HALIFAX, July 11 .- A frightful catastrophe occurred at Dartmouth to-night, by which at least four persons lost their lives and many more victims may b added to the list, while a score or more

persons had an exceedingly narrow escape from death. An agitation in Cartmouth led to the town commissioners purchasing in Brooklyn, N. Y., the metropolitan ferry steamer Annex, No. 2. She is splendid double decked boat and appeared to be fully equipped. She has been fortnight coming from Brooklyn in charge of Capt. Kinley. When it was known people of Dartmouth began to flock down to the wharf to witness her arrival, extend a hearty welcome and inspect their new boat that they have looked forward to with such pleasant anticipations. Th Annex put into the new lay-up dock south of the landing dock, formerly known as Lawlor's wharf. The wharf was literally

covered with people. At the head of this dock is a gangway which is operated by a weight and chain and which drops down on to the boat when she comes into dock

and upon which the people pass to or from the boat. This bridge or gangway is about eighteen feet long and 10 feet wide. Last night it was suspended level John Robertson and Wm. McLeod. with the wharf
