or about only 14,000 more than Gloucester, Carleton and Kent, sent 12 representatives here, or one member for each 7,200 of population. The question was a difficult one to Kent and he hoped some steps would be taken in order to place them on a more equitable footing with the other counties. He felt that Victoria and Madawaska were in a very unfair position, having only one member each. No county, he felt, should have less than two representatives. He felt the question was a difficult one to handle, but he hoped the day was not far distant when Victoria and Madawaska would be placed on a better footing, so far as the number of their representatives in the house were concerned.

issue bonds to the extent of more than \$12,000 per mile. This was opposed by several members on the ground that this railway was to be a trunk line, and that it would involve engineering difficulties to be overcome. The amendment was not voted by the house. Messrs. McLaughlin, Turner, Alward, Emery, Hatherly, Palmer, Hetherington, Humphreys. Nays—Mr. Speaker, Blair, Ryan, Mitchell, Ritchie, Hamilton, Black, Tweedie, Young, Murray, LeBlanc, Kilm, Wilson, Phinney, Theriault, Labilios, Hutchison, Johnston, Stockton, Douglas, Ketchum, Atkinson, Barchill, 23. An amendment proposed by Hon. Mr. Mitchell was passed, making it compulsory upon the company to use coal as fuel in their locomotives between May 1st and Dec. 31st. The bill was agreed to with this and some other amendments. Hon. Mr. Ritchie committed the bill to the committee on the St. Lawrence and Maritime Province Railway Co., Tweedie in the chair.

complete possession of him, and his zeal, his devotion and aptitude went far to supply the lack of early initiation. Almost from the first he threw a good line and after his first season he needed no hints from an attendant fisherman to tell him what was likely and what barren water. He was conversant with the Tweed, the Tay, and the Spey. His favorite river was the Spey and he had quite mastered that peculiar cast which anglers know as the "Spey throw."

guished honor of not knowing, "until a few months ago," that the man and paper he misquoted, "were in existence." We are not disposed to deal with the gentleman's misrepresentations of our utterances as they would warrant us in doing, for the "enlightened zeal" to which he refers may have assisted some designing person in imposing on him, and in that case, he would not be fully responsible, but we are interested to know whether he was so imposed upon, or, with the ADVANCE before him and "the Bible for his Guide," he attributed statements to us which we never made.

MR. WHITE said there was to be a reconstruction in the matter of representation he wished to have the claims of King's considered. That to reflect upon the same representation as either York or Charlotte or Northumberland.

MR. PHINNEY thought the true spirit of representation was to divide the province into electoral districts. That was a difficult one to handle, but he hoped the day was not far distant when Victoria and Madawaska would be placed on a better footing, so far as the number of their representatives in the house were concerned.

W. H. Harvey, bookkeeper for J. W. Lyon, Guelph, Ont., was arrested on 26th ult. for embezzling \$4,000 from his employer. Shortly afterwards he was bailed out. Harvey, during the forenoon, purchased a revolver. When, for some reason, the chief of police visited Harvey's residence, he found the house locked, but by raising the window at the back made his way in. He passed through the kitchen, dining and sitting rooms, looked into the parlour, and then up stairs, when the first object on which his eyes rested was Harvey's little girl of 12 or 13 years, lying on the floor of the front bedroom with her head in a pool of blood. The hole in her head at once told the means by which she had met her death. In the back bedroom he found the eldest daughter, also stone dead, lying beside the bed. Down stairs he found Mrs. Harvey stretched at full length with a similar bullet wound. Her face was found of the author of the dreadful triple murder. Harvey went to the central school about 11 o'clock in the morning and took his young daughter home. He was seen driving towards Schacter station, and it was thought he took the train for Toronto where he had a son at work. It is reported that he had sent a message to his son asking him to walk down to the town and stay with him over night. The message fell into the hands of detectives, thus setting them on Harvey's track. On his person, when he was arrested by the police, was found a new five-chambered revolver, with three empty cartridges recently discharged. He was apparently in a state of great excitement. It was reported that Harvey intended to use the two loaded chambers of his revolver on himself and his son.

A Salmon Advertisement. An enthusiastic friend of the Scott Act asks us to publish the following, which he thinks bears very hardly on the licensed liquor traffic. If, however, it is a fair thing to bring against the licensed traffic why has it not an equal bearing on the traffic as it exists to-day in Northumberland. But perhaps our friend will claim that there is no liquor traffic in the County just now. Our friend's contribution is as follows:—

MR. MURRAY said the people of Restigouche were satisfied that their present representatives could attend to their wants in this assembly. He was not like the people of Kent, who felt that their present representatives should have further assistance. (Laughter.) It was unfair for the member of Restigouche to reflect upon the members of Kent who had not a fair chance until lately, but was now coming rapidly to the front.

MR. PHINNEY said it was felt that the matter of representation was not a question of equitable division of the province, but that it could not be dealt with this session, but the government hoped to be able to suggest a remedy in the next future. He hoped during recess members would not commit themselves to the proposition in favor of dividing the province into ridings against which ideas many objections could be urged.

What Am I to do? The symptoms of Biliousness are unappetite, flatulence, and constipation. A Bilious man seldom has a breakfast. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and Diarrhoea or constipation may be symptomatic of the two ailments. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence. To correct all this is not effect a cure try Green's August Flower.

THE JESUIT'S Estates Bill question. (St. John "Globe") When the more important speeches on the O'Brien disallowance resolution come to be read they will be found to have a serious undertone. A discussion on any great subject is usually affected by the political position of the speaker, by the doings of some man, by the sayings of some other man. There are involved sometimes history, politics, social circumstances, religious acts. This is the case in regard to the Jesuit Bill. But some of the speakers seem to have had in their minds strong consciousness that this country stands in a very peculiar position. Two races, two religions, strive in for the mastery. There may be no conscious rivalry, often without much intellectual rivalry, but there is a rivalry which is produced by the contact of differing ideas in two different kinds of men. In Quebec there is a religion, in Ontario there is a population, very much opposed to that religion—let us say a tolerant and prudent people, yet a people easily to be aroused into hostility, and very jealous of anything that may be construed as an attempt to interfere. For the present, however, difficulty is got over. In the early days of the United States some men, very few, saw that slavery was an element of danger to that country. In Canada there are a few men who do not close their eyes to the possibility of a serious difference upon religious grounds. Unhappily, religious questions most easily excite the passions, and questions of this nature which become political, urged often without much regard to the fact that all civil government is a compromise, are fraught with danger to a country like ours, in which there are two large Provinces, and several small ones—the large Provinces being so constituted as to be Catholic and one Protestant, the smaller ones pretty evenly divided on matters of religion. The debate of last week in the House of Commons very clearly reveals a possible, yet more, a probable national difference in the future, a possible interference. THAT'S RIGHT.—We are glad to learn that the Liberal-Conservative Club of Chatham, Hardwicke and Glenelg is endeavoring to make itself really useful. Pursuant to a resolution passed at one of its meetings and forwarded to Ottawa, the attention of the Public Works department was again called to the necessity of a new building to accommodate the Chatham Post Office and Custom House, and Mr. Turnbull, a Dominion Buildings Inspector, was sent this week to examine and report on the old building. We are most happy to see that the government will at once provide that necessary work for Chatham. The Club and its friends have recommended Ritchie's wharf as a site for the proposed building.

PHINNEY said it was felt that the matter of representation was not a question of equitable division of the province, but that it could not be dealt with this session, but the government hoped to be able to suggest a remedy in the next future. He hoped during recess members would not commit themselves to the proposition in favor of dividing the province into ridings against which ideas many objections could be urged.

MR. MURRAY said the people of Restigouche were satisfied that their present representatives could attend to their wants in this assembly. He was not like the people of Kent, who felt that their present representatives should have further assistance. (Laughter.) It was unfair for the member of Restigouche to reflect upon the members of Kent who had not a fair chance until lately, but was now coming rapidly to the front.

What Am I to do? The symptoms of Biliousness are unappetite, flatulence, and constipation. A Bilious man seldom has a breakfast. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and Diarrhoea or constipation may be symptomatic of the two ailments. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence. To correct all this is not effect a cure try Green's August Flower.

THE JESUIT'S Estates Bill question. (St. John "Globe") When the more important speeches on the O'Brien disallowance resolution come to be read they will be found to have a serious undertone. A discussion on any great subject is usually affected by the political position of the speaker, by the doings of some man, by the sayings of some other man. There are involved sometimes history, politics, social circumstances, religious acts. This is the case in regard to the Jesuit Bill. But some of the speakers seem to have had in their minds strong consciousness that this country stands in a very peculiar position. Two races, two religions, strive in for the mastery. There may be no conscious rivalry, often without much intellectual rivalry, but there is a rivalry which is produced by the contact of differing ideas in two different kinds of men. In Quebec there is a religion, in Ontario there is a population, very much opposed to that religion—let us say a tolerant and prudent people, yet a people easily to be aroused into hostility, and very jealous of anything that may be construed as an attempt to interfere. For the present, however, difficulty is got over. In the early days of the United States some men, very few, saw that slavery was an element of danger to that country. In Canada there are a few men who do not close their eyes to the possibility of a serious difference upon religious grounds. Unhappily, religious questions most easily excite the passions, and questions of this nature which become political, urged often without much regard to the fact that all civil government is a compromise, are fraught with danger to a country like ours, in which there are two large Provinces, and several small ones—the large Provinces being so constituted as to be Catholic and one Protestant, the smaller ones pretty evenly divided on matters of religion. The debate of last week in the House of Commons very clearly reveals a possible, yet more, a probable national difference in the future, a possible interference.

TEMPERANCE BAND. The teachers of St. Andrew's Church Sabbath School, met in their hall on Tuesday evening last and organized a Temperance Band in connection with their school, with the following officers for the current year:—

THE LEGISLATURE. (Continued from 2nd page) A long discussion took place in reference to the amendment of the St. John Gazette on Hon. Mr. Ritchie, after which the bill was agreed to without amendment, read a third time and assented to by his honor the lieutenant governor.
