Rev. St. John's Church Strawberry Festival, in the Skating Rink, Chatham, this evening. Don't be home at a fire to get tea, but go to the nice, cool rink and enjoy the good things prepared there.

SPECIAL NOTICE:—Owing to the train arrangements, which obligate us to go to press earlier on Wednesdays than usual, no matter received after Tuesday at 6 p. m. can appear in the ADVANCE of that week.

BASE BALL CLUB:—A meeting of the members of the proposed base ball club in Chatham is to be held at No. one engine house, next to police court this Thursday evening at half past eight. A full attendance is requested.

INSURED AT ONCE:—Mr. Warren C. Winslow has been authorized by the British American Assurance Company to accept all classes of fire risks, issue policies and make endorsements, without delay or reference to the head office.

PLAIN AND FANCY WORK:—The ladies of St. Mary's Guild, Chatham, are prepared to receive orders for all kinds of plain and fancy sewing, knitting, etc. and to promptly execute the same. They will supply both materials and work, or make up materials furnished by patrons. Orders will be received by Mrs. Blair, President, or any other of the ladies of the Guild.

THE ENTERTAINMENT given by the Campbell Musical Enterprise Company on Tuesday evening in Masonic Hall was an excellent one—much more deserving of patronage than the average professional companies give, in both an artistic and popular way. We are glad to be able to say that Pro. Baker gives his audience their money's worth and his company deserves general patronage from North Shore people.

SPECIAL:—All subscribers will please take notice that the terms of the ADVANCE are as advertised in our regular business notice for years viz:—\$1.00 a year, if paid in advance and \$2 a year if not so paid. When subscribers do not choose to pay in advance, but take credit for the paper, they do so with the understanding that they are to pay at the rate of two dollars a year. Any subscriber who does not wish to pay \$2 a year for the paper must pay in advance.

RICHMOND DIVISION, No. 45, S. of T.—The officers of this division for the present quarter are:—

William J. Smith, W. P.; Otho Black, W. A.; Gordon Livingston, R. S.; Percival Booth, A. R. S.; Robert W. Howe, T. S.; Robert Kinney, U. S.; Alex. Leggett, Ch.; Alex. Wilton, Com.; Dominick Percy, A. C.; John Robertson, L. S.; Fred Ferguson, O. S.; Robert McKinnon, P. W. P.

THE EXCURSION on Saturday to Doaktown, announcement of which appears in another column, ought to attract a large number of people from the Miramichi end of the line. An excursion train is also to run from Fredericton to Doaktown on that day and this will afford an opportunity for the people belonging to the latter of the N. & W. to become the better acquainted with each other. Rt. Rev. Bishop Kingston is to officiate at the laying of the corner-stone of the church to be erected at Doaktown and the ceremony will be quite an event in that prosperous locality.

Some of the Deaths of the Week. Miss Percival, whose death, at Nelson, is recorded elsewhere, was one of the oldest residents of the Miramichi. Her circle of friends was a very large one and she was held by all in the highest esteem. She was born near Peterborough, Cumberland, England, in 1795 and spent most of her early years at Kendal, Keswick and other places in Westmorland. She came to America in 1833 to reside with her brother, John Percival, at Gates Head, Chatham. On the death of Mr. Percival, in 1864, she went to live with her niece, Mrs. Burchill, at Birch Hill, where she continued to reside up to the time of her death. The funeral is to take place this afternoon as per notice elsewhere.

Mr. Wm. Gordon of Lower Newcastle, another old, well known and respected resident of the County, died on Tuesday. He was born and always lived at Lower Newcastle. He leaves six children—five sons and one daughter. The latter being the wife of Wm. Linn, Jr., who is the business partner of one of the sons, George.

DEATH OF JOHN FLEET, Esq.—On Tuesday afternoon John Fleet, Esq., one of the most prominent and respected citizens of Northumberland, died at Nelson. He was for many years a leading lumber manufacturer and merchant and, owing to failing health he was not so actively engaged in business for the past few years as formerly. He was on his way to have had a dinner, when an alarm was made, caused by a portion of the trainway near the refuse furnace taking fire, and the excitement prostrated him, and no doubt was the immediate cause of death. The funeral will take place at half past ten this forenoon.

Destroy the Worms or they may destroy the children. Freeman's Worm Powders destroy and expel all kinds of worms.

Mr. Quilly's Marriage. St. Joseph's Church, Chambers Street, Boston, Mass., was on Tuesday evening, June 25, crowded with relatives and friends to witness the marriage of Mr. J. Quilly, station agent at North Cambridge Junction, and Miss Nellie E. O'Brien, of Boston. Promptly at 6 o'clock the wedding party entered and proceeded to the altar, the bride being accompanied by her sister, Miss Alice L. O'Brien, and the groom by his brother, Mr. Thos. F. Quilly, of Bathurst. The bride, a charming

brunette, was attired in white corded silk, with the customary bridal veil, and looked very beautiful. Rev. Thos. L. Flanagan performed the ceremony. A reception was held after the ceremony at the residence of the young couple, 305 Elm St., West Somerville, at which Caterer Tafts of Boston served a collation. The presents were numerous and costly, among which may be mentioned a Chickering piano and a handsome clock from the bride's father; silver service, friends from St. John, N. S.; dinner set, Mr. and Mrs. John Maguire; sewing machine, Thos. F. Quilly; a picture (painting from East) from Mr. E. Wright; picture and case from Mr. and Mrs. A. G. Cheney; relief set, Miss Alice L. O'Brien; beautiful lamp, Mrs. Jackson.

Mr. Quilly was formerly station agent at Barnaby River, on the I. & R., and his many friends along that line and around Miramichi, will be glad to hear of his success in life, and that he is as popular here as he was "down East," where he was often spoken of as being the most obliging station agent on the I. & C. R.

Bay du Vin Schools. The examination of the Bay du Vin school was held on the 28th. The pupils acquitted themselves in a manner that was highly creditable to their talented young teacher. After the examination one of the pupils came forward and read the following ADDRESS:—

DEAR TEACHER:—It is with the deepest regret that we now are to bid you good bye. We have had a great deal of your short stay among us, we have caused you lots of trouble, but we trust that you will think of that only as a remembrance of our youthful spirit, and that you will carry away with you many pleasant memories of your school work in Bay du Vin. And now, before leaving, we wish to present you with this jewel case and napkin ring, as a small token of our esteem and regard and to assure you that wherever your lot may be cast in the future you will always retain a warm corner in the hearts of your Bay du Vin pupils.

MINA CARROLL, ALBERT WILSTON. In behalf of the pupils, Miss Gertz had not heard of a school and she asked Rev. Mr. Wilkinson, who was present, to reply for her. The Rev. gentlemen, in his own happy style, thanked the pupils, for the teacher. It was not her wish that the pupils should be separated and she was glad to hear that the pupils had not got tired of her, as she had been pressed by the reprobates to still keep charge of the school. Private reasons which she could not control made it impossible for her to continue teaching for a time. In closing Mr. Wilkinson said it was rarely that a teacher could be found who was as popular with both pupils and parents as Miss Gertz had been since she has had charge of this school.

Miss Gertz certainly seems to have been the right teacher for Bay du Vin, as her departure seems to be regretted by every pupil and reprobate in the district. Outside of the district also she is followed by the good wishes of hosts of admiring friends. The present that her Bay du Vin pupils gave her was a very handsome one.

HARDWICK DISTRICT No. 4. The examination of the School District No. 4 was held on Friday 20th. The visitors were chiefly ladies. One of the Trustees put in an appearance towards the close of the examination. The different classes were examined in Reading, Arithmetic, Geography, Grammar, Canadian History, Black-Road Exercises and other branches usually taught in a country school. The Master of the pupils drew questions from their slates and the black-board were really very good productions, and could hardly be excelled. The following Dialogues and Recitations were given by the pupils:

Recitation, Luara Mills, "A Child's Trouble." Dialogue, Hubert Williston, Ronald Dupuis, Ed. G. Galloway, and Charlie Williston, "Ned's Progress." Dialogue, by Annie Noble and Maggie Jane McLean, "Afternoon Call." Dialogue by Elmira, Gordon and Laura Mills, "Little Boyber." Recitation by a little fellow, James Mills, "Ben's Straw Hat."

Dialogue by (Gong), Williston and Ernest Noble, "Saved by Love." Dialogue by Jimmie Noble, Mary Jane McLean, and the teacher, "A Silly Dispute." The teacher of this school is Miss Ella C. Galloway, a daughter of John Galloway Esq. of Nelson. In looking over the school register I found that there were thirty pupils enrolled. I also think that the Trustees have the greatest confidence in Miss Galloway, as her visits to the school during the past term have been like those of angels. I do not think their confidence has been misplaced. At the close of the examination a treat was provided for the pupils by Mrs. Robert Noble, senior. The examination was closed by the pupils singing "God Save the Queen" and then they were dismissed for five weeks holidays.

Matters in Kent County. Kingston, Kent Co., June 25.—In the immediate vicinity of Kingston the crops grow an abundant harvest while up our rivers the yield especially of hay is not so encouraging. The horticulturist and even the farmer lament the sad havoc of insects, in particular the cut-worm, whose destructiveness is to a degree hitherto unknown.

Mr. A. P. Young, of Houlton, Me., who is here purchasing horses for the American market, reports the grass in many districts of the province badly winter killed. Business at present is rather on the ebb, but the tide of activity will soon flow in, when a brisk and busy season is anticipated.

Messrs. J. & T. Jardine's shipment of lumber this summer will be 5,000,000 feet, while that of George McLeod will be of a far larger size than gentlemen, with those of minor note, will make the times lively. The bark trade is booming and much tonnage and many hands will be employed in its transportation.

The lobster factories are merely paying expenses, although for a few weeks at first the fish were quite plentiful, and hopes were entertained that the good old times of the former years were returning. Some of the fishermen expect to terminate operations with the close of the week and try new fields of labor, whose alluring prospects promise a better reward. The fishery operators, Messrs. Hannah and Guinand, have lately been paying official visits to every establishment in their vicinity, as a result, all have been fined for non-compliance with the law. The weight of opinion here is in favor of parliament putting a prohibition on this branch of our fisheries for a term of years; then it could be profitably engaged in for a like period.

Last spring the catch of gaspareaux was so large, and the prices so remunerative, that many were induced this season to make additional preparations in that line, but the results have proved a comparative failure.

The base ball fever has reached here and many were smitten with an uncontrollable passion for the manly sport, which only could be allayed by the organization of a club. Numbers from the North Shore will visit St. John during carnival week to witness the many attractions that will doubtless be presented, but especially how the useful and beautiful can be so happily combined.

The tug boat Isabel, purchased by Messrs. Smith and McDonald in Quebec, reached here yesterday morning. The examinations of the schools in district No. 2 will be held on Thursday and Friday of this week. The bear is dead—rather has ceased to be talked of.

A Burn or Out will heal quickly and leave less scar if Victoria Carbolic Salve is applied at once.

Wm. O'Brien's Arrest. POLICE AND PEOPLE FIGHT AT CLONAKILTY. DUBLIN, June 1.—William O'Brien, M. P., was arrested again last evening at Clonakilty. An attempt to rescue him was made, the police fired upon the crowd and two men were wounded. A National League meeting was announced to be held at Clonakilty, about twenty-five miles west of Cork. A proclamation was posted up throughout the district forbidding the meeting and a large force of police was drafted into the town to suppress it should any attempt be made to hold it. The vigilance of the police was eluded and several hundred people assembled in a field outside the town. O'Brien in defiance of the edict of Dublin Castle delivered one of his stirring addresses and was cheered to the echo. The police suddenly appeared upon the scene, ordered the crowd to disperse and charged upon it, plying their clubs freely. The people resisted and about forty of them were injured. Among those hurt was Patrick O'Brien, one of the members of parliament for Tipperary. O'Brien was soon on his way to Dublin, escorted by a large force of constabulary. Excited crowds gathered the police all along the route and at Charleville a desperate attempt to rescue the prisoner was made. The crowd rushed upon the police and a fierce hand to hand struggle ensued. The police were ordered to fire and the first volley took effect. Two of the crowd were seriously wounded. The police succeeded in getting away with their prisoner and he was conveyed to Dublin by the first train that left Limerick Junction. The news spread rapidly throughout Ireland and great excitement prevailed.

Great Men and Good Manners. The Chief Justice of the United States lives on a beautiful hill in the suburbs of Washington. His elegant home called "Belmont" with turrets and spires, built of rough light-colored stone, is only a few rods from the Fortified street car line that leads to the White House and the Capitol. As I was hurriedly passing his home yesterday, in the pouring rain, I saw a little girl in a lattice of haws and excitement—wrapped in gossamer, with school bags tucked away from under the umbrella.

"Papa's" rapid reply: "you're getting so wet," I heard said; and the three little maids stopped and turned back to hold and pull and tug away at their wet garments, until they were able to take their place in the crowded car packed with a rainy-morning crowd.

The conductor walked through, very straight and looked very proud as he said: "That man was Chief Justice and he rides on my car every day. We like him. We like him. We like him. They ain't a bit proud, nor stuck-up, and they know good manners from simply ones every one. Mr. O'Brien is a gentleman, as kind and good as he does to the President. We hope he will stay on our line forever!"—M. D., in JULY WIDE AWAKE.

What Ball-Tossers Do. (Boston Herald) The profession of the base ball player never stood as high as it does to-day. The moral of a young man were investigated upon his seeking an engagement as to-day. The drinkers are being surely and quickly weeded from the ranks, thanks to the severe penalties that are being called upon the rules. The business has attracted a large number of college bred men, who find their congenial occupation with large salaries. Many of the club pursue their studies in the winter and play ball in the summer earning enough to defray all the expenses of their education. Some of the Harvard club took a course in civil engineering last winter; Gunning of the Athletics was in attendance at the medical school of Harvard in the fall of 1888; Bingham of Harvard is to graduate from Harvard this year, Knowlton of the Eastern club is a member of the Harvard medical school, and is a graduate of Yale law school, where they received the degree of LL. B. and were afterwards admitted to practice before the bar of Connecticut. Mr. Wagoner, the most intelligent ball player in the profession. He is a most prolific writer for the magazines, and the press, and he has written a book on base ball, which is decidedly the best and most comprehensive of the kind ever issued.

Do not let that cold of your run on. You think it is a light thing. But it may run into catarrh, or into pneumonia, or consumption. Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. If you don't know this already, thousands of people can tell you. They have been cured by it, and know how it is, themselves." Bottle only 75 cents. Ask any druggist.

News and Notes. Wm. E. Howard, convicted in New York of swindling in connection with the Electric Sugar frauds, has been sentenced to 9 years and 8 months in State prison.

By a month's engagement in San Francisco Edwin Booth and Lawrence Barrett cleared something over \$100,000. They are two of the few men who do not envy the rich and thrifty baseball pitcher.

Alexander Sullivan has been locked up at the request of the Coroner's jury in the Cronin case. The arrest of two Clau-na-Gael men in New York and of Burke in Winnipeg for complicity in the Cronin case shows that the police have reasons to believe that the crime was the outcome of a conspiracy within the ranks of the organized crime of the Cronin case.

The Genius of the Age. No pessimist is old Professor Blackie. He says that a century ago was a time of miserable humbug, and he is thankful that he lives in better days.

Rev. Dr. Cunningham, who succeeded Dr. Tulloch, as Principal of St. Andrew's University, Scotland, is a man of marked individuality. A few years ago, when he was the pastor of a country church, he horrified old-fashioned Presbyterians by advising his congregation to take advantage of a dry Sunday to get in their crops instead of going to church. And in the

Dr. Crosby of New York, who is the leading temperance advocate of the Presbyterian body in the United States, was supported by a vote of 210 to 105 the last meeting of the General Assembly of the Presbyterian church of that country in his pronounced position in favor of high license as the most effective means of counteracting the evils of the liquor traffic. Real prohibitionists have recognized the fact that their objects can best be attained under the leadership of such men as Dr. Crosby.
