"WAR ON A WHITE SHEET." as pre sented at Masonic Hall, last Thursday evening, before a large audience, was very interesting lecture, attractively illustrated by stereopticon views, from sketches by the lecturer. Mr. Villiers appeared to be very tired, and that may account for the fact that his effort of Thursday evening was somewhat disappointing to those who expected that the speaker's personal experiences would impart something of the dash and fire of th battlefield to his story of the scenes he had passed through.

THE PILOTS of Miramichi held their regular annual meeting yesterday pilot office, Chatham, and there was very full attendance. The principal busi mess was the election of pilot master and of superintendents of the pilot schooners Mr. Angus McEachran, who was pilotmaster last year, was re elected by a good majority-the only other nomination for the position being that of Mr. Geo. Savov. The supts. of schooners elected are:-Messrs. Geo. Tait, for the Two Brothers; Geo. Savoy, for the Empress; Robt. Walls for the Princess Louise and Maxim Mar tin, for the May Queen.

FINE QUARTERS :- Mr. Tingley has changed his hairdressing quarters from the old stand, to the building adjoining the New Brunswick Trading Company's office-the late editorial room of the AD-VANCE on Water Street. The building has been wly floored and papered and makes or of the largest, light st and best ventilated shaving parlors in the province. Mr. Tingley has enlarged the portion of his establishment heretofore devoted to his cigar and tobacco trade, and is to keep on hand a first class stock of cigars, tobaccos, pipes and smokers' goods generally. He has on hand also many of the best, periodicals and even its attractions as a reading room will make his place an acquisition to its neighborhood.

FREIGHTS ON THE I. C. R.—The Restigouche Pioneer is down on Mr. Schrieber and promises an interesting editorial on railway matters in its next issue. If Mr. Schrieber is responsible for the freight rates changed on the I. C. R. on car loads then it is time something was said and done in reference to such matters. We know it to be a fact that thousands of dollars are annually lost to the receipts of the railway and the expenditure of large sums of money among our people prevented by the exorbitant rates of freight demanded over the I.C. R. A contractor recently offered twelve dollars per car load for the carriage of a large quantity of stone from Newcastle to Metapedia, which it is said would pay a fair margin of profit to the railway, and far more than it realizes for the low rate at which it carries Springhill coal, but the offer was declined, a price being named which placed it out of the power of the gentleman to make a contract. The exorbitant freight charges on stone and lumber almost entirely prevent the carriage of these articles and hence they are prevented from being shipped in the winter and have to take advantage of the

### The Late Miss McMillan.

We have received word of the death, at her home at Jacquet River of Maggie Mc-Millan, daughter of Robert McMillan of that place. The young lady attended Normal School last term, and was a favorite with teachers and students. On Feb. 21st she took the measles, which developed into inflammation of the lungs, and which eventually took her from earth. She was in her 18th year, and died in full assurance of a glorious resurrection.

At a meeting of the students of the Normal School the following letter of condolence was unanimously adopted and a copy ordered to be sent to the parents of

The students of the Provincial Normal School have heard with deep regret of the sudden death of Miss Madge McMillan. Not a few of her associates have been led by Miss McMillan's quiet influence, and the example of her conscientious work and life to better thinking and living; and while the esteem in which Miss McMillan was held causes her loss to be deeply felt here, yet we know that there are those nearer and dearer whose sorrow is unspeakably greater. We wish, on behalf of the students, to

tender to Miss McMillan's family and friends our sincerest sympathy in this trial; and to express our hope that the dear daughter and sister has gained a bright, Eternal Home. Hoping that He who "wipeth the tears off all faces" may comfort them as He only can, we are, on behalf of the students.

Yours faithfully Edith Williams, H. L. Galt, Gertrude B Commeau, M. M. Brady, Edith M. Dickie. - Fredericton Reporter.

### Unfair Discussion.

The Advocate publishes a report of an

interesting lecture delivered in Newcastle by Rev. Neil McKay on the subject of Temperance, in which the Rev. gentleman is represented as referring to "a Chatham paper". It is quite well known that because the ADVANCE has endeavored to set the issues of the Scott and license acts fairly before its readers, it has become quite fashionable amongst our prohibitionist friends to say uncharitable things respecting the paper and its editor. From some of these people we ought not, we suppose, to expect much better, but we hope men of Mr. McKay's position will be fair enough to refer to "a Chatham paper" by name when they think it neessary to do so at all. We are the more particular in the matter because of the course pursued by a clergyman named Rosborough, who, in a meeting at Neguac, not long since, took the liberty of assailing the ADVANCE and its editor to such an unwarranted extent that a gentleman present, in a spirit of fair play, called him to account in our behalf. We have no acquaintance with Mr. Rosborough, but think one of his calling might be better employed than in abusing his ministerial privileges as he did on that, and a previous occasion. The cause of the Master he professes to represent cannot be promoted by his forgetting that he is a Christian in his blind zeal in persecuting and slandering those whose only offence is that they differ from him in opinion on a public question. We have no doubt that when the people have decided whether they shall retain or part with the Scott Act, this Rev. Mr Ros borough will regret that he did not conduct himself properly towards all the people of the County-especially those whose good opinion of him may be worth having.

### About Printing

The St. John "Gazette," which appears to have been established for the purpose of finding fault with and setting all the other papers of the province right, and condemning all printing offices and their work, said the other day, that the Crown Lands Report of last year was "a disgrace. ful piece of work." Another paper hastens to quote the Gazette's remark and asserts that this "disgraceful work" was done at the office of this paper. The malice of the assertion will be realised when we state that the Crown Lands Report was never printed in this office. It has, for the last five or six years, been printed at the ful affair in all respects. The race be- amined the report of last year-or, at hard, and have suffered nothing of any actween Jones & Hart was won by Hart and least, the copy sent from Fredericton to count since. - F. seconded by James Edgar, and carried longer, being far spent with consumpunanimously by a standing vote. Resolved, That while, as Temperance workers, we work and strive for total prohibition of the manufacture, importation and sale of all intoxicating liquor, we accept the Canada Temperance Act as being the best legislation on the temperance question at present available, and pledge

ourselves to maintain and promote the enforcement of the Act in this county; And Whereas. By act of the Provincial Legislature the responsibility of enforcement of the Scott Act devolves largely on the Councils of those municipalities in which it is in force, and it is therefore highly desirable and necessary that such Municipal Councils should be composed of men of integrity and sobriety and desirous

of securing the observance of the said Act; Therefore Resolved, That we individually pledge ourselves to support only, and use our influence on behalf of candidates for the Municipal Council who are men of known Temperance principles, and in to try their fortunes in the west. ing temperance legislation in this county till such time as a total prohibition enact ment has been secured.

### Address to Rev. D. V. Gwilym.

On last Tuesday evening the teachers and scholars of St. Mary's Church Sunday School, Richibucto, assembled in their School Room, when Sheriff William Wheten, read the following address: To Rev. D. V. Gwilym, Rector of St

Mary's Church, Richibacto. pupils of St. Mary's Church Sunday School, having learned that you have resigned your position as Rector of this Parish, desire to express their sincere regret at the severance of those ties which during the past two years have bound us so intimately together. The interest you have always taken in

the success of our school, the kindly and pastoral advice you have so frequently given us, and the concern you have always manifested in our spiritual and temporal welfare have endeared you to us by those tender ties which should always exist between pastor and people. We sincerely trust that your removal

from this Parish, to another and a larger field may result, under the divine blessing in opporturities for increased influence, and the employment of that ability, which all your Parishioners recognize, for the benefit of the Church and your people.

You will please convey to your beloved wife, whose assistance in our school work we so heartily recognize, the assurance of our kindly feelings. And with the best wishes for the con-

### That Offer of \$5,000.

Our readers will doubtless call to mir the offer so widely advertised for the past ten years by H. H. Warner & Co., the proprietors of Warner's Safe Remedies. that they would pay \$5,000 to any person who would prove to an impartial referee that they had ever published a testimonial that was not genuine so far as they knew. This offer had the ring of honesty about it, and as the matter has an especial interest just now we give a copy of the offer as it appears in the Messre. H. H. Warner & Co's pamphlet:

AN OFFER OF \$5,000 TO Every Testimonial published by us Bona Fide, and, so far as we know, is solutely true. To any one who will prove the contrary to an impartial referee we will give \$5,000. H. the offer, and their unbiased opinion of the same with reference to the \$5,000. STRATHGLAIR, P. There is no getting away from such testimony as the above. The offer is genuine. In fact Messrs. H. H. ### Always the way with those Methadists.

A well-known Methodist, who was travelling on horseback through the State of Massachusets, stopped once on a sultry summer's day at a cottage by the roadside, and requested some refreshment for himself and beast. This was readily granted by the worthy New England dame; so the parson dismounted, and having seen his horse well cared for, entered the cottage and partook of the refreshment which was cheerfully placed before him. For some time past there had been no rain, and the country seemed literally parched up. The minister entered into conversation with the old lady, and then remarked upon the dry- John H. Lawlor & Co.

ness of the season. "Yes," she replied, "unless we have some rain soon all my beets, cucumbers, and cabbage will be good for nothing, and I think that all the ministers ought to pray for rain."

The worthy divine informed her that ne was a minister, and that he should be happy to comply with her wish. He accordingly knelt down and prayed fervently that the gates of heaven might be opened-that showers might descend and refresh the earth. He then arose from his knees and, having kindly thanked his hostess, bade her good day, mounted his horse and departed. But he had not been gone more than an hour when the clouds began to gather and a tremendous shower of rain and hail descended, and with such force as to wash the contents of the oldiady's garden clear out of the ground. "There!" said she, " that is always the way with those Methodists; they never undertake to do anything but they al-

ways overdo it." FREDERICK T. BOBERTS, M. will continue to be the Greatest and Cheapest Family Journal IN THE UNITED STATES The current year promises to be crowded with In the United States the entrance of new issues into the political arena has been followed by a change of administration. But the great economic question on which the campaign turned is still unsettled, and its solution is now committed to a Congress almost equally divided between the two great parties. Europe is a vast camp. Army corps patrol the frontiers, and Millions of men await the signal for the most titanic war the world has ever seen.

The Herald's news-gathering machinery is unequaled. Its correspondents dot the habitable globe. Nothing can escape their vigilance, and no expense is spared in spreading the results their efforts before the Herald's readers. All the news of America will be found each week in the Herald, while its foreign department will contain a panorama of the Old World, flashed under the sea over the Commercial Cables.
