PERSONAL :- Mr. W. F. Ganong, of Harvard, and Mr. S. W. Kain, of the P. O. department, St. John, have been enjoying a camping trip on the Miramichi. The many friends of Rev. Father Mc-Donald of Campbellton were glad to see him in town this week.

THE BIGGEST CARGO:-The largest cargo of coal ever loaded at any Cape Breton port was that taken August 23rd by the steamship Serica from the Sydney & Louisburg Co.'s pier, consisting of 4.094 tons. The Serica is 1,736 tons

ST. STEPHEN IN LUCK .- Mr. F. B Coleman, proprietor of the Barker House, Fredericton, will assume control of the new hotel at St. Stephen on the 1st of October. Mr. Coleman will manage both houses, and with his thorough knowledge of the business both are bound to succeed.

DROWNED:-A five year old son of James Graham of Richibucte, fell from H. O'Leary's long wharf on Monday of last week and was drowned before help arrived. The body was recovered by Willie Jardine, who dived to the bottom of the channel for it. Much sympathy is felt for the bereaved father.

A NICE PLAYMATE. -Mr. James Arm strong, Lower Cove, got quite a surprise last night, when his son made his appearance with a bear about three months old. He wanted to take the bear into the house, but this his father strongly objected to and to-day it was placed in the cooper shop on Water street. The bear is en route to New York, and is being sent to some friends by Mr. Robert H. Arm strong, of Newcastle.-Globe.

BURNED TO DEATH:-We regret to learn from Mr. Layton of this town, that a younger brother of his, Albert Edward Layton, aged 28 years, was burned to death on the night of the 25th August, at the burning of the Queen's Hotel, Sunbridge, Ont., at which place he had been residing for some time past. The remains of the unfortunate young man were brought to Ottawa, and interred in Beach wood Cemetery beside his parents who slumber there. - Advocate.

ST. LUKE'S PICNIC at Doaktown on Wednesday, of last week was enjoyed by nearly fifteen hundred persons, a goodly proportion of whom attended from Doaktown, Boiestown, Blackville and other stations along the Canada Eastern Railway. The management was good and the all-round results very satisfactory. The injury accidentally received by Dr. Sproul of Chatham just as the train was leaving for home marred the occasion somewhat, as he is well known and highly esteemed throughout the commu-

LABRADOR:-Latest advices regarding the catch of codfish on the Newfoundland and Labrador coast are very encouraging, it being reported as the heaviest for a number of years, one firm alone having secured about 7,000 quintals during the past month. From all along the above coast reports have been received in Newfoundland advising a large catch; but on the other hand the take in the Gulf has been very small and disappointing, as well as on the Newfoundland coast aud the Banks. Advices from Gaspe also confirm the reports of a complete failure of the fishery in the Gulf.

OBITUARY: - Deep sympathy is felt for Mr. and Mrs. P. Hennessy in the death of their eldest daughter Kate, after a short illness of heart disease. Everything that the affection of parents and sisters and friends could suggest was done to lighten her sufferings and at four o'clock on Monday morning she calmly passed away after bidding her parents and sisters an affectionate tarewell. Just as she reached womanhood she was called away to a brighter world, where pain and sorrow are unknown. Her remains will be interred in the burial ground of St. Mary's church this morning at 10 o'clock .- Ad-

P. E. I. CROPS:-Harvesting in Prince Edward Island is now in full swing. Early wheat all over the island is excellent-as good as have been known on the islands for years. Potatoes and turnips give promise of an enormous yield Barley is also a splendid crop. Oats will not be up to the average. The straw, on account of the hot, dry weather in July, is not heavy, and grain will not be as fully developed as it might be. Still, except in very rare cases, oats will be a fair crop, and will command a much higher price than in recent years, in a measure compensating for the shortage. This along with the splendid root and barley crop, will make it a more than ordinary prosperous year. There will almost surely be a good price for pork this fall, and there are also indications that there will be considerable demand for potatoes.

JENILE THIEVES: -On Sunday, 26th July, the W. C. T. U. coffee room, corner of Duke and Cunard Sts., Chatham. was entered and a quantity of pies, cakes floor. etc. stolen therefrom. FILLIES FOR CALIFORNIA:-W. M. Sinclair leaves his home at Bridgetown this morning for California, taking with him two standard bred fillies presented to him by his father, E. Sinclair, Esq., who, although in the lumber business, is such a keen lover of good horses that he always keeps the best bred animals for his own use and amusement. These colts have been admired by all horsemen in the county, and the oldest, when a little over two years, could show a 2.40 clip, with apparent ease. The most peculiar thing about the fillies is that both are natural bred pacers, a gait which is very unusual in New Brunswick. Mr. W. A. Brenrecognized authority, says they are un-

ACCIDENT TO DR. SPROUL :- Dr. G. J. Sproul, dentist, of Chatham, attempted to board the picnic train at Doaktown last Wednesday afternoon just as it was leaving for Chatham, and received injuries which will confine him to his room for several weeks. It appears that he had been giving excellent assistance to the management of the picnic in disposing of excursionists on the cars and was standing beside the track on the south side of the Doaktown bridge when the train made a start homeward. It was, prob-

ably, running faster than he thought, for as he caught one of the ends of a flat car, intending to jump on, he was swung inwards his foot coming in contact with the rail and his head with the side of the car. A wheel must have gone very nearly over the foot, as it was split up along the outside towards the instep and also injured near the ankle, his head, being also slightly cut and bruised. It was a very narrow escape. Dr. Weir was sent for as soon as possible and gave Dr. Sproul the benefit of his skilful services and the latter, as well as others present, say a good deal in praise of the manner in which the surgeon's work was performed. Dr. Sproul came to Chatham on the express train of Wednesday evening. He is, of course, laid up and suffers, more or less. from his injuries, but he will not lose any

Chatham has now, through the welldirected enterprise of Mr. Thomas Flanagan, a hotel which is, in every way, a credit to the town and the northern section of the province. Old patrons of the Adams House, which was originally Hon. W. M. Keily, would hardly recogstructure on Wellington Street, next to the Bank of Montreal, their favorite resort, which, although always a well kept hotel on the old lines, has now given place to one of the largest and best appointed uses in the province outside of the city of St. John, if, indeed, there is anything there better equipped. The original house stood sufficiently removed from the street line to admit of a new structure of larger dimensions being added to it in front, and still afford quite a respectable area apart from the street to form an approach and standing place for carriages and impart an aspect of roominess to the surroundings of the hotel and entrance.

The ground plan dimensions of the new portion of the house are 48x32 ft. It is two stories high with a mansard roof-the latter practically forming a third story. The heights of the respective stories are. main, 11 ft.; 2ad, 9 ft. 1 in.; 3rd, 9 ft. The hotel as it now stands, is 60 ft. deep by 48 front and 36 in rear, with a

two-storey ell 20x18 ft. The exterior is tastefully embellished by means of its cornice and window mouldings and verandah railings. The shingles of the almost perpendicular sides of the roof-storey are already covered with metallic roofing paint, and, in a few days, the walls and exterior trimmings will be done in colors, which will add materially, to the beauty of the structure. The main and office entrances, both of which front on Wellington Street, are approached by separate short flights of four steps each, landing on a verandah, which has two decks-one for the ground floor and the other for the floor next above it

The verandah is 8 ft. wide and 48 ft

long, running completely across the whole

The office, is located on the west side of the front and is 24 ft. x14 ft. 9 in. It is tastefully finished in mahogany door and window trimmings and ash wainscoting 31 ft. high. It is heated by a register grate and has a very neat semi-octagonal ash and walnut counter and register desk. Communicating with it-besides the door leading into the main hallway-is one leading into a rear hall, off which is the general lavatory and closets, an office with table and writing materials for the

use of guests, and a store-room. The main entrance doors are 5 ft. 6 in wide and lead into a vestibule 6 ft. x8 ft. 2 in. and this leads through double doors into the main hallway, which is 8 ft. 2 wide and 50 ft. long, the main stairway being at the rear end. A more spacious hallway is not to be seen in any of our provincial hotels. On the left is the main parlor, which i

double, being divided by portierres. is 30 ft. long and 14 ft. 4 in. wide. Next, hall is a spacious bedroom occupied by the proprietor and, to the rear of this, a fin clothes room. On the right, after passing the office and the rooms already mentioned as communicating with it, is the dining-room, which embraces the old dining-room and the cosy ladies' parlor which adjoined it, this room being now 28x13 ft. The remainder of the lower floor, which is in the ell portion of the building, consists of a dining-room pantry, kitchen, kitchen pantry, rear hall way and servants' stairway, together with laundry, etc.

The two upper floors are much alike in their general arrangements. The halls are of the same ample size as that on the ground floor. The rooms are all very inviting in appearance being large, well lighted, well ventilated and convenient. They are from 13x15 ft. downwards, although there are none of the small "hall bedroom" style of dormitories in the new Adams House. Altogether, there are twenty-eight guests rooms, in addition to those on the main

The house is newly carpeted throughout and almost all of the rooms-new and old-are newly furnished. The parlor and hallways are adorned with oil paintings in profusion on canvas, plaques, screens, draperies etc., there being no less than twelve canvasses of large dimensions elegantly framed in 6 in. gilt and representing landscapes which embrace a large variety of subjects. These, with the scores of smaller pieces are all the work of Mrs. Flanagan, wife of the proprietor and a pupil of Miss Kerr. They are creditable to both the artist and her preceptor. The whole house is fitted with the incandescent electric light, and the lavatory, bath room and some other departments are supplied with the hot and cold water. The heating is by furnace and there are sixteen hot and cold air registers, on the

lower floor with corresponding ones on the other floors. The system adopted in the Adams House utilises the furnance heat in forcing the cold air downwards out of the rooms and is considered an improvement upon the old way of taking all the cold air from outside. In an outside building there are three fine sample rooms for the convenience of

commercial travellers and there is an ex-

cellent stable also in connection with the The contractor of the new work was Mr. James Mowatt, of Chatham, who has turned out what is admitted by everybody to be a creditable job. The work. outside of the carpentry-also done under Mr. Mowatt's contract—was all by the nan, editor of the Summerside Journal, a and plastering was by Mr. John Crosby, and the interior painting by Mr. John Bell (the outside to be by Mr. John

Chatham Electric Light Company. The plans and specifications were by Mr. H. H. Mott, architect, St. John, who was, also, inspector of the work.

We may add that as the rate charged is only \$1.50 a day, the Adams House, of Chatham, now gives as good accommodation and satisfaction to guests as any house in Canada and the outlay made by Mr. Fianagan to meet modern public requirements in this respect should command for him the patronage he so well deserves and the encouragement of citizens generally.

Y. M. C. A. Moncton.

The corner stone of the Y. M. C. A. at Moncton, was laid on Wednesday of last week by Masonic Grand Master Walker, accompanied by a distinguished party of delegates. The choir sang the Masonic ode, after which Capt. J. F. Masters, Master of the Moncton masons, read a letter of address to the most worshipful grand master. The ceremony was then proceeded with, a silver trowel being handed to the grand master.

After the grand master had spread the cement and the stone in its place, striking the stone three times, he said : "I find this foundation well formed, true and charge of Dr. J. S. SEPT. 8. Weather fine for harvesting. The high water of last week let a good many salmon up.

Last Wednesday the Methodist church of Chatham held their picnic and excursion at Doaktown on an island below the bridge. They bridged the south channel and put up commodious booths and tables and had dinner, music, etc. Altogether, it was an enjoyable affair. The best of good humor prevailed. The day being fine, many took the opportunity to visit the grounds and friends who had never been in Doaktown before. There must have been about fifteen hundred people present on the grounds.

We were visited by Michael Adams, Esq., last week, who seemed to be a jolly good fellow. With his friend, Mr. R. Swim, he drove down the river apiece. A good deal of building is going on in this place just now. Mr. J. L. Murray is putting a considerable addition to hi

hotel to accommodate the increasing de mands of the public. Mr. Swim's mill is running again after the long break down.

Fishery Report.

Sept. 8. -At Perce there were fair catches of cod and squid and a few herring taken, but at Grand River there was no fishing inshore, the boats having all gone out on the banks. At the stations in Northern New Brunswick there is very little doing, but some fishermen from Caraquette and Shippegan made some very good hauls towards the latter end of last week. Along P. E. The Missing Vest.

An Englishman, who is staying at the Waverley, got up on Monday morning and went down to the office, saying he had lost his vest. He was quite demonstrative over the matter and it wasn't long before the alleged loss was literally "noised" abroad. He was determined to leave no reasonable effort for the recovery mackerel. At Spry Bay and Luneburg of his property untried and wanted the fishing of all kinds is poor, but at Port police called in to search everyone in police called in to search everyone in the hotel, as he had a lot of money in the missing garment. Presbytery of Miramichi.

The Presbytery of Miramichi Newcastle on the 9th inst. The following ministers were present: Rev. A. F. Thompson, Moderator; N. McKay, Wm. Aitken, J. D. Murray, John Robertson, A. F. Carr, Isaac Baird, Wm. Hamilton, Joseph McCoy, Wm. McLeod, J. A McLean and E. Roberts, There were also present Messrs. Edwin Bowser, John Menzies and Geo. Stothart, elders: Rev. James Murray was invited to correspond. Mr. J. Phillips Adams was certified to McGill College as a student preparing for the ministery. Mr. Greenlees a student missionary delivered a discourse upon prescribed subject. The discourse was carefully criticised and cordially approved and Mr. Greenlees was certified to Pine Hill College, Halifax.

Rev. J. D. Murray called the attention of Presbytery to some matters connected with the date at which the grant in augmentation in the Redbank congrega tion begins. After deliberation the fol lowing resolution was adopted: "The Presbytery defers the consideration this matter in the meantime, and structs the minister and session of Red. bank to take steps to have the congregation made self-supporting from 1st January next and report to next meeting of Presbytery.

The committee appointed to visit Weldford and Mill Branch gave in their report, They found on careful enquiry that there are 40 families at Weldford and 57 at Mill Branch. During the last two years they have contributed for church building, at Weldford \$1350 and at Mill Branch \$1155, besides \$600 on their new church which had been destroyed by fire. They also suffered a loss of \$300 by the burning of their old church at the same time. This makes a total of \$3,105 for building, or if the loss on the old church be added, \$3,405 in two years. For stipend during the last year, Weldford paid \$250 and Mill Branch \$306.50, wherewith \$50 paid for manse makes a total for ministerial support of 606.50. A report of missionary labors by Mr. Logan at New Bandon and Fairville was read and approved. He had labored there 18 Sabbaths-received from the field \$72 besides board. The Presbytery agreed to

ask the Home Mission Board to pay the balance still due. A printed schedule exhibiting the comparative scale of liberality in the several congregations was laid on the table by Rev. Mr. McCoy. A sufficient number of copies was placed in the hands of each pastor to enable him to furnish a copy for

Rev. A. F. Thompson reported from the committee appointed on Romish aggression. A prolonged discussion ensued in which allusion was made to such mataccredited provincial teachers to make room for Sisters of Charity holding only inferior and provisional licenses, and the renting at much cost, of conventual buildings for school purposes while comfortare left unoccupied. The use of costumes and symbols of distinctive denominational significance in the schools, and the alleged teaching of sectarian catechisms during school hours. Letters were read Province there was indication of a disposition to ignore the spirit, if not to override the letter of our school law and the presbytery appointed a committee consisting of Revs. A F. Thompson, Wm. Aitken, N. McKay, Joseph

representative body to inquire into the whole question of aggression upon our public schools and to devise means to prevent or remedy such aggression. The attention of Presbytery was called to the large measure of Sabbath desecration occuring on the I. C. Railway especially in the matter of bridge building, which for the mere sake of convenience was largely done on the Lord's day. The matter was referred to the committee on
