who took oath not lose it even if he had to keep it under his pillow. His Excellency being now really Governor-General of Canada and Vice-Admiral of the same, the band played "God Save the Queen," the assembly stood up and he took his seat on the throne, motioned those standing to be seated and received the Corporation address which was read by Mayor Stewart, which was arranged in the robes and insignia of an English Mayor, in which by the way His Worship hopes to be knighted when in England.

Lord Stanley expressed his thanks for the city's welcome, dwelt on the feeling of loyalty in Canada, referred to Lord Lansdowne as "my distinguished predecessor," emphasized his interest in the colonies, noted the importance of proper union of the Australian colonies, pointed to Canada as an example, and concluded by expressing a desire to be judged by the result of his labors in the Dominion. The proceedings then terminated.

M. A. Kelley's Thirty Thousand Dollars.

Much interest has been shown in various ways in the success of Preston, Mr. M. A. Kelley's fortunate investment, and it has been deemed of public interest to find out what he thinks about it. Learning that Mr. Kelley had received \$30,000 from the Miners' Savings Bank, a reporter interviewed him. He said he simply bought one-fifth of ticket No. 55,315 which drew the Capital Prize of \$150,000 in the May Drawing of the Louisiana State Lottery, for which he paid \$2, just as he would have put a margin on stock, and he was surprised to learn that there were men in town who knew the value of the ticket a week before it was drawn. —Pittston (Pa.) Gazette, May 26.

What Am I to do?

The symptoms of Biliousness are unpleasant but too much known. They differ in different individuals to some extent. A Bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of food. His tongue will hardly bear inspection at first, it is not white and furred, it is rough, at all events.

FARM AND GARDEN NOTES.

Good fences should protect your crops. Banking soil around trees will prevent injury from mice.

Feeding lambs pays, especially if they are small and not thriving.

Burn all cuttings or plucked leaves which are infested by insects.

Keep only as many fowls as your time will permit you to attend to well in every particular.

When fifty fowls well cared for will pay a good profit, one hundred somewhat neglected may be kept at a loss.

Very much depends upon the milking, both in regard to the yield of the milk and the quality of the butter or cheese made from it.

The formation of the cow's udder is such that the secretion of the milk is helped by good milking, while it is retarded and in time lessened by bad milking.

Feed judiciously, keep the water fountain pure, look out for vermin, avoid overcrowding, give the fowls a chance to scratch, provide shade in summer and a dry shelter in winter.

The seeds of tropical plants, such as tomatoes, cucumbers, peppers, melons, squashes, Lima beans and the like require a heat of 55 degrees to 70 degrees to start them into healthy growth.

EARTHING POTATOES. A correspondent of Gardening says that the majority of people have for so long been accustomed to draw earth up to the stems of their potatoes that the practice has come to be looked upon as absolutely essential; but it is not in all cases—depends upon the depth the sets are placed under the surface. If the top of the set is six inches under the ground, very little, if any earthing is necessary; and if the sets are planted 7 inches or 8 inches deep, the crop will be better without earthing than with. The non-earthing plan is all very well where the soil is very light and deep, but in heavy ground it is not advisable to plant so deep; then earthing up to prevent tubers near the surface getting green is a necessity.

WASP STINGS. It is a fact not generally known, that if one holds his breath, waives, bees and hornets can be handled with impunity. The skin becomes sting-proof, and holding the insect by the feet, and giving her full liberty of action, you can see her drive her weapon against the impenetrable surface with a force that lifts her body at every stroke; but let the smallest quantity of air escape from the lungs, and the sting will penetrate at once. I have never seen an exception to this in twenty-five years' experience. I have taught young ladies with very delicate hands to astonish their friends by the performance of this feat; and I saw one so severely stung as to require the services of a physician, through laughing at a witty remark of her sister, forgetting that laughing relieved breath. For a theory in explanation, I am led to believe that holding the breath partially closes the pores of the skin. My experiments in that direction have not been exact enough to be of any scientific value, but I am satisfied that it very sensibly affects the amount of insensible perspiration.

CURING CLOVER. "W. F. C." in the Rural Canadian for April, p. 100, uses the following language: "For the first time in all my travels among Canadian farmers, I met with 'some who understood how to cure clover.' They found it out by accident. 'It was obliged by stress of weather to 'stack up a crop of clover much sooner than he would have done for fear of 'mould. It did smoke somewhat, but 'when he came to move the stack, it 'stead of finding it musty, it was in 'splendid order, and smells as sweet as a 'clover field in summer. Another had a 'similar experience in his barn. Both 'these men corroborated my assertion that 'in good weather clover may be 'cured the same day that it is cut.' If the farmers of Canada universally adopt the plan suggested by 'W. F. C.' they will soon turn the entire clover crop of Canada into a heap of useless manure. If clover is cut at the right time, let the weather be ever so favorable, in ninety-nine cases out of a hundred it is not safe either to draw it or stack it the same day, when much of it is put in the

Brunswick beat Nova Scotia by 15 points and P. E. Island by 45. Nova Scotia lead the Islanders by 30 points. At the 200 yards range Nova Scotia beat New Brunswick by 4 points and P. E. Island by 15; at 500 yards New Brunswick were the victors by 15 points over the Islanders, while Nova Scotia fell two points behind; at 600 yards New Brunswick again came in ahead, leaving Nova Scotia 2 points behind, with P. E. Island 19 behind the former and 17 away from the Nova Scotia team. A heavy and uncertain wind was blowing all day and the remark was frequently heard "That was the hardest shooting I have had for a long time."

An Island Man Disappears.

We are informed that a young man named David Power, son of Mrs. Mary Power (widow) of Lot 16, disappeared rather suddenly last August, and has not yet been heard of. He had been employed in New Brunswick for some time and returned home in July. Intending to engage in the oyster fishery, he formed a partnership with another man and purchased a boat for which each contributed half. About this time also, he received some \$80 or \$100 from a farmer who had bought a farm from him a few years ago and was now paying off the balance due. With this money Power attended the Kensington tea on the 23rd of August last, and in the evening proceeded to Summerside. That is the last that his friends have heard of him. It is not even known where he stayed while there. Power was about 5 feet 10 inches in height, 28 years of age, stout and heavy, weighing about 175 lbs., with light complexion and red mustache. He wore a dark cloth and a soft felt hat. His widowed mother is naturally very anxious and would be most thankful for any information respecting her son.—Summerside Pioneer.

Escumaino Post Notes.

LOBSTERS, the past week, had not been as good a catch here as they were in the early part of the season.

MACKEREL and codfish are reported in the Bay.

COFFISH.—Israel Burke and William Le Breton each caught 1000 codfish off Tabusintac beach last Friday and Saturday, in twenty-two fathoms of water. They also caught mackerel in their nets.

VISITORS are putting in an appearance. There was quite a fraternal meeting of telegraph operators here on the evening of the 9th. Your correspondent was not allowed to be present at the social gathering, whether or not it was of a public or private nature I have no means of knowing, but, in the meantime, we will await time will prove what friend Daniel and his associates was about. Miss Williston and Miss Gjerdt of Bay du Vin paid the Point a visit on the 8th.

SALMON has been a fair catch in Bay du Vin Bay and on Fox Island but very scarce here. To-day (18th) there is a better appearance, being the best catch of the season.

A Floating Sawmill.

Along the bays and lagoons of Florida grows some of the finest timber in the South, much of it in places considered entirely inaccessible until J. L. Maul & Son hit upon the idea of conveying a floating sawmill. This idea they carry into execution, and their mammoth mill, which now lies off the banks of Burton & Harrison's hammock, near Palatka, is, according to the Southern Lumberman, a marvel of mechanical ingenuity. It has a length of eighty and a breadth of forty feet, and is so solidly built that the motion of the machinery has no more effect upon it than if it were built upon the solid land. Although it stands five feet high out of the water, its draught is only about a foot and a half, which permits it to be taken into the shallow lagoons, where timber could not be floated. It is equipped with the latest machinery, planer, bog heading, single saws, and a fine forty horse power engine and boiler. On the hurricane deck is the cabin and office for the proprietor, while the cook house, where the men dine, is in the corner of the main deck, which is otherwise free for the pling of lumber, the machinery being all below it. This floating mill has so far proved eminently successful, exceeding the expectations of the proprietors in this respect, and is probably the pioneer of numerous craft of the same kind.—Scientific American.

Death of Murdoch McDonald.

Particulars concerning the death of Mr. Murdoch McDonald, formerly of Black River, and who was well known amongst the lumbermen of Northumberland and Gloucester, have been received by his friends here. McDonald was one of a party of eleven lumbermen who started from Boston July 1st, 1887, under arrangements with G. D. Emery of Chelsea, to go to Central America and get out mahogany logs for him. The party consisted of A. C. Fraser and Wm. Black of Widdow, Murdoch McDonald of Chatham and the remainder from Economy, N.S. All the party, on reaching their destination, on the Bluefields River, Nicaragua, and going to work, were prostrated with Malarial fever, but recovered. McDonald and some others had relapses and were obliged to return North. His relatives, having learned that he died at one of the New Orleans Hospitals, caused an enquiry to be made through Dr. G. M. Duncan of Bathurst, who was informed by letter dated 5th inst., from the hospital authorities, that McDonald was admitted on 27th December 1887 and died on 27th Feb. 1888. His case was one of Pernicious Malarial fever which he had been sick four months prior to his admission in the Hospital. His remains were interred in the Hospital Cemetery.

The Inter-Provincial Match.

NEW BRUNSWICK CARRIES OFF THE HONORS, NOVA SCOTIA BEING THIRD AND P. E. I. ISLAND THIRD. HALIFAX, N. S., June 18th, 1888. The third annual inter-provincial rifle match took place yesterday afternoon, for the first time on Bedford range. The three teams—from New Brunswick, Prince Edward Island and Nova Scotia—contained some of the best marksmen in the maritime provinces, many of whom have represented their respective provinces at Wimbledon on different occasions. A great deal of interest is taken in the matches between the inter-provincial teams, and although there was not a very large number of spectators at the range yesterday excitement reached a high pitch as the scores of the teams fluctuated.

Installation of Our New Governor-General.

OTTAWA, June 11.—The installation ceremonies and swearing in of His Excellency Lord Stanley took place this afternoon. At 3 o'clock a procession entered the Red Chamber of the Senate, consisting of Lord Stanley, preceded by Lieut. Greveland and followed by Lieut. Justice, Sir John Macdonald and other Ministers of the Crown, the Mayor and Corporation of Ottawa bringing up the rear. Lord Stanley walked up to the head of the table, where he remained standing, Major-General Middleton and headquarters' staff on his left and Captain Bagot and His Excellency's staff on his right. The Ministers of the Crown took their places at either side of the table, the Premier and Messrs. Bowell, McLeis and Foster being on the right hand side, and Sir Hector Langvin, Sir Adolphe Caron and Mr. Thompson on the left, all gorgeous in full Windsor uniform. Near General Middleton sat Lady Stanley and Mrs. Bagot. Three of the Senators—Count de Dufferin, Greveland and Trenchard, the chamber was crowded. The scene would have been impressive if it had not been that the formality and stiffness and the what-are-we-to-do-at-air which the officials were made to almost ludicrous. Capt. Bagot broke the depressing silence by whipping out the Royal Commission and reading it. Having thus ascertained that they had before them the right party, the Chief Justice read to him the oath to bear true allegiance to Her Majesty. The Gentleman Usher of the Black Rod handed a Bible to Lord Stanley and, resting it on the Chief Justice said something in a low voice to His Lordship, who thinking that the G. U. of the B. R. had made a mistake, advanced to His Excellency and recovered possession of the book. Lord Stanley did not kiss the Bible. The two other formal oaths were then muttered over by the Chief Justice, and to each His Excellency subscribed his name to written documents. The constitution or oath did not admit of the Governor-General's word being taken; he has to put it in writing that he will truly discharge the duties of his office. Sir John Macdonald within the last few minutes had walked around behind Capt. Bagot and seemed desirous of kissing the Great Seal of Canada in his coat tail pocket. Finally, however, the Premier rejected and handed this emblem of authority to Lord Stanley.

Children Cry for Pitcher's Castoria.

Children Cry for Pitcher's Castoria.

After the Service the Danery Chapter met for the transaction of business at the Rectory, and Evenson was said at the Parish Church at 7.30. The Prayers were led by the Rev. E. B. Hooper and the Lessons read by the Rural Dean. The Rev. W. J. Wilkinson was the preacher. On Wednesday there was Morning Prayer and Litany, the Lessons and Litany being taken by the Rev. G. J. D. Peters, and the Prayers by Rev. W. J. Wilkinson during the day and on Thursday the business of the day and on Friday the business of the day and on Saturday the business of the day and on Sunday the business of the day and on Monday the
