HEAVY SNOW STORM. - About five o'clock last evening a heavy snow storm set in, which has proved the heaviest experienced in this city for years in November, fully six inches having fallen up to midnight. At that hour it commenced hailing and at three o'clock this morning the hail storm still prevailed. At 1,30 o'clock this morning No. 3 storm signal was ordered up, indicating a moderate gale

at first from an easterly direction, The ground was in fine condition to re ceive the snow, and there is good sleighing this morning.

The horse cars were not affected in their running time by the storm. The big snow plough soon cleared the rails and with four horses to each car no interruption occi read. -St. John Sun 27.

JUDGE ARMSTRONG'S SUDDEN DEATH -We regret to learn of the sudden death at Sorel, on Friday, of the Hon. Judge Armstrong, the news of which was re ceived by telegraph last evening at the St. Louis Hotel, by Mr. Chas. Armstrong, son of the deceased. The family of the date Judge has been sorely afflicted late, several of its members having died suddenly or almost suddenly within the last few years. The deceased was formerly a judge in the West Indies and of 'ate was President of the Dominion Goven ment Labor Commission. The Arm stron's family is closely connected with that of Sir Hector Langevin. -Quebec

MR. GEO. WATT, who seems still to imagine he is a member of the Chatham Police Committee, has a letter in the World on the subject of some of his un derstandings in reference to the electric street light service, and closes it with characteristic fling at Councillor-elect Smith, whose offence seemed to be that he defeated Mr. Watt in the recent elec tion. It would be more manly if Mr Watt were as courteous to Mr. Smith in his newspaper letters as he finds it necessary to be when he meets him personally. There is no demand just now for exhibitions of Mr Watt's teeth; and he is very silly for exhibiting them as he does, es pecky as the best of them were pulled early in October. He is one of the characters who make people tired, and his constant efforts to push himself into notoriety are as patent as the mess he has ma le in arranging the electric light business, the responsibility of which he tries to throw on other shoulders.

IN :- A young man named David Finton of Chatham, N. B., inquir ed at the I. C. R. Passenger depot, this morning, if there was anyone in Portland named Morgan. On being directed to J. Morgan & Co.'s dry good store he seemed pleased and said that while in Bangor he had lent money to a man who called him self Morgan and who said he kept a dry good establishment in Portland, N. B. at the same time telling some story of wanting a little money to pay a balance to another fellow who appeared. Finton only had two dollars with him which he at once handed out, Morgan telling him to call any time at his shop in Portland, N. B., and get it back.

Finton called at Mr. Morgan's in Portland this morning and of course discovered that it was not the friendly Morgan he met in Bangor, and it slowly dawned on him that he had been duped, -St. John Gazette.

#### Fishermen's Meeting.

A large meeting, representing chiefly the smelt-fishing interest of the Miramichi was held at Masonic Hall yesterday afternoon, Mr. Geo. Watt, Chairman of the Fishermen's Protective Association, occupying the Chair. He read a letter be accepted. addressed to Hon. Mr. Mitchell by Hon. C. H. Tupper, Minister of Fisheries, refusing to grant the prayer of a petition

forwarded by the fishermen, a sking for the privilege of smelt-fishing at a date earlier than Dec. 1st, for a reduction of the bagnet license from \$3 to \$1, and to make the payment of one net tax cover all the districts of the river for that particular net. He also read some telegrams, including one from Col. Tilton, stating that he was detained by the storm at St. Andrews but would communicate with him, Mr Watt, informing him when to expect him here. He said it was for the meeting to consider what steps should be taken for the purpose of removing present erroneous impressions from the Deputy Minister's mind, now that he was to make enquiries in behalf of the Department on the Mira-

A number of speakers addressed the meeting, most of them making practical suggestions, or stating matters of fact to show that the Minister, according to his letter read by Mr. Watt, must be very much misled.

Mr. Donald Morrison of Newcastle stated that Mr. Adams and he had been. for some time, making efforts to induce the Minister to visit Miramichi, and otherwise acting with a view of having the Department obtain more accurate information than it seems to have in reference to our fisheries.

After a good deal of discussion the meeting, by resolution, affirmed the statements and endorsed the prayer of the smelt fishermen's recent petition, varying it, however, so as to ask that bag-net fishing begin on the formation of first ice. It was also ordered that a committee, to be composed of seven practical fishermen and three shippers be appointed to represent the fishermen's interests before the Deputy Minister on his visit to Chatham, the committee to add others to their numper if they thought fit,

The Committee, as appointed, was

Dudley Walls, John Sharp, John Blake, D. Crimmin, Donald Morrison, Geo. Watt, T. Crocker, Wm. Lyons, Jas. Bergin, Geo. Groat.

At a subsequent meeting of the Com mittee Messrs. D. G. Smith of Chatham, George Gordon of Lower Newcastle, Alex Murdoch, Jr., of Napan, and T. B. W iston of Bay du Vin were added.

#### The Green-eyed Monster.

It seems to be the Times' turn now exhibit its jealousy over the fact that does not receive the patronage of Louisiana State Lottery. We had an idea that the feeling was confined to our local contemporaries, but other small fry papers are beginning to share it, although it will doubtless go no further than Moncton. The Times of Saturday said:

A Chatham paper continues to inser the advertisements of the Louisiana Lottery. In Quebec the newspapers are prowith in New Brunswick.

So far as the statement of fraud goes we have to say what we have before stated, viz. -that owing to certain men in Moncton subscribing stock to local enterprises and, afterwards, repudiating their responsibility and also to the fraudulant character of the St. Stephen and other lot teries being established beyond doubt, we made enquiry, through the leading Commercial Agency of the United States, n reference to the transactions of the Louisiana State Lottery, and the report we received was that the drawings took place n a bona fide manner, as advertised, that the prizes were regularly paid and that the business was as honest and legitimate one as a lottery could be. This, taken together with the fact that the lottery is sanctioned by the Louisiana State Legislature, led us to continue its advertisements. As to the Times' exhibition of jealousy over the matter it can have little effect, as no one whose judgment is of any value will have any other feeling but one contempt for a publisher who has so small a mind aud so little to do as to employ himself with the business of other publishers. The ADVANCE's patrons have been frequently annoyed by such men running after them soliciting their advertisements on the "me too" principlesimply because they saw them in the AD VANCE, and the Times is actuated by the same, or a meaner spirit in condemning

The Tory organ at Moncton complains that a Chatham newspaper publishes advertisements of the Louisiana Lottery, and asks why is it not prosecuted, inasmuch as such advertisements are illegal. In the very next column of that mean and hypocritical sheet there is an account by a special reporter of the Times, pubished under a large double black-letter heading, of a prize fight, and the preliminary description in the "special" account of the Times is supplemented by a "later" telegraphic account. Fires. The following report was accidentally

omitted from last week's issue: Mr. John Vanedestine's house took fir about one o'clock on Monday and before being put out was considerably damaged-

chiefly inside. On Monday night, shortly after 11 o'clock, Mr. Jas. Desmond, who lives next door to the Golden Ball corner, had his attention attracted to fire in the warehouse at the rear of the Golden Ball building, Water Street, and gave an alarm. The building was owned by Mr. Wm. Wyse and occupied by him as an auction room and furniture emporium, the two upper rooms being used by the Odd Fellows and Young Men's Christian Association, respectively. The fire seems to have originated in the lower storey of the warehouse which was one floor below the level of Water Street, and when discovered it was burning quite

fire engine in position on the Muirhead third. The engine never worked better nor were the exertions of Chatham firemen ever more strenuous or effective. It was feared that Mr. Desmond's house, on the north and, perhaps, Miss Staples' confectionary and the Central Telephone Station adjoining, as well as Mr. A. Templeton's Lorne Hotel on the south could not be saved, for the old building and warehouse burned fiercely and was so wedged in between the Templeton and Desmond houses as to prevent the firemen getting water on it to advantage. Mr. Templeton, after waiting awhile, was at last persuaded to move his furniture-

entirely gone and the rear portion a heap of charred wood. A portion of Mr. Wyse's stock was saved, and the Odd Fellows succeeded in removing their Doherty Organ from their rooms. They lost nearly all their lodge room furniture and paraphernalia, including a fine carpet and their books. The Young Men's Christian Association

lost some furniture, but saved their car-

Mr. Desmond's building was slightly damaged by being scorched and also by water. The Lorne Hotel was more seriously damaged by water, as a line of hose was taken into it for the purpose of playing a stream from one of the windows opening on the Golden Ball building. All the parties interested, excepting Mr. S. U. McCully, who owns the Lorne Hotel building, were insured. Mr. Wyse had \$1,200 on his main building, in the Central, and \$500 in the Atlas, of London, secuted for publishing frauds of this class. on the warehouse attached. He had also Why should they be more lemently dealt | \$1,250 in the Northern of London and Aberdeen, and \$300 in the Northern Union on his stock, which included fishing outfits, furniture and a variety of other articles. The Oddfellows had \$350 in the London and Lancashire and the Y. M. C. A. had \$150 in the Fire Association of London. Mr. Desmond, whose damage is perhaps \$50, was insured for \$800 in the London and Lancashire. The Oddfellow's loss is about \$200 and that of the Y. M. C. A., \$8. Mr. Wyse's loss will be almost total, while those of Mr. Templeton in removing his furniture; and of Mr. McCully (say \$100) are not covered by insurance. This fire fully demonstrated the need of the formation of Salvage Corps in Chatham and we understand that steps are being taken to organ-

The folfirst, directed, followed in good time by a lowing despatches indicate its severity:-Boston, Nov. 26 .- The British schooner Avalon, Capt. Milberry, from St. John, N. B., for New York, with a cargo of laths, consigned to Scammell Bros., is ashore at Spectacle Island. The Avalon sailed from St. John on Thursday, Nov. 22. At 8 a. m., Nov. 25; when off Cape Cod, the wind increased to a heavy gale and it commenced to snow furiously. A high sea set in and the water made con tinual breaches over the schooner, washing away the deckload and two of the vessel's crew, who were lost. It being too rough to proceed, the vessel was headed for Boston. At 2 o'clock vesterday morning, breakers were reported ahead and an anchor was let go off Half-way Rock. Soon after the chain parted and the vessel ran up the Sound and again anchored off Spectacle Island. Previous to this another of the crew was knocked of his. The fire was, however, confined overboard by the mainboom and drowned. After holding on for some time the anchor dragged and the vessel struck the island where she remains. The names of the men lost are Charles Blackford, 23 years. a native of Tiverton, N. ### A Big Fire.

ST. STEPHEN, N. B., Nov. 22. - About half past three o'clock this morning fire was discovered in a large brick building on Water St., owned by Ganong Bros., and occupied by the firm as a confectionery manufactory. The flames were in full possession of the building at the time. having, it is supposed, started in the engine room in the basement.

To an alarm the fire, companies of St Stephen, Calais and Milltown promptly responded and soon eight streams of water were directed into the building, but so great was the hold obtained by the flames that their progress could not be staved until the building was a complete wreck. Only a portion of the outside wall is now standing.

A brick fire wall separated the manufacturing department of the factory from the retail store and offices and Mr. Ganong's residence, which occupied the first portion of the second story, but it proved of no effect in stopping the flames. All the machinery, manufacturing stock and manufactured goods in rear of building were burned. Only a portion of goods iu retail store, with the books and papers in the vault being saved. The loss is estimated at about \$50,000, against which there is insurance of about \$35,000. The destruction of the factory is looked on as calamity to the town, more than one hundred hands being thrown out of employment at this time of the year when employment is most needed. The insurances on the buildings are as follows: Northern \$2,500; Imperial, \$2,500; London and Lancashire, \$2,500; Liverpool, London & Globe, \$2,500. On stock are the following risks:-Imperial, \$2,500; Lancashire, \$2,500; London and Lancashire, \$2,500; City of London, \$6,000; \$1,-500 of which is reinsured in the Western: The Fire Insurance Association, \$1,000: Atlantas, \$5,000; The Royal Can. Co. catarrh. Or into pneumonia. Or conhas \$2,500 on the engine and boiler, shop fixtures, barn and horses, part of which will be saved. The Phœnix of London had \$2000 on machinery.

A Galician Tragedy. Says an English exchange: A fearful crime is reported from Galicia. A native emigrated, leaving his wife and children behind. He subsequently forwarded 1,000 francs to the local magistrate, asking him to aid the family in following him to America. Wishing to possess himself of the money, after the wife had cashed the order the magistrate sent his own wife and daughter at night, dressed as men with blackened faces, to demand the money. The wife coolly asked them to follow her to a stable where the money was said to be hid, when she locked them inside. She then sent her boy to inform the very magistrate, whereupon he beat the lad to death. His cries brought assistance, the magistrate was arrested, and on the stable door being opened his disguised wife and daughter were found to have committed suicide by hanging themselves, fearful of the consequences of their intended crime.

Greenshields, a young and prominent dry goods merchant in Montreal, before reported, excites a great deal of comment, Mr. Greenshields was found dead in the lower part of his house, where he employed his leisure in working at electrical experiments. The servant maid testified that he was caught in a loop line, something like a swing, which was suspended from a beam, and the theory accepted was that he had struck his head in the dark a blow against the beam by which he fell senseless into the loop and so died. Mrs. Greenshields was the first to discover her husband and called the servant to her assistance. The medical examiner found a mark of the rope entirely around the neck, but thought this was not an incon. sistent with the theory of death accepted by the jury, which was supported by some corroborative evidence.
