MIRAMICHI ADVANCE, CHATHAM NEW BRUNSWICK, NOVEMBER 28. 1889.

time. They will, in future, reside in falling tree and instantly killed. Harvey indeed we be spared until these now such "expenses of Maritime bank suit." Next year there are hopes of improving OINTMENT," without any internal med servative party to Hades. It is stated that the government refused, on a for-England

mer occasion, to accept the proposition now submitted by the C. P. R. because of Sir Donald Smith's withdrawal from the ocean steamship President Vanhorne, referring to the above statement, says that the C. P. R. "simply made application for the same rights with respect to that section between St. John and Halifax as the government gave us last session over the portion-between Moncton and Halifary the Short Line bill, by which the government were to build, and we were to operate a railway from Harvey to Moncton. It was stipulated that our company should have full running powers over the Interculonial Halifax."

REMARKABLE CASE. Mr. Ale MeLellan, of North Gut, St. Ann's, as something strange to relate in reference to an animal of his In 1887 one of his sheep had every indication of being about to lamb, and the event was fully expected to occur the course of a few weeks. At the proper time, however, it did not take place, nor even afterwards, and the other day Mr. McLellan had occasion to kill the sheep, when iuside was found the young lamb which should have been dropped in 1887. The lamb was petrified and a perfect shape, and the body covered with wool. The sheep has never been sick in any way.-North Sydney Herald.

NEW ENTERPRISES.

tender you this, my first paper on the subject, to be extended to three or four more such articles, if they prove of sufficient interest to you. This, my first article, will be devoted to estimating in what part of this Continent the oil-belt or oil-bearing rock may possibly be found. I shall base my premises, not on the theory of the guests. average geologist, but on the results of

practical operations of experienced men a found by "the point of drill." The oil-belt as it has been developed in

this State and extending beyond it, south, into Ohio, Kentucky and West Virginia, or northerly into the State of New York ;

is found to run a rather uniform course of southwest add northeast. This brings us face to face with a singular coincidence when compared with some of the physical features of our continent, as may readily be observed in the general course of our coast line from Maine to Mobile. The same features are again observable in the range of the Alleghany mountains and also in that of the Great Lakes, the St.

Lawrence River, the Restigouche and the Miramichi.

North America with its centre resting on have its northern extremity resting on the Mexico. This would indicate the possibility of finding oil in almost any section there, as spurs from mountain ranges are coast, I will be short this time. frequently diverging. In my next letter I will give the surface indications observ-He

flowers in full bloom which they gathered at Lower Mill cove last Monday. Ripe Strawberries were picked near the same place a week or two ago. The editor of

and sound judgment. the ADVANCE had from his garden, three weeks ago, full grown radishes, raised from the seed of his first crop of the season. On Monday last fruit trees. currant bushes and shrubs were buddin g in Chatham gardens.

SAILORS' HOME :- Rev J. Robertson. Black River, has received an acknowledgement of subscriptions transmitted

for the "Sailors' Home" at St. John, given by Mrs. W. McNaughton, Capt. Forbes &c. This useful scheme to

provide for the temporal and spiritual wants of seamen, in whose well being every member of the British Empire. especially, ought to take an interest, is

now being carried out most successfully, under the able auspices of Miss Hutchison, the loss of whom to Miramichi has was public-spirited, hospitable and generproved a gain to St. John.

MR. WM. NOBLE, whose letter on th subject of natural oil deposits, is in other column, is a son of the late Robert Noble of Hardwick, and will doubtless be remembered by many of our friends there. We observe that oil has been discovered lately in Gaspe, which seems to confirm Mr. Noble's theory of the matter. The

Campbellton Pioneer says : The excitement due to the setting up ot the houses and machinery of the "Petroleum Oil Trust" and the glimmering of a great "Boom" for Gaspe in the near future is the only redeeming point in the state of affairs at present.
