EARLY CLOSING.—The business men of Chatham have agreed to close their establishments for the summer at 8 p. m. excepting on Saturday nights.

SPECIAL NOTICE.—Owing to the train arrangements, which oblige us to go to press earlier on Wednesdays than usual, no matter received after Tuesday at 6 p. m. can appear in the ADVANCE of that week.

A SON OF TEMPERANCE.—Yes, you used to write as "Prealyterian," but why not come right out as our old friend G. J. of Black River. Don't change your name so often.

As you like it. Gray and faded whiskers may be changed to their natural and even color—brown or black—by using Buckingham's Dye. Try it.

GOOD FISHING.—Up to 9th inst., 25 salmon had been killed on the Restigouche at Camp Beattie, owned by W. J. Florence, the famous comedian—2 rods only. They averaged 25 lb.

INSURED AT ONCE.—Mr. Warren C. Winslow has been authorized by the British America Assurance Company to accept all classes of fire risks, issue policies and make endorsements, without delay or reference to the head office.

MORRISON & MCGRAVE, on account of large and increasing business, have found it necessary to lease the commodious premises known as Power's wharf—Halifax Chronicle.

THE GENERAL ASSEMBLY of the United Presbyterian Church in Canada opened at Toronto yesterday, Rev. Mr. Aitken, of Newcastle, Rev. John Robertson, of Black River and Rev. Mr. Thompson of Bathurst are amongst the New Brunswick ministers in attendance.

THE N. W. DRIVERS.—We are sorry to hear that after Messrs. Jas. Somers and D. Baldwin had advanced their drives somewhat on the freshet of last week, both were obliged to take off their crews without reaching the main Northwest, owing to the quick fall of water.

NOT AN ADVERTISEMENT.—The Story of a Will which is in this paper ought to attract attention, from the fact that it was information of a bona fide character sent to the Toronto Mail, after a similar testimonial had been published in that paper by another party—both being unsolicited by Messrs Warner, and neither being intended as advertisements.

MIXED ENGLISH.—A striking example of "English as she is printed" was in the Bridgetown N. S. Monitor a fortnight ago. After giving an account of a fire it said—"This is the second house on the same site that has been burned twenty-two years ago, on a Sunday morning, they lost their fine house, and one of the barns were also burned."

PLAIN AND FANCY WORK.—The ladies of St. Mary's Guild, Chatham, are prepared to receive orders for all kinds of plain and fancy sewing, knitting, etc., and to promptly execute the same. They will supply both materials and work, or make up materials furnished by patrons. Orders will be received by Mrs. Blair, President, or any other of the ladies of the Guild.

PERSONAL.—Amongst the prominent strangers in town this week are Messrs John Stuart, of Hamilton, President; A. B. Lee, of Toronto, Vice-President and A. Bruce, Q. C., of Hamilton, a director of the Maritime Chemical Pulp Company.

Mr. Peter Turner formerly of Chatham, but now of Port Laddow, W. T., is visiting his old friends here.

SPECIAL.—All subscribers will please take notice that the terms of the ADVANCE are as advertised in our regular business notice for years viz.—\$1.50 a year, if paid in advance and \$2 a year if not so paid. When subscribers do not choose to pay in advance, but take credit for the paper, they do so with the understanding that they are to pay at the rate of two dollars a year. Any subscriber who does not wish to pay \$2 a year for the paper must pay in advance.

WELL DONE.—Robt. Murray, Esq., Chatham's Police Magistrate, underwent the austerity of his judicial position and made a trip to Neguac on Tuesday at which popular summer resort, he inaugurated the seaside season by being principal in the most happy event of his life, which is hereafter to be shared by the daughter of one of the most esteemed citizens of that place. The usual particulars are in the proper column. In addition to the relatives accompanying Mr. Murray to and from Neguac, a party were invited to the steam yacht Laura, to participate in the congratulations and festivities of the occasion. We add our congratulations to the many that have reached the newly wedded pair.

CALIFORNIA WEATHER.—The weather among the California mountains has been something phenomenal this season, and is set forth as follows by the Truckee Republican of May 15: "The snow of last week after a storm that has now melted, blizzards, snow, sleet, sleet, sleet, blizzard, and for three days. Last night the snow had almost disappeared in slash. This morning the town was buried eight or ten inches deep in a modest robe of fresh snow as ever caused a poet to rave. During the day it has been warm and sunny at times, storming like tory at other times, and again it has been piercing cold, too cold to snow. Everybody tries to grin and bear it, but it's perfectly awful."

MARRIAGE AT BOLESTOWN.—Last evening, Mr. John G. Boyd, one of the popular engineers on the Northern & Western Railway, was united in marriage to Miss Lulu McConnell, one of Boiestown's fairest daughters. The ceremony was performed at the residence of the bride's father, Mr. D. Vanstone, another of the popular engineers of the N. & W., performed the duties of groomsmen, and Miss McConnell, sister of the bride acted as bridesmaid.

The happy couple came down by express this morning to Gibson, where they will in future reside. They have the best wishes of a large circle of friends. Among the numerous presents was a handsome silver pitcher, neatly engraved, from the establishment of Mr. Jas. D. Fowler, of this city, and presented by the train hands of the Northern & Western Railway. The train on the road were decorated to-day and the flag on the engine house is flying in honor of the event.—Gleaner 6th.

NORDEY'S BUSINESS.—The department of Marine and Fisheries has notified Fishery Commissioner Phair that the department has had information to the effect that 125 black salmon have been killed on the fly at or near Boiestown, and, as the waters there were leased by the local government, it was Mr. Phair's duty to see that the law in respect to salmon fishing was enforced. Mr. Phair has replied that the local government have no lands around Boiestown, and he, consequently, has no jurisdiction there; that the waters are under the control of the Dominion government and it is their duty to enforce the law. Mr. Phair expressed a willingness, however, to co-operate with the guardians in the matter.

Mrs. Scott Siddons is to appear at Masonic Hall on Tuesday evening next. She has a world-wide reputation as a dramatic delineator. Her appearance at Quebec the Chronicle of that city said: "There was a large attendance at the Academy of Music last night. It is difficult to say anything of Mrs. Scott-Siddons' performance that has not already been said over and over again. Every capable of expressing the most varied emotions, is impressed upon all who have seen it, in a type of very rare beauty, while her voice possesses a power of soft modulated tenderness, and at the same time a capacity for expressing the most violent emotions of rage, defiance, hate or scorn. Leading critics have time and again asserted that Mrs. Scott-Siddons possesses in a high degree not only the physical attributes, but also the genius, which marked the great Sarah Siddons, her direct ancestress; and we are quite sure that her audience last night will agree with the critics. Mrs. Siddons must have been one of the most beautiful and at the same time most gifted of women. The programme of Mrs. Siddons' recitation last night was rich and varied, and its rendering afforded a treat of unusual quality to all who had the good fortune of hearing it. It is not easy to say in which selection the fair reader appeared to the best advantage.—Chronicle.

FISHING NOTES.—A Bathurst correspondent wrote yesterday: "The first salmon fishermen of the season arrived this morning, viz., Hon. Nelson A. Aldrich, U. S. Senator for Rhode Island; C. P. Frame, of New York, and Ivers W. Adams, president of the American Net & Twine Company of Boston, to fish Mr. Adams' waters at Rough Waters on the Nepisiguit River. To-day Mr. Frame killed the first fresh run salmon of the season—a thirteen pounder—just opposite 'Camp Adams.' On Monday next Mr. Edward F. Wharton, of Boston, and friend John H. Kinnear will fight the black flies and mosquitoes as usual. The salmon season this year will be earlier than last, and from the number of salmon taken in the Salmon Beach nets, promises to be much above the average. Senator Edmunds, of Vermont, and Harry Samson, of New York, have gone to fish the Natasquan, on the north side of the St. Lawrence. They are taking their guides from here. There are no better guides anywhere than on the Nepisiguit River.—Globe 8th.

THE MONTREAL "WITNESS" PRIZE COMPETITION.—The Witness offered prizes for the best historical essays in cities, counties, and provinces. Mr. A. Stockton, who was asked to examine the New Brunswick essays, reports that the number of competitors was one hundred and fourteen as follows: cities: Fredericton, 8; Portland, 5; St. John, 3; total, 14. In counties, 5; and in provinces, 12. In counties, 1; Kings, 10; Charlotte, 2; Gloucester, 1; Kings, 10; Charlottetown, 5; Queens, 3; Restigouche, 11; St. John, 4; Sunbury, 1; Victoria, 15; Westmorland, 11; York, 9. Two counties, Kent and Madawaska, sent no essays.

The following are, in his opinion, entitled to the prizes for the cities: "Vesta," Fredericton, "March of the 104th Regiment, 1812," "Un Ami," Portland, "Landing of the Loyalists," "Competitor," St. John, "Pioneer Life in N. B."

In counties as follows: "Aye Cye," Albert Co., "A Brave Woman's Adventure," Carleton County, "A Young Writer," Charlotte Co., "Sketch of Deer Island," "Veritas," Kings Co., "The Old Mill," "Ella," Northumberland Co., "Hudson's Bay," "Hortensia," Queens Co., "Early History of Queens Co.," "Deary," Restigouche Co., "River Charlo and its Pioneers," "Lucy," St. John Co., "Pisanoon in Early Days," "Fergus," Sunbury Co., "Early Church History of Sheffield," "Mohawk," Victoria Co., "The Maiden's Sacrifice." The essay on the "Early Settlement of Bairdville" is worthy of mention. "Meta," Westmorland Co., "The Indian's Gratitude," "Everill," York Co., "Incidents in the History of Kingsclear." There is but one essay from Gloucester Co., and it is doubtful if its merits entitles it to a prize, the examiner says.

The essay written by Alnoce, entitled "History of Progress, Bay Chaleur," should, Mr. Stockton thinks, receive the Provincial prize.

JUNE WEDDINGS.—A large number of persons attended at St. Stephen's church Tuesday evening, to witness the marriage of Miss Isabel MacLaren, daughter of Dr. Laurence MacLaren, to Mr. P. Turner Wilson, of Toronto. The ceremony was performed by the Rev. Dr. Macrae. The bridesmaid was Miss Maggie MacLaren, sister of the bride. The groom was attended by Mr. G. Seymour Lyon, of Toronto. The bride was dressed in a handsome travelling costume. After the newly married couple had received the congratulations of their friends, they were driven to the railway station and there took the night express for a short honeymoon trip to Boston and New York before going to Toronto to live. A large reception, at which there was a large attendance, was held at the residence of Dr. MacLaren. Before seven o'clock this morning num-

bers of ladies and gentlemen commenced to assemble at the Cathedral, and long before 7.30, the hour set for an important event, in which Miss Florence Travers, daughter of Dr. B. Travers, and Dr. J. P. Mulvaney were the principals, the spacious building was filled to overflowing and many were unable to gain admission. The altars were very tastefully decorated with flowers. The ceremony was conducted by His Lordship Bishop Sweeney, uncle of the bride, assisted by Revs. J. J. Walsh and J. J. O'Donovan. The other priests in the city were present, and the Rev. Dr. Rogers, Bishop of Chatham, was an honored guest. After the marriage, Nuptial Mass was celebrated. The bride was dressed in a beautiful striped white velvet brocade, with full train and court train, with a wreath of orange blossoms, and she looked charming. She carried a magnificent bouquet of white roses, the phloxias and lily of the valley. The bridesmaids were Miss Mary Travers and Miss Marion Jack, and Miss Paddy Travers was train bearer to the bride. They were dressed in black. The groomsmen were Mr. John Travers and Mr. R. F. Quigley, Mr. D. R. Jack and Mr. H. Travers acted as ushers. After the ceremony was over the young couple and about fifty invited guests repaired to the residence of the bride's father, where a sumptuous wedding breakfast was served. Dr. and Mrs. McInerney left by the western express on a three weeks' journey through the New England and Upper Canadian cities. The wedding presents were very numerous and very beautiful. The groom's present to the bride was a handsome gold pin set with diamonds. To each of the bridesmaids he gave an elegant gold bracelet set with pearls. Dr. McInerney is a son of Hon. O. McInerney, of Kent County, and is a young physician with a large and rapidly extending practice. He has resided in St. John some years, and is very popular in a large circle of acquaintances. The GLOBE joins with the friends of both young couples in wishing them happy and prosperous lives.—Globe.

The Reformed Episcopal Church. SUSSEX, N. B., June 3. To the Editor of the Globe: Sir,—I take the liberty of calling your attention to your estimation in your editorial of May 31st referring to the general council of Reformed Episcopalians. You state the increase of membership for two years, to be "102," whereas the correct figures are 1092. Your comment upon the Reformed Episcopal church organization as a failure may be consistent with your opinion. But with all due respect for your honest opinion, I can assure you it widely differs from the opinion of every member of the last general council. Had you been present you would have heard on every side the heartiest expressions of gratitude to Almighty God for the manner in which He has blessed the Reformed Episcopal church, in the infancy of its organization.

Respectfully yours, A. M. Hubby. [The figures were given as they appeared in a Boston paper. The GLOBE did not comment upon the Reformed Church as a failure. It merely said that if the gentlemen who led in the movement, thought by their sudden action to put themselves at the head of a powerful organization, they failed.—Globe.]

Really Coming. The coming to Chatham of the Wood-St. John Company has had an unusual element of uncertainty about it, the first engagement, for 21st May, having been cancelled, while the second date, which is Monday next, 17th, was—through a telegraphic error—announced for two days later. The Company will reach Chatham Sunday morning and will, therefore, have a good while to rest and be in a capital position to produce the "Private Secretary," on Monday evening. Nor will they be hurried away, as they are to appear in the same place in Newcastle on Tuesday evening and will, therefore, not leave town until Tuesday. Referring to the playing of this piece in St. John the Telegraph said:—"The amusing comedy, The Private Secretary, is a favorite piece in St. John and the Wood-St. John Company presented it to an overflowing house last evening. For nearly three hours the audience laughed almost continuously. The heavy work fell into the hands of Mr. Wood and Mr. Brooks as Mr. Clutterbuck, the cantankerous uncle, and the Rev. Lambton, the Private Secretary. Mr. Wood's adaptation of the piece was not lacking in either originality or variety."

News and Notes. "We are not the descendants of monkeys," said Dr. Wild of Toronto last Sunday night, and in order to prove this he resurrected the ancient stones and monuments of Egypt and other eastern countries; traced their history and applied it to scriptural truths. These ancient stones that have been unearthed, he said, expanded to us something of the past. They teach us the origin of man, and show us how we are for some of these massive monuments weigh several thousand tons. Therefore Darwin's theory does not apply. These stones have been coming to light and confirming the Bible history, and they will continue to do so. Years ago this was a matter of faith with me, but now it is a matter of fact. There is not a single man living that can believe in Egypt and remain an evolutionist or an agnostic.

Alone! Lecturer Nichols issued advertisements on Friday last announcing that "by request of a large delegation of citizens," he would "answer the editorial in the last issue of the ADVANCE" at Masonic Hall on Saturday evening. He appeared at the hall in due course and there was a large audience. The ladies of the W. C. T. U. appeared as have left him to his own devices, even the few of them who had thoughtlessly approved of the objectionable portions of his performances of the week, having become sensible of the injury he had done to their organization. They were conspicuously absent from the platform, the only occupant of which, besides Mr. Nichols, being Mr. J. L. Stewart, while the other two composing the "large delegation" etc. were wept up to the front amongst the audience, and were consulted by the lecturer of the evening. The audience was disappointed, for although Mr. Nichols endeavored to be "very severe" and very pathetic in denouncing the editor of the ADVANCE, it was certain references to the W. C. T. U., it was evident that the cold shoulder which his late respectable friends had given him had a depressing effect upon his usual effrontery, and that although he could talk very well, when repeating his oft-delivered lectures, he was a failure when attempting to speak off the beaten track. Like others of his kind Mr. Nichols has gone to trouble us no more. We do not think anybody in Chatham feels bettered by his visit—not even the "large delegation," who are eminently fitted, in mind, taste and habits of thought, to take such an agitator up after respectable people have washed their hands of him.

Don't Know So Much. Bob Bartlett, the humorist, says some excellent things and one of his latest, efforts in the Brooklyn Eagle ought to be taken to heart by some of our prohibitionist friends, who imagine that "they know all about it" and that anyone who differs from them knows nothing: "So you were a little too port, and spoke without thinking, did you, my son? And you got picked up right suddenly on your statement, eh? Oh, well, that's all right; that happens to older men than you, every day. I have noticed that you have a very positive way of flinging a decision where other men state an opinion, and you frequently make a positive assertion where older men merely express a belief. But never mind; you are young. You will know less as you grow older. Don't I mean you will know more? No, indeed, my boy. No, indeed, I mean that you will know less. You will never know more than you do now; never. If you were to be ten thousand years old, you will never again know so much as you do now. No hoary headed sage whose long and studious years were spent in reading men's books, ever knew so much as a boy of your age. A girl of 15 knows as much as such, but then she gets over it sooner and more easily. "You know so much," Ah, my boy, it does. Pulling eyes teeth and molars will seem like pleasant recreation alongside of shredding off great solid slabs and layers of wisdom and knowledge that now press upon you like geological strata. "But how are you to get rid of all this super-cum-bundant wisdom? Oh, easily enough, my boy; just keep on airing it; that's the best way. It won't stand constant use, and it disintegrates rapidly on exposure to air."

The Mayor and Bay. The barque, Osuna, which grounded at Gordon's Flats on Thursday last was hauled off on Tuesday morning by the St. George and proceeded on her voyage. The Italian barque, Expresso T., which also grounded near the spot where the Osuna was ashore came off the same night and it is now on her way. The steamer, Sacro Bosco, which chartered on Saturday, grounded on the bar on Sunday morning, when she stuck fast until Tuesday morning, when she too was hauled off and proceeded on her voyage to Liverpool.

Hardwick. [A batch of notes from Hardwick reached us too late for last issue.] Our correspondent writes:—

Arbor Day was well observed by tree-planting, etc., at the Bay du Vin School House. Inspector Mersereau visited the Bay du Vin school recently and found its condition excellent. The popular young lady teacher, Miss Gierz, deserves praise and is justly popular with both pupils and parents.

The Willing Workers, or, as some call them, the Sewing Circle, meet weekly, at a different house each time they meet, until they go all around the district in the families who profess to belong to the Church of St. John the Evangelist. The amount of work they do is considerable. The last meeting was at the residence of Mr. William McLeod. On that occasion they had the valuable assistance of a Newcastle lady who gave the Workers some valuable hints that will not be thrown away.

Mr. Seymour Williston has charge of J. & T. Williston's freezer and icing business at Bay du Vin Island. He is a very popular young man with the employees about this establishment, and also about Bay du Vin, and as he is a great friend of education the rising generation have reason to thank him for the interest he takes in all matters connected with the Bay du Vin School.

San Quash and his bark canoe are daily to be seen on the route from Fox to Bay du Vin Island, carrying salmon for Messrs. J. & T. Williston. No matter how rough the waters may be, or how hard the winds may blow, the gallant bark with San holding the paddle will not be deterred from making its daily trips.

Messrs Wood Williston and Malcolm Taylor have completed handsome residences at Bay du Vin, near where the Str. "Miramichi" lands.

The many friends of John G. Williston, Fishery Overseer at Bay du Vin, were sorry to hear of his illness the present spring. They are now pleased to hear that he has almost recovered, and it is hoped that he will soon be enjoying his usual good health.

Farmers about Bay du Vin are in the very best of spirits, as all crops and prospects are looking first-rate.

Salmon fishing is poor—almost no salmon at all—as one fisherman informed me.

Piles! Piles! Itching Piles. SYMPTOMS.—Moisture, intense itching and stinging; most at night; worse by scratching.
