proceedings which would secure to him the right to have the judgment given reviewed by a higher court. Prinds Oscar,

To the Electors of the Parish of Chatham .-GENTLEMEN:-Having been again honored with a nomination for re-election as one of your Councillors, 1 beg to thank you for your generous support in the past. and to express the hope that the manner in which I have discharged my duties has, at least, not lessened the confidence you

have heretofore reposed in me With exception of the fact that two gentlemen, who have already been rejected by you, have again presented themselves as candidates, I am not aware of any expression of dissatisfaction with your representation at the municipal board, but it is only natural that they should seek the "revenge" which their nominors claim is the principal motive of their candidacy, and there are, doubtless, many who do not object to a good-natured contest, especially when it may accelerate otherwise unwilling or tardy contributions of their rates and taxes from those gentlemen's friends, to the parish and county fuuds.

I observe that, in the joint card of my two opponents they intimate that our public services are not managed as economically as they would be if they were elected. One of them made this claim some time since-after you had chosen me as your representative in a single handed contest against him - and being willing to treat him kindly and make him a member of the board of Street and Fire Commissioners for the Town of Chatham, in order to give him an opportunity for the exercise and expansion of his administrative genius, your present councillors secured his appointment as a Street and Fire commissioner for the Town. With singular inconsistency, he now joins his colleague on the "revenge" ticket in assailing the Board of which he is a member, but over whose administration neither of your councillers have any control. If he and some others of the board, who seem to be equally indifferent or inefficient, would tender their resignations, now, your present councillors could fill their places with men who might better understand and perform the duties devolving upon them, but, by making no attempts to bring about the reform or economy they say ought to be effected and still clinging to their positions simply as the do-nothing grumblers they were before we honored them with their appointments, they render us powerless to effect needful changes until the

next meeting of council. I was not aware that the other member of the "revenge" ticket had any grievance this year. Last year, he complained that the street commissioner would not make a drain which he thought should lead from his place of business, and informed me that he was induced to offer himself as a Municipal Candidate because of the way in which the commissioner had treated him. After his defeat on that occasion your councillors caused a new street commissioner to be appointed and, chiefly for sanitary reasons, that officer built the required drain, the want of which was really the genesis of this gentleman's candidature last year. I know that drains sometimes produce noxious exhalations but I do not recollect any previous case in which one became responsible for the presentation to the public of a candidate for municipal

A matter which may not be fully understood by all in the parish at large, is the increase of the assessment of ratepayers this year. It seems that the increase in the total amount levied on the parish for 1887 compared with 1886, is greatly over estimated, and many think that because their individual taxation is considerably higher there has been a proportion-The human digestive apparatus is one ate increase in the gross amount which the of the most complicated and wonderful parish has been called upon to pay. I will endeavor to make it clear that this is

Greasy food, tough food, sloppy food The taxation levied on the parish is for the following services, County School amounted to \$8657.71 in 1886 and fo \$8, 846.74 in 1887—an increase on the whole parish of only \$189.03. Many of you will, no doubt, wonder how, with this slight raised in the town district from 50 cents on the \$100 in 1886 to 60 on the \$100 in health. But Green's August flower brings | 1887 and in the rest of the parish from 35 c. on the \$100 in 1886 to 42 c. on the \$100 Ask your druggist for a bottle. Seventy- in 1887. The reason is this: that when the Secretary-Treasurer sent the warrant of assessment to the assessors this year, he ordered them to strike from the assessment roll the names of two hundred and twenty-five persons who were assessed arrived at Chatham 17th inst, reports the previous year, but were either dead or out of the country. There being that many less persons to pay the total amount of taxation, it, of course increased the amount that each of those remaining has been required to pay. No councillors can prevent the people from leaving the country, and it is very difficult to meet the increasing demands of our public services without some increase of the funds by which they are supported; and in view American barque, signal letters J. F. K. S | of the fact that we have lost the income formerly derived from Tavern licenses, that the decrease of drunkeness and disorder has lessened the revenue which formerly came from police court fines, and that there are less people in the parish to pay taxes, it inevitably follows that the individual taxation must be larger than

> I always consider it a duty to give any information in my possession to any ratepayer who may desire it, and regret that the mode of making nominations does not afford candidates opportunity to address the people before election day, especially

In view of the generous support you have given me in the past, and in the absence of any indication that you feel disposed to withdraw it in the pending election, I shall anticipate my return to the Council for the purpose of serving the interests of the Parish and County as faithfully and independently as I have endeavored to do in the past. I have the honor to be your Obedient Servant,

Ratepayers take Notice That I have received positive instructions a Annual School Meeting on Thursday 13th inst, to notify all rrtepayers that, unless the School Taxes were paid before 1st Nov. next legal proceedings would be taken at once to collect the J.
