

Miramichi and the North Shore, etc.

BONE FERTILISER—See advt. THE METHODIST CONFERENCE opens at Fredericton June 18th.

LOBSTERS—About 21,000 live lobsters were the other day shipped from Digby to Boston.

SMOKE THE ORETELLO, the best ten cent cigar in the market. For sale wholesale and retail at Z. Tingley's, Chatham.

JOHN M. WATSON, of Richibucto, graduated from the Bangor Theological Seminary on Wednesday.

FIRE AT CAMPBELLTON—The barn, wagon house, lichen and store house of Dr. Venor of Campbellton were destroyed by fire last Friday. Loss \$2000; no insurance.

100,000,000 S. F.—There were over one hundred millions of dollars in the Fredericton boom last Friday. There never was such a large quantity there before as one time.

Take good care of your beard and keep it clear of gray hairs so as to retain your young looks by using Buckingham's Dye for the Whiskers.

GOSE TO N. S.—A couple of hundred navies, chiefly from Memramook and Bathurst, have within the past few days gone to work on the ballast trains on the Oxford and New Glasgow road.

SOME SOUNDBREED, a large stone through one of the windows into Masonic Hall on Tuesday evening during the performance. A reward of \$10 is offered for his detection.

RESTIGOUCHE SALMON have made their appearance in the Moncton market. It is said the salmon fishery in the north is in a very prosperous condition this year.—Transcript.

CAMPBELLTON, June 7.—Hon. D. Mc. Lellan and Surveyor-General Tweedie paid Restigouche a visit this week and were well received. "The Deacon" has many friends on the North Shore.—Transcript.

RETURNED.—Dr. McLean of Fredericton and Mr. Wm. Richards returned from New York last Thursday. Mr. Richards who has suffered a great deal with an injured hand, underwent an operation and is said to be greatly encouraged.

LIEUT-GOVERNOR CARVELL of P. E. I. is at Asheville, South Carolina, on the Great Rock Island R. R. route. His Honor has been very much benefited by the change, and is said to be enjoying very good health.

SALMONS—Three hundred and thirty-nine boxes of salmon, averaging 16 fish per box, have been shipped within the past fortnight from Chatham station. There was, therefore, a total of 5,424 salmon in fall boxes, besides small lots.

SHIPPED BY W. M. MACKAY.—The bk. St. Andrew, reported in our Newcastle shipping column of 5th inst., as having been loaded by Messrs. D. & J. Ritchie, was loaded at the Hickson mill, the cargo being shipped by W. Malcolm Mackay of St. John.

ORDINATION.—At an ordination service in the Grand Seminary, Montreal last week, by His Grace Archbishop Fabre, the following were ordained: Messrs. Orlow, M. F. Foley, Chatham. Sub-deacon.—M. A. O'Keefe, W. E. Sorbajay, Chatham.

PISO'S cure for Consumption and PISO'S remedy for Catarrh are sold by J. D. B. MacKenzie, Druggist, Chatham.

CAPTAINED.—The schooner Silver Bell, Capt. McLean, while beating up-river on Monday morning, in ballast, was struck by a small and capsize off Napan buoy. Capt. McLean came to town and secured assistance in righting the vessel, which had drifted to an adjacent mussel bank and grounded.

CHARLES R. KROSBY, the pioneer manufacturer of Moncton, died last Thursday morning, aged 73. He had been engaged in several industries and was interested in the sugar refinery and cotton factory, but was chiefly known as the founder of the Record foundry, which he handed over to his son and a partner ten years ago, after having managed it himself for twenty-two years. He was an American citizen, having never changed his allegiance since leaving the United States many years ago.

A LIGHT SENTENCE.—The chief justice gave judgment last Thursday at St. John in the case of the man Watt, who killed "Torrie" and was convicted of manslaughter. The prisoner received the light sentence of one month imprisonment. As he instantly killed Torrie by stabbing him at the door of the latter's house, there was a good deal of comment about the leniency of the sentence. Morgan, found guilty of indecent assault on a young woman, was sentenced to a year's imprisonment and ten strokes of the cat. The sailor Damen, who stabbed a fellow-sailor but did not kill him, was given six months in jail.

THE BODY OF THE YOUNG MAN, HOGAN, who was drowned at Drake Falls, 6th May, was found on Thursday last—nearly a month after—about a mile and a half below the falls. It was nearly covered by sand and when taken out the face looked fresh and quite natural. There was not a bruise or scratch on the body. Almost immediately after exposure to the air the remains changed their appearance and interment was a relief to all. This drowning is a particularly sad one, inasmuch as the deceased was the only surviving son of his bereaved parents, two other sons having died some twelve years ago of diphtheria. The whole community, therefore sympathises deeply with Mr. and Mrs. Hogan.

RURAL DEANERY MEETING.—The clergy of the Rural Deanery of Chatham will meet (D. V.) in Chatham on Monday next, the 16th inst., and two following days. There will be evening prayer with address in St. Paul's Church on Monday at 7.30 o'clock. On Tuesday there will be a celebration of the Holy Eucharist in St. Mary's Church at 7.30 a.m. Morning Prayer will be at 9 a.m., and Evening Prayer at 9 o'clock, and the Deanery service will be on the evening of the same day at 8 o'clock.

KENT COUNTY ELECTION PETITION: It will be remembered that some time ago Mr. Phinney, the respondent in Mr. McInerney's petition for unseating him, applied to Mr. Justice Wetmore for an

order to remove the petition from the file to the court on the ground that certain formalities had not been complied with. The case was argued by Mr. Powell for Mr. Phinney, and by Solicitor General Pugsley for McInerney. The judge has decided in favor of Mr. McInerney, refusing an application with costs. As a result of this decision the case may now be proceeded with to trial.

FIRE.—Mr. John Crosby's dwelling, Water Street, took fire on the roof on Monday and the whole upper portion of the structure was destroyed. The wind was blowing very hard at the time and had the fire spread to adjacent buildings great damage to surrounding property would have resulted, but the well-directed efforts of the firemen overcame the danger and confined the fire to the building in which it originated. Mr. Crosby was insured for \$400, which will hardly cover his loss, as the portion of his dwelling which was not burned was badly injured by water and his household furniture and effects suffered much unavoidable damage.

About the same time fire was discovered on the roof of Mr. Wm. Wilson's dwelling, Wellington road, but it was quickly extinguished having done very little damage.

NEW STEAMER.—The Vancouver News-Advertiser of 21st ult. has the following item in reference to Mr. C. W. Murray's new steamer, for which the machinery was built at the Miramichi Foundry, Chatham:—

A NEW STEAMER.—On Wednesday evening a handsome new steamer, built by Mr. Conlon for Mr. C. W. Murray, of the Royal City Planning Mills, was launched in the presence of the owners, the builder and a number of friends. The boat, which rides beautifully on the water, was christened the "Edon." She is 75 tons burden, is 80 feet over all, with 15 feet beam. The machinery is of the newest and most approved kind, the engines having been brought from the east. She is 75 tons burden, is 80 feet over all, with 15 feet beam. The machinery is of the newest and most approved kind, the engines having been brought from the east. She will do a general trading business along the coast, and will make her first trip in about ten days.

THE REASONS.—The following is from the Transcript:—The reasons by ministerial supporters for making Richibucto an outpost may be summed up as follows:—

1. The present Collector is not competent to discharge the duties of Collector of a chief port, but of the truth of this we know no more.

2. The over paid officials at Ottawa are desirous of having as few chief ports of entry as possible, thus reducing their laborious duties to make a show to the smallest minimum.

The contributor to whom we are indebted for these facts says that although a Conservative he will not cast a vote in the coming contest for any Conservative who approves of the government's course in that respect.

We are always suspicious of the party fealty of Conservatives who write liberal papers ventilating their political grievances, and of liberals who run to Tory papers for like purposes. They may, in both cases, be put down as muggwumps and soreheads.

OBITUARY.—In another column will be found the announcement of the death of Mr. Wm. F. MacLachlan, a native of Chatham, who, after serving an apprenticeship in the well-known mercantile firm of Johnson & Mackie, removed to St. Pierre and entered one of the large business houses on that Island. Being a man of more than average abilities, he was careful attention to business and the interests of his employers, soon became a member of the firm. In the course of years he lost his health and to seek medical advice he was forced to sever his connection with the firm and leave the Island. He and his family removed to Cambridge, Mass., and although he secured the best medical attendance, it was in vain, as death claimed him as a victim on the 28th ult. He leaves behind him a widow, one son and three daughters to mourn their irreparable loss.

MATRIMONIAL.—At St. Stephen's church, at 7 o'clock Wednesday evening of last week, Mr. George K. McLeod and Miss Elyth M. Barpee, daughter of the late Hon. Isaac Barpee, were united in marriage. The affair was a very brilliant one, and the church was crowded with invited guests and interested spectators. Only a limited number were admitted to the edifice, but there was hardly any limit to the great crowd which gathered outside, and waited patiently to get a sight of the bride and groom. Precisely at 7 o'clock the great folding doors at the head of the centre aisle were thrown open and the bride, radiant in the aisle, while Prof. Tapley played a march. The ceremony was performed by Rev. George Bruce, assisted by Rev. Dr. Macrae. From the church the party and guests drove to the residence of the bride's mother, where a wedding repast was served. As they were leaving the church Mr. McLeod's brother officers in the artillery boomed out a salute of fourteen guns from the Fort Howe battery. The Artillery band was present at the house and played an excellent programme for the dancers. The young couple left in the night express for Boston and New York. A large crowd gathered at the depot to see them off, and rice and torpedoes were plentiful. The bride was dressed in an elegant costume of white satin, and accompanied by a bouquet of roses and stephanotis. Her bridesmaids were Miss Louise Barpee, Miss Nan Barpee, Miss G. Drury, Miss E. Drury and Miss Belle Nicholson. The groom was supported by Mr. W. K. McLeod. The ushers were Dr. Eason and Messrs. Charles Harrison, R. R. Ritchie and A. W. Adams.—Globe.

RACEY-CHANDLER. At the mission church of St. John Baptist, St. John, on the afternoon of the same day, Rev. Dr. Davenport officiating, W. R. Racey, manager of the Woodstock branch of the Merchants Bank of Halifax, was married to Miss Phoebe Chandler, daughter of Dr. H. A. Chandler of Dorchester. The services were choral. Mr. Racey presiding directly from the church to the L. C. R. depot, leaving on their bridal tour.

The right of fishing on the Bartibog river was leased by the government at Fredericton on Thursday last week, to R. R. Call, Esq., of Newcastle, for seven years, at thirty dollars a year. The necessity for protecting that fine trout stream from illegal fishing with nets has been realised for a number of years by everybody having a knowledge of it—save, of course, the poachers, themselves—and anglers of the town, as well as the people of the locality, who are glad to know that the government is so much concerned that the game should be secured in fulfillment of the conditions of the lease. We have no doubt that Mr. Call will do his part in protecting the river, and we hope he will have the cooperation of all decent people in his undertaking. The risks incurred

by netters and the knowledge that the stock of fish, ought to outweigh the doubtful profits of illegal fishing, and it is therefore to be hoped, that the leasing of the Bartibog will prove effective in, at least, confining fishing there to legal methods.

Notes From Hardwick. Having looked in vain for the usual season's notes from the district in the columns of the ADVANCE, and seeing some familiar sounding ones in the columns of another local paper, I made some enquiries and learned that the oracle had transferred his allegiance, and in order to keep the ADVANCE informed of what is going on in this part of the country, I beg to take up the mantle that has fallen, etc., etc.

A traveller through the lower portion of Bay du Vin cannot help admiring the fine new residences that have been put up in the last few years. I made enquiries and was informed that the people in this place were enjoying great prosperity. The small fishing in the past having added them to acquire the funds supplementing their ordinary earnings in their usual vocations. I was particularly struck with the enterprise shown by Mr. Malcolm Taylor, who has quite an establishment near the steamboat landing. Having been shown over Mr. Taylor's large new house by the general owner, I was impressed with the fine finish of everything, and was informed that the designs and the work were the products of our mutual friend, Luther Williston, the painting being done by Mr. Macgregor of Bay du Vin, who cannot be excused in his line. If any of your worthy readers contemplate building, they would do well to consult Luther before commencing. I may say that our friend "Mack" will be happy to see any of his friends, and will do his utmost to make their stay pleasant. He deserves success.

The Rev. Mr. Polley, Presbyterian, is stationed in the lower end of the parish. He preaches each Sabbath at the Village, and Ecumaine, and I hear, intends to preach occasionally at the lighthouse at the Point.

Rev. W. J. Wilkinson, Episcopalian, is also very busily engaged in the Master's service. His field is Bay du Vin, the Village, and occasionally at Ecumaine.

There will be a grand Isazar and entertainment at Ecumaine on the 19th inst., the receipts of which are for the benefit of the school. It is hoped that there will be a good crowd, as Miss Laidis the teacher and her assistants will have every thing first class. There will also be a competition for a very fine sofa cushion, the work of the fair lady's hands. The party holding the lucky number will surely be made up.

Salmon fishermen on the bays and islands are hard at work, but report fish scarce and owing to the windy weather, their gear is getting hard usage.

The lobster fishery at Ecumaine Point, I hear, is not a success, so far this season, the wind operating against a steady fishing, and if one takes into consideration the visits of the Inspector the fishermen have a hard show.

W. S. Loggie, Esq., the proprietor of several of the lobster canning establishments, has been around on a tour of inspection; also on his own account every one is glad to see him around. Long may he prosper.

Mr. Fish, Crown Land Surveyor, was in Ecumaine Wednesday, leasing a block of land for Mr. Stephen White, thereby making everything right in the matter of his land, and his visit in this connection shows the Surveyor General has not forgotten us and that it is his intention to rectify all mistakes in relation to his office.

Mr. Michael Bradshaw has, so I am informed, laid out a sum of money sufficient to efficiently repair the Plain road, another small remainder of "the right man in the right place."

Mr. Harry Phillips is hunting up subscribers for Stanley's forthcoming work, for which he informs me he is sole agent for this county. He says he thinks it will be very popular, but finds that there are great numbers of looks on the go purporting to be Stanley's which are only "a get up" to sell on the great popularity of the famous author and traveller.

I hear that there was a lodge of the Independent Order of Good Templars formed at the Village Wednesday 4th inst., and that the Lodge that was formed in Ecumaine some time ago is in a flourishing state.

Farming is very backward throughout the parish.

Alex. Wilson of Hardwick smoked about 100 lbs. of herring this spring, and will be able to supply quite a market with them.

Our friend Harry S. has gone down to the Point to help Mr. Carter, the light keeper, to repair the Government property there.

There is no place like home, so says our friend Miss K. Williston, who has been for some time in Uncle Sam's dominions, and is now on a visit to her mother and relations. She leaves again to resume her important duties in New York shortly.

PREZEE. The performances of "The Castaway" Company, who have been playing at Masonic Hall, Chatham, since last Friday evening, have given great satisfaction to the large and nightly-increasing audiences who have attended. Mr. Lindley is an excellent comedian, whose drooleries have a genuine, old-fashioned, legitimate flavor not often met with in travelling companies. Mr. J. M. Chapman is a first-class leading man, who would do credit to the best metropolitan companies. Miss Adelaide Flint is a pleasing and capable actress who always has the sympathy of her audiences. Sol Walters is at home in almost any part, excelling in character pieces, dramas, vaudeville, Mr. Blair, Mr. Marsh, Dora Page, Miss Mathes and others of the company always render their parts well and contribute to the smoothness with which all the plays are performed. A great card with this company is the child actress, Mabel Paige, who is as much at home on the stage and as perfect in all her parts as any of them. She is one of the most accomplished and promising of juvenile actresses and is equal to the best as "Little Lord Fauntleroy."

The Military Camp. Lieut. Col. Maunsell, D. A. G., has recommended that the Brigade Camp at Moncton commence on the 30th inst. There will be about 700 men under canvas. The Strat and Legere farm

present including Lieut. Governor Attorney-General Blair, Mayor Allen, chief Supt. Crockett, Prof. Burwash, the professors of the university and many citizens. A pleasing feature of the morning's programme was the presentation of the Governor-General's medals to the winners by his honor the Lieut.-Governor. The successful competitor of the senior class was Miss Annie Moore of Fredericton, Minnie C. Edgar of Chatham carrying off the junior honors. His Honor made a pleasing address to the student teachers in presenting the medals. Attorney-General Blair was next introduced and made a very happy speech, which was received with great applause. Principal Mullin and Chief Superintendent Crockett delivered good practical addresses, and the interesting proceedings terminated with the singing of God Save the Queen.

Doaktown Methods. Mr. Editor: It is quite time that the bad people of Doaktown were reformed. We had a big fire here the other day. It burned Messrs. Robert Swin & Son's store and contents, and Mr. Swin declared it was of incendiary origin, but although he ought to have known who the incendiary was, he appears to have forgotten that this is not the Doaktown of fifteen years ago, and he sent a printed notice in broad cast over the country, which contained the following lines as evidence of his charity towards his neighbor:—"Those who live in glass houses should be careful how they throw stones!" "Jealousy and invidiousness has destroyed my store and stock, but will be the means of placing before the public a new and improved stock!" "Don't forget that I am prepared to sell all Farming Implements, including Seed Sowers, Plows, Harrows, Mowing Machines, Horse-rakes, also Single Wagons and Harness, Dairy Churns, and in fact all such goods as are handled by Harvie Doak's firm, 15 to 40 per cent, less than he has been selling them, and if he gets down to my prices he deserves no credit; for I have offered him to do it. Note some of the differences in prices: "I will sell a Sack Sower; for \$82 that he has sold for \$75 for. "I will sell a Sack Sower for \$80 that he has sold for \$90. "But he crawls out of that hole by saying that it is not the same kind of a Sack Sower, but now, the claims are the same as he offers, I will forfeit the whole price of the churn. Let him make the assertion over his own signature if he dare."

"I will sell a spring toad Harrow for \$170 that he has sold for \$120. "I will sell a Sack Sower for \$82 that he has been asking \$17 for and in a nutshell I will sell goods cheaper than he can buy them, so when you want to buy, first get his prices and then come to me and I will show you have lost by patronizing Doak."

Mr. Swin's advertisement made still further reference to Mr. Doak, stating that his carding mill was an old one, that he had compelled Doak to lower his prices, etc.

It was quite evident that Mr. Swin wished to make people believe that Mr. Doak had something to do with the burning of his well-earned premises, and that if there was a man in the place whose everyday life and character ought to shield him from such a malicious imputation, that man was Harvie Doak. Insinuations thrown out by both Robert Swin and his son, Henry, placed Mr. Doak and other respectable residents of the place on the defensive, and the imputations and identification of the criminal parties became a duty to the community. The insurance people were encouraged to visit Doaktown and do a little detective business. All who bore good characters in Doaktown wanted the mystery cleared up and the fire-bug identified. The work of detection was short and sharp and it was demonstrated that it wasn't Harvie Doak who was set on fire, "jalosny" and guilty of the crime of "incendiarism." The "stone" returned and struck a very thin "glass house" that had lay in it and covered some of the goods already in it being destroyed in the fire. The glass house wasn't Doak's. The man who owned the "glass house" and who has a great "stone thrower" for a good while has settled the whole business. He didn't claim a cent of the insurance and he has generously settled the insurance men's bill of costs for investigating the fire. The insurance people have failed to do their duty by the community, for they have, by their compromise, practically accepted the relinquishment of a \$120,000 claim as the price of a fire-bug's liberty. It isn't fair to honest traders and honest insurers.

Parish of Blissfield, June 7th 1890. A Wedding at Rogersville. ROGERSVILLE, June 6.—A very quiet wedding took place on 4th inst., the contracting parties being Mr. David Buckley, of this place, and Miss Mary E. Welwood, of Welford. They were married at the church at 10 o'clock, the Rev. Father Richard officiating. The bride, a very pretty young lady, looking charming, dressed in cream colored muslin, trimmed, orange blossoms. She was attended by her sister dressed in old rose colored muslin, trimming, point lace. The groom was attended by his brother Mr. William Buckley. After the marriage a number of invited guests sat down to an elegant repast gotten up for the occasion. The presents were very handsome and numerous. We wish the young couple all the happiness and pleasure this world affords on their journey through life.

Harry Lindley's Company. The performances of "The Castaway" Company, who have been playing at Masonic Hall, Chatham, since last Friday evening, have given great satisfaction to the large and nightly-increasing audiences who have attended. Mr. Lindley is an excellent comedian, whose drooleries have a genuine, old-fashioned, legitimate flavor not often met with in travelling companies. Mr. J. M. Chapman is a first-class leading man, who would do credit to the best metropolitan companies. Miss Adelaide Flint is a pleasing and capable actress who always has the sympathy of her audiences. Sol Walters is at home in almost any part, excelling in character pieces, dramas, vaudeville, Mr. Blair, Mr. Marsh, Dora Page, Miss Mathes and others of the company always render their parts well and contribute to the smoothness with which all the plays are performed. A great card with this company is the child actress, Mabel Paige, who is as much at home on the stage and as perfect in all her parts as any of them. She is one of the most accomplished and promising of juvenile actresses and is equal to the best as "Little Lord Fauntleroy."

The Normal School. MISS EDGAR OF CHATHAM CARRIES OFF HONORS. FREDERICTON, June 6.—The public closing exercises in connection with the provincial Normal School took place today. There was a large number of visitors.

Children Cry for Pitcher's Castoria.

St. George's was hailed by a boat from a French man-of-war and ordered to take in her nets. The captain of the Rover refused, and the man-of-war deliberately pulled the fishing gear from the water. Rev. Father Howley interviewed the commander of the French vessel and got him to refrain from further action until the arrival of the St. John's delegates who are now on the other side trying to effect a settlement of the question. A number of fishermen had been arrested on Friday night, at which resolutions were passed to the effect that if the French came inside the shore limits and flooded their nets they would be fired on.

HALIFAX, N. S., June 8.—Steamer Harlow left here on Tuesday for New- foundland. She had a large lot of cargo for Bay St. George, where trouble between the Newfoundlanders and French is in progress. Saturday the agents of the steamer received a dispatch stating that the authorities at Bay St. George refused to allow the steamer to land her cargo. The inhabitants have unanimously agreed to be allowed to destroy their fishing property, and if they are not allowed to pursue their usual avocations they will not contribute to the revenues of the St. John's Government. There are no reasons to believe any new and serious differences have arisen between the French and English authorities."

A London despatch of 9th says:—"The alarming rumors from Newfoundland obtained no credence with the government. There are no reasons to believe any new and serious differences have arisen between the French and English authorities."

The Honor and integrity of the management of the Louisiana State Lottery Company are now fully established all over the country. All who know anything about it, know that the drawings of the Company are held with the utmost fairness and all prizes paid fully and promptly. Thousands are ready of their own knowledge to testify to this. The company's present charter has about five years to run.

Port of Chatham. ARRIVED. From Sea. June 5.—H. J. Sproule, 202, Thomassen, Cornuda, bal. J. B. Snowball. 6.—R. W. 406, Andreano, Monte Video, bal. H. A. Muller. 7.—M.
