DON'T FORGET the promenade concert in the Rink this Thursday evening.

St. John's Church promenade concert, sale and strawberry festival is to be held in the Chatham Skating Rink to-morrow.

THE DRAMA—We hope our drama-loving friends will patronize Harry Lindley's excellent company on their return next week.

A 5 lb SALMON was killed in the Grand Cascapedia on 8th inst., by Mr. E. N. Davis of Perry Davis Farm Killer fame.

THIRTEEN YEARS ago there was not one French family in Campbellton. Today the population is fully one-third French.

OIL IS GASPE—They have at last got oil in Gaspe. A well there is reported to be running at the rate of 30 barrels a day.

HARRY LINDLEY and his popular company are to appear in Masonic Hall, Chatham, on Wednesday next and to continue every evening "for one solid week."

73rd BAND—Mr. Walter H. White has been appointed Bandmaster of the 73rd Band.

St. Paul's Guild Sale—The annual sale by the ladies of St. Paul's chapter of the Guild of St. Mary & S. Paul was held on Tuesday the 15th inst., and was very successful.

A STRAWBERRY FESTIVAL is to be held in Chatham Rink on Tuesday next, under the auspices of the ladies of St. Andrew's Church.

PRESENTATION TO REV. MR. POWER—On the eve of his departure from Nelson to spend a well-earned vacation in Ireland, Rev. Father Power, the esteemed R. C. pastor of this parish, was, on Friday last, presented with an address and well filled purse by his parishioners.

PREPARE FOR THE GRAND BAZAR, Fancy Sale, Promenade Concert, and Prize-drawing to begin in Chatham Rink on Tuesday, 29th inst. It is in aid of the Sisters of the Hotel Dieu, and will no doubt have a large and well-deserved patronage.

THE CIRCUS IMPROVED—Robbins' circus bivouacked at Windsor Junction over Sunday, where they confiscated a goat, decorated him with paints and ochres, and exhibited him next day as an importation from the country of the Grand Lama, at ten cents a head.—Sackville Post.

NARROW ESCAPE—Robt. Barclay, an employe in T. Reid & Son's saw and door factory, Upper Chatham, had a narrow escape from death on Friday last. While engaged in putting a belt on a swiftly revolving pulley, he was caught some way and went around several times before the machinery could be stopped.

THE NEWCASTLE BASE ballists—old and young—are winning laurels. Allan's Core-Killers beat the big Campbellton players by a score of 33 to 11 on Saturday afternoon.

EXCURSION PARTY—About thirty excursionists went down to Bay du Vin in the Str. Miramichi on Thursday last. They remained there about four hours, during which time they enjoyed themselves to the best advantage available.

ONE place they found worthy of note was Mr. Malcolm Taylor's new summer hotel, which they thought added very much to the attractions of Bay du Vin.

PREPARING FOR THE NEW PASTOR—The new pastor of St. Luke's Methodist Church, Chatham, Rev. Thos. Marshall, is here, and the parsonage is being considerably improved preparatory to his moving into it. The old roof is being removed and a new and higher one put on, which will give much better up-draws rooms. A new drain has also been laid. When the renovation is completed, the parsonage will be a very desirable residence.

PRESENTATION—Handsome chairs, upholstered in plush, were presented by members of the congregation and choir of New St. Methodist Church to Rev. Mr. and Mrs. Clark on the occasion of Mr. Clark severing his pastoral connection. The presentations took place last Friday evening, and were accompanied by suitable addresses, which Mr. Clark acknowledged in grateful terms. Mr. and Mrs. Clark bear away with them the respect and good will of all who knew them during their residence on the Miramichi.

LEGISLATION—It has been learned from reliable authority that a genuine case of leprosy has been discovered on the island of Anticosti. Some time ago an Acadian family came to reside at English Bay on the south coast and the father recently died of leprosy. The case is most serious as the family is large, several of the boys of marriageable age. Rev. Mr. Tiboutot, missionary at Anticosti, has made a report to the government on the subject, and Mr. Pope, guardian of South Point lighthouse, who is at present at Ottawa, will also draw the attention of the authorities to the matter.

MOKE BEARS—And now, Mr. John Connell, of Bartibog, has captured three additional bears—all killed at one time by one steel trap to his credit. It came about differently from the two bears-at-a-time episode. The triple catch consisted of a she-bear and two cubs of this year. The old bear was caught by one of her fore paws, and was, no doubt, maddened with pain. While thus suffering she came to have been approached by the cubs, which she either purposely or acci-

dentally killed, as they were both found dead near the trap in which the mother had also died.

W. C. T. U.—The W. C. T. U. of the Northern & Eastern Counties of New Brunswick held meetings in Newcastle last week beginning on Tuesday evening and lasting until Thursday evening.

They were presided over by Mrs. Emission of Dorchester. The usual reports were submitted and discussions took place on subjects of moral reform and other matters within the scope of the Union's work. The election of officers resulted as follows:—

President—Miss J. Mitchell, Newcastle. Vice-Presidents—Mesdames Read, Crain, Snow, Park, Price, Steeves and Miss Train.

Secretary—Mrs. W. Sutherland, Newcastle. Treasurer—Miss Emma George, Upper Sackville.

It was thought unnecessary to appoint Superintendents of Departments. The next annual meeting of Convention will be held at Moncton, on the last Tuesday in June.

THE COUNCIL REPORT—A local paper complains in its usual manner when dealing with the gentleman with whom it finds fault—that the reporter of the Municipal Council's proceedings did not furnish it with a copy of his report. We are authorized to say that a copy of the ADVANCE containing the report was forwarded to the local paper referred to as well as to the Advocate. The Advocate published the report, but the other paper, no doubt, stood on its alleged dignity awaiting the reception of the matter by a special messenger, accompanied perhaps with a private note informing the chronic fault-finder of the nature of the matter, and that he was expected to publish it.

The Council may—if the matter is duly presented—appoint a special officer to visit upon the growler with the report next time. As a matter of fact, the paper referred to never published a full report of the Council's proceedings, and the sending of such reports to it in any special manner would be only "casting pearls," etc.

PERSONAL—T. M. DeBlais, Esq., has been paying a visit to his friend, Sargant Major J. P. Street, Woodburn, Chatham. Mr. DeBlais is in his 91st year. His form is still erect, his step elastic, his memory undimmed and his voice cheery, as of yore. He has gone to Bathurst and will have his accustomed salmon-broiling on the Nipisiquit. Men like Mr. DeBlais illustrate the fact that a temperate and carefully chosen diet, which is always possible to those of sound health and disciplined mind, is the best guarantee of man's happiness in an honored old age.

Mr. R. C. Hawes, of Liverpool, formerly of St. John, is visiting St. John accompanied by Mrs. Hawes. They are staying at the Royal hotel.

Mr. Holley V. Parker, accompanied by Mrs. Parker, is visiting Miramichi friends, of whom they have very many to extend to them a hearty welcome. Mr. Parker is on the writing staff of the New York Herald—the leading paper of America, if not of the world.

Judge Jas. Hemphill, Dr. J. Max Muller, T. W. Marshall, Jackson Sargent, and E. Dallet Hemphill—gentlemen prominent in professional, political, business and scientific circles in Pennsylvania, and citizens of West Chester in that State, were in town on Saturday and Sunday and went, on Monday, in Mr. Sinclair's steamer, Bridgetown, to Redbank, where, after engaging carriages and guides, four of them proceeded up the Northwest, intending to go as far as a mile above Stony Brook, to fish the salmon pools at and below that point. Col. R. R. Call, lessee of the river, extended to them the courtesy of a permit. Dr. Muller, who has always found mosquitoes so incivily attentive to him as to materially interfere with his enjoyment of fishing, decided to remain at and in the vicinity of Chatham, where, if the fish are smaller, the flies seek not the visitor's blood. We hope that the party now up-river will meet with either salmon or grills to reward them for coming so far. Before leaving Miramichi they are to have two or three days' sear-trout fishing.

Dr. W. P. Morrissey of Brooklyn, N. Y., is making his usual summer vacation visit to the Miramichi. The Advocate says that he took a run last week to Flat Lands, Restigouche, for a day or two's fishing, and was very successful. He captured 7 trout weighing 15 lbs., and 2 salmon of over 20 lbs. each, and lost one which would weigh 25 lbs., by the breaking of its casting line.

The many Miramichi friends of Mr. Hurley, of New York, are glad to welcome her here on a summer vacation visit. The Frederick Reporter says that Mr. Donald McCathern of that city has for many years been seriously inconvenienced with a stiff arm. A couple of weeks ago he went to Toronto and placed himself under the surgical treatment of Dr. Atherton. An incision was made the other day and a piece of dead bone removed. As the trouble has been of long standing it is feared he will have to undergo another operation in order to effect a removal of it.

Mr. John A. Wilson of New York, to whom many of our people who have visited that city are indebted for timely courtesies, is amongst those who are enjoying their summer vacation here. Scores of friends give him a hearty welcome.

Richard Aitridge, Esq., of Doaktown, was in town on Tuesday and yesterday.

Mr. P. A. Holohan, son of Mr. Elward Holohan, Newcastle, has finished his course of studies at Holy Cross College, Worcester, Mass., and received the degree of B. A.

Mr. C. S. Shaw, representing the New York S. S. Company is visiting Miramichi.

John Stuart, A. Bruce and A. B. Lee, Esqrs., directors of the Maritime Chemical Pulp Company, have been in town for a few days. They are at the Bowser hotel.

Rev. Thos. Marshall, the new pastor of St. Luke's Methodist Church, Chatham, has arrived to assume his charge here. His reputation as an earnest worker in his profession and the fact that he is secretary of the Methodist Conference of N. B. and P. E. L., indicate that St. Luke's congregation is fortunate in having him placed over it.

Back from Moncton. Our volunteers are home again, having arrived on Friday. Newcastle Field battery, after firing a salute on the Public Wharf, proceeded to the south side of the public square, where they were addressed by their commanding officer Lt.-Col. Call, who very justly complimented them on the excellent showing they had made in comparison with other batteries of the service, which had better opportunities for attaining proficiency in drill. The men were then allowed to break off for the purpose of having light refreshment at Mr. Geo. Stables. This being attend-

ed to Capt. Lawlor briefly addressed the men and concluded by calling for three cheers for Col. Call, which were given with a will, and followed by three for Capt. Lawlor and Lt. Davidson. The battery then proceeded to quarters, where the men were dismissed.

The 73rd battalion marched in from Chatham Station to Wellington Street, south side of the public square, where, after being addressed by the commanding officer, the men were dismissed.

Blackville and the Scott Act. To Scott Act Inspector Brown.

DEAR SIR:—Your success in suppressing the liquor traffic in other parts of the County causes the frequent inquiry here: Why do you not visit Blackville? where there is ample scope for your talents.

One day near Blackville Station displaying the fruits of its illegal traffic by a coat of new paint, etc., is not more obnoxious by reason of its traffic than from the fact of its discourteous treatment of travellers seeking lodgings and the generally unsavoury character of its inmates; therefore come and root them out. Respectfully,

VOX POPULI.

Death of Rev. W. M. Edwards. DOAKTOWN, July 11th, 1890.

Our community was surprised by the sudden death of the Rev. W. M. Edwards, which took place on Wednesday morning, 8th inst., at 2 o'clock, of cramps in the stomach. He was buried July 11th in the Danby Baptist church burying ground, in Blackville. The services were conducted by Rev. T. G. Johnstone in New Salem Baptist church, near his own home. The church was crowded by those who came from far and near, comprising all denominations. Many tears were shed and great sorrow was felt by all who knew deceased. His kindly nature made him feel deeply for the sick and distressed, his house was constantly thronged by those needing bodily and spiritual consolation, which were never withheld. All creeds and denominations went to him for aid, and his house was a home for every one and his table always entertained the people who came to him for aid. As a minister he was zealous and faithful, and he did much for the cause in which he was engaged, both in the pulpit and in building and improving churches and their surroundings. It can be well said of him, from the text of his final sermon:

Blessed are the dead which die in the Lord, for their works do follow them.

Politics in Kent. RICHMOND, July 14.—The election in Kent is at present, a matter of looking forward to nomination day. The campaign is a strange one, too, for with no political question before the candidates, without any party issue, it presents to the florid orator a large field for his imagination in discovering what to say.

The two lawyers, Mr. Sayre and Mr. McInerney, being somewhat adept in talking against time, find little trouble in holding out on the Joe Bigger system; Dr. Legere, knowing where the shoe pinches, has figuratively beaten his scapular into a political rake for the benefit of Mr. McInerney; and Mr. Jardine—well, his record so far, is a seven-and-a-half-minute oration delivered in Kingston last Saturday night.

Who will be in the field on the 24th? That's the question. For one, the doctor who has been sure. He poses as the Acadian candidate, and the choice of the Acadian convention, although his opponents say—and say truly—that the Convention was not a representative one, that it was not fairly arrived at, and that Dr. Legere was not squarely nominated.

Among the English candidates there seems to be a common idea of holding on till the end. Mr. Sayre has been presenting the different English districts with a proposition that runs like this: Let each English candidate choose a representative, and the three go through the English part of the country, taking ballots in each school district and let the man polling the largest vote in this be the English nominee. Mr. Jardine accepted it a few evenings ago, and on the following morning, withdrew his consent. Mr. McInerney would accept it with the amendment that the French people opposed. Legere has taken on the committee; for he reasoned, to make the choice exclusively English would lighten the heavy burden on the nationalities which always existed, and which was at no time so low as at present. Thus no conclusion was arrived at. The plan was hardly feasible anyway, for it would require a day in each district, and there are more districts than there are days from this till the 24th. As to the strength of each candidate: Dr. Legere is confident of a large French vote, although Mr. McInerney is confident, too, of taking half the vote of the southern part of the county. McInerney's English vote, will, undoubtedly, show up as it always has done. Jardine will take majorities in some of the up-river districts, while Sayre has his old friends of previous elections.

It is very probable that on nomination day the English candidates will be whittled down to two, neither of which, considering the division in their part of the county, will naturally affect the other.

PETROCHEM, July 14.—Political matters in this section of the county are just now at fever heat. Quite a few meetings were held yesterday outside the churches. Mr. McInerney addressed a meeting at St. Paul, and Mr. V. Bourque spoke on his behalf at St. Ann's. Seven other parties left here yesterday morning to do a little canvassing around different churches in the district. Dr. Legere spoke at St. Louis.

Nothing adds so much to a person's appearance as a fine thick head of hair of even color, and to assure this use Hall's Hair Renewer.

Hints on Hay. Cut hay early. Very little of the "forest primeval" is left in Connecticut. The Hartford Times says that a piece of pine woods, in an unfrequented part of the rocky eastern hill of Town of Union, on the northern border of the State, in Tolland County, is just as the Indians left it: but that single acre or two is said to be the only piece of original woods now left in Connecticut.

Mr. M. B. Daly, an eminent Halifax citizen, has been appointed Governor of Nova Scotia, and the choice is an excellent one. Mr. Daly is a son of Sir Dominic Daly, a distinguished Irishman, who lived most of his life in Quebec, and filled many honorable positions, including the governorship of the West Indies, and P. E. Island. The younger Daly was born in Quebec, but removed to Halifax when a young man, serving there as private Secretary to three successive governors before Confederation. Eventually he studied law, then he got into politics,

having been twice elected to represent Halifax in the House of Commons. In the last Parliament Mr. Daly was appointed deputy speaker, a position he filled with every credit to himself. Governor Daly is fifty-four years old, a gentleman of gentle presence, and highly popular in the Nova Scotia capital and throughout the province. He is married to a daughter of Sir Edward Kenny, and is a brother-in-law of the junior M. P. for Halifax, Mr. T. E. Kenny. He is the first Roman Catholic to hold the governorship of Nova Scotia.
