

## Miramichi and the North Shore, etc.

A SMALL STEAM ENGINE and boiler wanted. See advt.

FOR DALHOUSIE.—John Montgomery, of Dalhousie, who has been studying law with C. N. Skinner, St. John, goes to Halifax this week. He is in his fourth year in arts and his first-second in law at Dalhousie.

STEAMER "NELSON'S" time-table is to be changed, beginning to-morrow, Friday. She will leave Chatham at six o'clock, p. m., instead of 4.30, as formerly and there will, of course, be no seven o'clock trip, the arrangement being therefore precisely the same as that for last fall.

FINGER INJURED.—Thomas Connors, a young man employed in Mr. John McDonald's steam wood-working establishment, Duke Street, Chatham, lost part of one of his fingers on Monday last by allowing it to get into contact with a buzz-saw.

THE NORMAL SCHOOL was re-opened on Tuesday morning with 207 female and 28 male applicants for admission. A Fredrickson correspondent says:—"C. C. Turner of Tracadie is registered at the Barker. He is accompanied by his two daughters, who are applicants for admission into the Normal school."

105 YEARS OLD.—Mrs. Pitre, 105 years old, was in Bathurst the other day having, as she said, a look at the place before she died. She is exceedingly smart, has a good memory and bids fair to add a few years more to her already advanced age. She had not been in Bathurst for fifteen years, although she lives but three miles distant.

ST. LUKE'S PICNIC.—A very large picnic and excursion party went from Chatham by the Canada Eastern Railway to Doaktown yesterday morning, under the auspices of St. Luke's Methodist Church. The day was a very fine one and we have no doubt the occasion was fully enjoyed by all who went.

THE PRESS.—A large number of journalists and others connected with the press of the Maritime Provinces, have been enjoying an excursion to Prince Edward Island. Their outing has been a pleasant one and their association together under such favorable circumstances for social intercourse will have a beneficial effect upon the fraternity generally.

FOR THE UNIVERSITY.—Principal Cox of the Newcastle High School is to be congratulated on the fact that four of his pupils—and perhaps five—will matriculate at the New Brunswick University this year. The prospects are that the University will open in October with the largest number of students ever enrolled for one term since it was founded.

ABDUL AZIZ, who was here not long ago with the Indian contingent of the Salvation Army, has left the Army and re-joined the Baptist church. He will be engaged and supported by the Baptist congregation of Moncton as a missionary to the Telugu country in India. He took part in the services in the Moncton Baptist church last Sunday morning and spoke of mission work in India.

OUT OF ITS COVERS.—A few days ago a carrier pigeon, carrying attached to its neck a note, alighted on the barn of Fabien Landry, Grand Anse, Gloucester Co. and allowed itself to be captured. The note was dated the 16th inst., and was written from Kamouraski, Que., by a man named Harvey. The bird was to have gone to Quebec but evidently had been blown out of its course.

MR. ALEX. McDONALD, formerly of Newcastle, and now of Portland, Maine, is visiting his native town, which has no reason to be ashamed of him, either at home or abroad, and a ridiculous reference to him in yesterday's *Advocate* while it may annoy both his friends and himself, is only a fresh manifestation of the unfortunate inclination of that paper to display the penitential taste with which it is conducted.

STUCK A REEF.—The freight steamer William, of Charlottetown, from Sydney to Miramichi, N. B., with coal, put into Bay View on Thursday for shelter during the storm and as she was coming out next morning she struck on Cape Tormentine reef and sprang a leak. She was headed for Point du Chene where she reached yesterday afternoon, and was beached to prevent her from sinking. She will have to discharge her cargo to repair.

ST. MARY'S AND ST. PAUL'S PICNIC. St. Mary's and St. Paul's Sunday Schools (D. V.) hold a Picnic on Beaubear's Island on Tuesday, next, the 9th inst. A steamer will leave Chatham at 9 a. m. and 2 p. m., calling at Morrison's Wharf. Tickets for adults, one fare, 25cts. Children free.

IT IS hoped that a pleasant day will be spent at the old favorite resort, by both adults and juveniles.

NOT UNUSUAL.—The St. John Gazette has the following paragraph:—"A curious incident is told by Capt. Kennedy of the schooner Cricket, which happened on the last trip of that vessel to Boston. A large sea was shipped and shortly afterwards two large herons were found on the deck."

Our fresh-water friends of the *Gazette* will, probably, be surprised to learn that fishes sometimes fly on board of vessels in the Gulf stream and that of salmon have, frequently, jumped from the Miramichi river and alighted on rafts and been captured in that way.

A NEWSPAPER.—The *Globe*, which is assisting the Sun to oppose the local government in the issue of the liberal cause says:—"The Sun has lately put into its press-room a large double-cylinder Hoe press, with folding and pasting attachments. This has been rendered necessary by the increasing sales of the daily paper, and by the need of having its Saturday and weekly editions, which are in quarto form, at the convenience of readers. The new press is a very fine one, is a valuable addition to the working machinery of the paper, and is evidence of increasing prosperity."

PERSONAL.—Hon. Attorney-General Blair was in Bathurst yesterday. Hon. Surveyor general Tweedie has returned home from quite an extended visit to York, Carleton, Victoria and Madawaska. Professor Harrison of the New Brunswick University, is visiting Miramichi, accompanied by Mrs. Harrison and their many friends who are glad to see them. Mrs. McCullum who has been suffering with lock-jaw for the past two weeks continues in a very precarious condition. Mr. Geo. P. Starke has been dangerously ill for nearly a week, suffering from an attack of inflammation of the bowels,

but his many friends will be glad to learn that his symptoms were favorable yesterday. Mr. Gordon M. Blair, of the Bank of Montreal, Calgary, who is returning from a vacation tour of Great Britain and the continent, is visiting his home in Chatham and is heartily welcomed by his many friends here.

Picnic-Excursion and Dance. The close of the summer season at the favorite Bay du Vin resort—Mr. Malcolm Taylor's—is to be celebrated next Thursday, 11th inst., by an excursion, picnic and dance. The large hall adjoining the hotel will be open for dancing immediately upon the arrival of the *Miramichi* on the morning trip from Chatham. Mr. Arch McEachran being engaged to furnish music for the occasion. The *Miramichi* will make a second trip from Chatham leaving her wharf here at 7 p. m. and arriving at Bay du Vin at 8.45. Excursionists going down by the evening trip will be about three hours dancing. Particularly as to faces, dinner and tea, refreshments, etc., will be found on an other column. This seems to afford a suitable opportunity for a very large number of young people to have a most enjoyable time.

Meritorious Entertainments. Of the Dick & Edmonds Van de Vande Company, which is to appear in Masonic Hall, Chatham, four nights, beginning to-morrow, Friday, and continuing until Tuesday, the Moncton Times of 19th said: "Prof. Edmonds, the great Australian Wizard, held forth to a large and delighted audience last evening at the Opera House. The performance was highly spoken of and the presents numerous and costly. The professor performs his tricks in a marvellously easy and graceful manner and his ventriloquism brought forth much applause. Among the many handsome presents given away last night were a lady's gold watch, chain, tea set, silver ice pitcher, barrel of flour and a hundred other presents of a less costly nature. We predict for the professor a full house to-night when a change of programme is announced."

In its next issue the same paper said: "Prof. Edmonds was again greeted with a large audience last evening and he delighted them with his wonderful power. The show is a good one and the presents the best that has ever been given away in Moncton. There will be a change of programme to-night, which is the last opportunity of witnessing the talented artist."

Now the C. P. R. The Canadian Pacific Railway formally assumed control of the New Brunswick Railway on Monday last. There is still some difficulty in connection with the Fredericton Branch Railway, some of the enterprising gentlemen connected therewith not being yet satisfactorily arranged with it. It is probable, however, that this road will also soon be included in what is now known as "the New Brunswick division of the Canadian Pacific Railway."

The following notices on the subject have been issued:— "The New Brunswick R. R. Co., Montreal, 23rd Aug., 1890. The New Brunswick Railway having been leased to the Canadian Pacific Railway company, its control and management is hereby surrendered to that company."

The Fredericton branch is not included in the lease, but will, until further notice, be worked for the account of the New Brunswick Railway company under the charge of Mr. H. P. Timmerman, general superintendent. By authority of the Board of Directors, ROBERT MEYER, president. THE CANADIAN P. R. COMPANY, Montreal, 23rd Aug., 1890.

The New Brunswick Railway having been leased by this company, it will, from the end of the present month, be worked as the New Brunswick division of the Canadian Pacific Railway under the superintendence of Mr. H. P. Timmerman, General Superintendent. W. C. VAN HORN, President.

The Oat Crop. Mr. Lagrin, Secretary for Agriculture, has issued a report on the oat crop of the province, as follows:— "From eighty-five reports I gather the following information relative to the oat crop. There has been a marked improvement in the condition of the crop during August, with a prospect of still further improvement, but the condition over the whole Province is not so good. As summer 100 to represent prime condition, the reports give the following percentages of condition for the several Counties during the week ending August 23: Albert, 67.2; Carleton, 82.2; Restigouche, 75; Charlotte, 71; St. John, 77.5; Gloucester, 72; Victoria, 90; Kings, 93.3; Madawaska, 80; Northumberland, 62.5. A calculation based upon these percentages and the respective Old production of the several Counties makes the percentage of condition for the Province as a whole, 76.2. The report on the acreage in crop published in July showed a substantial reduction in the breadth sown to oats. In this connection it may be interesting to stock raisers and others, to know that the condition of the Corn and Oat crops in the United States is exceptionally low. This would appear to indicate a large reduction in the Corn available for export from that country, and to make it probable that feed of all kinds will command a good price this winter. The oat crop is also light in Ontario."

LITTLE'S LIVING AGE.—The numbers of *The Living Age* for August 23rd and 30th contain The Origin of Alphabets, Edinburgh; Western China: its Products and Trade; Quarterly: The Shetland Isles in the Birds'-nesting Season, Contemporary; A Voice from a Harem, Nineteenth Century; The Cession of Heligoland, Scottish; Comedy in Fiction, "In Sickness and in Health," and The Bamboo, Blackwood; Christmas-tide at Taugier, and Watteau: his Life and Work, Temple Bar; Chapters from some Unwritten Memoirs, Macmillan; Rural Reminiscences, and The Sea and Sand, Cornhill; A Mamma for Interior Souls, and The "Smart" Way of Shaking Hands, Spectator; Tarantulas, Saturday Review; The Oxford Summer Meeting, Speaker; Hyacinth Culture in Holland, Chambers; with instalments of "Marina," and "An Attractive Young Person," and poetry. For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price (\$8) is low; for \$10.50 the publishers offer to send any one of the American \$4.00 monthlies or weeklies with *The Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

Trade Between St. John and Green Island. There is much less communication with the west coast of Greenland than took place under the Dutch more than two centuries ago. Large fishing fleets of small vessels then regularly visited every part of Davis Strait. Henceforth a single vessel is to sail from St. John, N. B., to

Togtut, Greenland, in quest of a mineral known as cryolite, which is used in the manufacture of paint. The Argenta—such is the name of the vessel—expects to make two trips a year. By this means the world will in some slight measure renew its acquaintance with the west coast of Greenland. The possibilities of trade in that direction are apparently not numerous, but the trips of this vessel may make an opening to what there is. Inquiry will be awakened, and this enterprise, which is undertaken by a Philadelphia company, may lead to something, though what it will be it would be idle to conjecture.—(Monetary Times.)

A Pretty Wedding. The largest gathering that has ever attended a service in St. Mary's Church, Chatham, assembled there on Tuesday evening at seven o'clock to witness the celebration of the marriage of Mr. Frederic E. Neale, of Liverpool, England, and Miss Mignowicz, third daughter of the late G. A. Blair, Esq., Stipendiary Magistrate of Chatham. The church was handsomely decorated with flowers and a magnificent floral ball—the work of Mrs. J. J. Pierce—was suspended from the arch, above the chancel steps. The youthful and handsome bride, who, it is unnecessary to say, never looked better, was attended by Misses Bessie Sadler, Madge Sutherland and of (Sydney, C. B.) Bertie Pierce and Helen Blair, while the groomsmen were Mr. Ernest Blair, who was assisted by Master Roy Muirhead. The seats nearest the chancel were reserved for the wedding-guests, and the efficiency of the ushers, Messrs. C. A. C. Bruce, W. C. Stikeman, Richard Hutchinson and Percy Tucker, together with the manifest desire of all present to contribute to the happy auspices of the occasion, resulted in the maintenance of the best possible order and decorum, notwithstanding the manifest eagerness of the general congregation to witness the interesting ceremony. Master Freddie Blair, brother of the bride and organist of St. George's, St. John West, presided at the organ and as the bridal party proceeded by Canon Forsyth and the surpliced choir went up the middle aisle, the Wedding Hymn, "The Voice that breathed o'er Eden" was sung as was also the Deus Miseratur in its proper place in the service. The bride was given away by her brother, Mr. Gordon M. Blair, of the Bank of Montreal, Calgary, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

It is creditable to the large and mixed congregation present that there was not even an attempt on the part of anyone to leave the church at the close of the ceremony, until after the bridal party, clergy, choirists and wedding guests had preceded them, an observance of the proprieties which is more emphasised in the breach than the observance even in pretentious city churches. The bridal party and wedding guests proceeded to the residence of the bride's mother immediately after the ceremony, where a collation was partaken of and speeches were made to the toasts which are usual upon such occasions. Canon Forsyth proposed the health of the bride and groom, referring to the christian virtues of both, and the long and excellent services of the bride in church work, as well as those of Mr. Neale in the choir, during his short former residence in Chatham.

Mr. Neale's acknowledgements were made in a few well chosen words, which elicited the hearty applause of the whole company. He proposed the bridesmaids' health and Mr. Ernest Blair responded, as did Mr. Gordon Blair to the toast of the mother of the bride, which was proposed by Judge Wilkinson. The presents of the bride were unusually large in number and rich in value. A large number of the guests accompanied the young couple to the railway station, where they took the 9.25 train for the upper provinces, most of the party going with them as far as the junction, with the usual accompaniments of rice-showers and the traditional oil slipper in abundance.

After spending a few weeks visiting points of interest in the upper provinces and northern states, Mr. and Mrs. Neale will reside in Pensacola, Florida, where Mr. Neale is engaged in connection with the timber business.

A Poor Showing. The London *Times* *Trades Journal* is very outspoken in its references to the showing made for the past year by the well known firm of Bryant, Powis and Bryant of London and Liverpool. It says:—"The balance-sheet of this company for the year ending March 31st, 1890, which has been published this week, is one of the most painfully unsatisfactory statements of the kind which have ever come under our notice, and although the long delay in issuing it had to some extent prepared the trade for an unfavourable report, we feel sure that hardly any one could have anticipated such a tale of disaster and mismanagement."

The Canadian loss is divided into two items, £15,363 being the amount of bad debts made in connection with Davies & Murphy, and £13,000 the estimated deficiency on securities in Canada; but how this latter arises, whether in connection with advances to Smith, Wade & Co., or anybody else, not a single word of explanation is afforded. The third and last item of loss is on the depreciation of stock, which is estimated at £7,000, or about 60 per cent. on the entire stock. We are, of course, in the absence of any statement as to how the stock is taken—whether at cost or market price—unable to criticise this estimate of depreciation, and we can only observe that in this respect the company appears to be better off than many of its neighbors. The loss which is the result of the year's business, may therefore be summarised as follows:— Loss on ordinary trading, £6,886 Bad debts—Davies & Murphy, £15,363 Estimated deficiency in securities, £13,000 Depreciation in stock, £7,000 £42,249

In the preparation of these accounts the directors had therefore to face the unpleasant task of providing for a loss on the year of £42,249, without, if possible, infringing on the capital. To do this they had to invoke the assistance of their generous and wealthy chairman, who, with the consent of the executors of his late brother, unflinchingly reduced the liabilities of the company by cancelling shares and loans to the extent of £25,000, thereby immensely adding to his already great reputation as a philanthropist, if not as a financier. This sum absorption at one fell swoop of the reserve fund of £12,500, and a small balance from last year's account, reduced the loss to £25,488, which, with characteristic vagueness is carried forward to "next account." What the "next account" will be, or how, or by whom it is prepared it would be hard to tell, but we may, perhaps, be pardoned for expressing a hope that, for the credit of the timber trade, it will fall to the lot of these capable of carrying on the trading without placing the company in the same category as many very excellent institutions.

tions, who claim to be either wholly or in part "supported by voluntary contributions."

A Bean of 1829. When grandpa went a-woeing, He wore a satin vest, A trail of running roses Embroidered on the breast. The pattern of his trousers, His linen, white and fine, Were all the latest fashions. In eighteen twenty-nine.

Grandpa was a fine-looking young fellow then, so the old ladies say, and he is a fine-looking old gentleman now. For the past score of years he has been a firm believer in the merits of Dr. Pierce's Golden Medical Discovery. "It renewed my youth," he frequently says. It is the only blood-purifier and liver invigorator guaranteed to benefit or cure, or money promptly refunded. It cures liver disease, dyspepsia, scrofulous sores, skin eruptions, and all diseases of the blood. For lingering coughs and consumption (which is lung-scurf in its early stages) it is an unparalleled remedy.

What Was Found in No. 1 Apple Barrels.

The Middleton correspondent of the Bridgetown Monitor says:—"In conversation with a gentleman who bought largely of Annapolis Valley apples last season, we were told of some curiosities found in some of the barrels marked No. 1. Among other things he mentioned one piece of trace, six feet long, one clevis without bolt (he wants bolt put in next time), one piece of old buffalo robe, two sheep skins, one old curly comb, one old horse brush, with divers and sundry other articles, too numerous to mention. He has all these hung up on the wall of his warehouse, and talks as proudly of them as an Indian of his scalps. Men who would put such trash into barrels and sell them for apples should be lynched."

The Good Word Will Go On.

Public sentiment here and throughout the State shows an overwhelming sentiment in favor of the ratification of the new charter of the Louisiana State Lottery Company, which will be submitted to the people of the State at an election in 1891. The present charter does not expire until 1895. However, long before that time the State of Louisiana will have made provisions to extend its contract with the Lottery Company until the year 1919. Of course there is no excitement about this matter, because it is regarded as a forgone conclusion. The Louisiana State Lottery Company has very generously made preparations to increase its contributions to the charities and public works in the State and these will go into full effect in 1895, when the present charter expires to give way to a second charter expiring in the year 1919.—(New Orleans (La.) City Item, August 6.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing sleep. Castoria is the children's panacea—the mother's friend, 35 cents, 65 cents.

MARRIED.

On the 2nd inst., at St. Mary's Chapel, Chatham, N. B., by the Rev. Canon Forsyth, Mr. Frederic Neale, of Liverpool, England to Sarah Mignowicz, third daughter of the late George A. Blair.

DIED.

At Black Mt. Sep. 3rd, after a short illness, which he bore with patience and resignation to the divine will, Peter McConnel, aged 80 years. He leaves a large family to mourn their loss.

At Black Mt. August 19th, Ella Noble, infant daughter of Richard and Margaret J. Goffart, aged 9 months and 11 days.

The little crib is empty now. The little clothes laid by. A mother's hope, a father's joy. In death's cold arms doth lie. Go little pilgrim to thy home. On yonder blessed shore. We miss thee here, but soon will come. Where thou hast gone before.

Port of Chatham.
