Stable Management of Horses.

BY M. C. BAKER, V. S., MONTREAL.

The first essential of the stable management of the horse consists in securing a proper stable. It should be built above ground, and kept free from impurities and with such a regard to drainage as will ensure dryness. The stable roof should be high, not less than eight feet in any case and should be well ventilated, and in such a way that there will be no currents of cold air reaching the horses. When there is but one passage in the stable, the ventilators may ascend from this. It is well to secure plenty of light, but this should not come too directly upon the eye, as in such a case it unduly excites the horse. The stall should be 5½ feet wide and 8 feet long. If a shorter length the horse often stands with his hind feet too low; there is also danger of injury from a kicking neighbor, and of slipping the stifle. For feeding oats an iron box is the best, it is so easily cleaned. When horses are fed in a box there should be a grate in the bottom to allow of the rejected particles falling through.

The amount of feed given is to be determined by the size of the horse and the exercise or work to which he is subjected. High feeding during a period of rest induces indigestion, inflammation of the kidneys and various other diseases. The greatest mistake here consists in feeding an undue amount of hay. If a horse eats hay for one hour in the morning he has enough, at midday none at all, but at night a larger quantity, and this will apply to farm horses as well, although when the days are long they may have a small feed. Water should be given before feeding, when the horses can be induced to drink then, but sometimes they cannot after having been used with the contrary.

Much attention should be given to the shaking up of the bedding, that it may be aired. Horses should be groomed carefully; indeed, too much attention cannot be given to this particular. It is not commendable to clip horses on the approach of winter, as it is always attended with a good deal of risk, without sufficiently corresponding advantages.

When they return from a journey, a little water will be very grateful to them, but more water and the feed of grain should not be given until the temperature becomes normal.

GENERAL NOTES AND NEWS.

BAIRD'S FRENCH OINTMENT cures Itching of the Scalp, or any Eruptions thereon, it stimulates the growth of the Hair, a small quantity applied to the head of children keeps them in a clean and healthy condition.

If your child is suffering from worms, we would recommend you to give at once Dr. McLeans Vegetable Worm Syrup, it is not only a safe and effectual remedy, but an exceedingly pleasant one.

Miraculous.

"MY MIRACULOUS CURE was that I had suffered from kidney disease for about two years, was off work all that time. A friend told me of B. B. B., I tried it, and am happy to say that I was cured by two bottles." Wm. Tier, St. Marys, Ont.

A Professional Opinion.

Rev. F. Gunner, M. D., of Listowel, Ont., says regarding B. B. B., "I have used your excellent Burdock Compound in practice and in my family since 1884, and hold it No. 1 on my list of sanative remedies. Your three busy B's never sting, weaken or worry."

Cholera Infantum

That terrible scourge among children may be speedily cured by Dr. Fowler's Extract of Wild Strawberry. All forms of bowel complaints, nausea and vomiting, from an ordinary diarrhœa to the most severe attack of Canadian cholera, can be subdued by its prompt use. It is the best remedy known for children or adults suffering from summer complaints.

Father is Getting Well.

My daughters say:

"How much better father is since he used Hop Bitters.

He is getting well after his long suffering from a disease declared incurable.

"And we are so glad that he used your Bitters."—A LADY of Utica, N. Y.

Did She Die?

"No!

"She lingered and suffered long, pining away all the time for years."

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery

"Eleven years our daughter suffered on a bed of misery."

From a complication of kidney, liver, rheumatic trouble and Nervous debility. Under the care of the best physicians, Who gave her disease various names, "But no relief",

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Consumption Can be Cured

By proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, which contain the healing and strength-giving virtues of these two valuable specifics in their fullest form. Dr. D. D. McDonald, Petitcodiac, N.B., says: "I have been prescribing Scott's Emlsion with good results. It is especially useful in persons with consumptive tendencies." Put up in 50c. and $1 size.

A Living Miracle

"My infant daughter was taken ill with cholera infantum, the doctor said she could not live. The Reverend Wm. McWilliam would not allow her head to be lifted when he baptised her, she was so weak. Dr. Fowler's Wild Strawberry gave immediate relief. She is a living miracle, hale and hearty. Since that time (7 years) our house has never been without that remedy." * * * * From statement of George Johnston, Harwood, Ont.

A Business Letter.

T. Milburn & Co. Tilsonburg, March 15th 1887.

Sirs,—Please ship at once three dozen B. B. Bitters. Best selling medicine in the shop. Sold seven bottles to-day. Yours truly, C. Thompson.
