Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal use.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success."

Efficacy. "I was afflicted some three years with scalp disease. My hair was falling out and had remained turned gray."

"A few years ago I suffered the entire loss of my hair from the effects of fever. I hoped that after a time nature would repair the loss, but it failed to do so."

Ayer's Hair Vigor, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

spirit of loyalty to our own country, to its institutions and laws. Every man owes a duty to his family and to himself.

It is his duty to be true to himself, to protect and maintain his family, but he also owes a duty to the state.

Instead of degrading his own land he should endeavour to build it up, to instill into the minds of his children the true spirit of patriotism.

There is no place in the world where there is more liberty than here; no place where there is more freedom of speech and action, no place where there is less oppression of the weak by the strong.

It is frequently to be regretted that confederation was retrograded instead of advanced, and men sigh for the good old times.

It is the habit of men, when ages come upon them, to look back to the days of their youth and imagine that all the good is lying out of the world.

This is a mistake. "The tares may perish, but the grain is not for death." Whatever good the old time had is living still.

Twenty-five years ago we could not have a procession like this, for our industries were not developed. By the aid of improved machinery we can exhibit in many departments of trade, which no one would have dreamed of a quarter of a century ago.

An old house on the north side of the river was pointed out to me a short time ago and I was told that the stone of which it was built was all imported from Scotland.

The men of that day had faith in the country they were about to inhabit, but none in the country to which they came.

Later they found that better building stone than any that could be imported was lying around loose under their feet.

In the procession to-day we had a representation of the work carried on in the quarries at French Fort Cove, and it was one of the most striking sights.

From this quarry building stone is exported to all parts of the Dominion. It is considered the best in the country.

The additional departments of building at Ottawa are being constructed with it, and there is every prospect of great success before the owners of that invaluable industry to-day.

The evidence of the capabilities of the country and the faith of outside capitalists in it, the fact that over half a million of dollars have been invested in the establishment of a pulp mill in Chatham, which is a great success and will doubtless prove very remunerative to its promoters.

That industry was representative of the new era of progress in the manufacture of lumber progress is evident.

Twenty-five years ago a five-gang mill was thought to do great work in the run of a day, it cost 30 M. Now, if a one-gang mill is run at least 60 M per day it is considered a failure.

It has been said for years, that the lumber of this country would soon be cut out and that the industry would decline—but what is the fact? We have to-day more mills in active operation than for years past.

The quantity of sawed lumber, the trade looks better now than it has done for years, and I hope the confident feeling that exists among our Lumber Merchants is well founded.

Mr. Tweedie is a most disinterested and I believe it will be most discouraging to fight against hard luck and depression of trade, but I believe the worst is not yet seen.
