A Rascal Abroad. A man named Deroche, said to have formerly belonged to the upper end of Alnwick Parish, in this County, has been creating excitement in a small way in Fredericton and Chatham of late. He stole two gold watches from a house in Wilmot's Alley, Fredericton, and cleared out, that however not being his only dishonest transaction that city and its vicinity. He came House where he displayed the two watches he was being pursued and left the house on Monday evening. He is reported to have been in an up town resort on Tuesday, and is probably yet in Chatham or its vicinity. He was known as Dr. Rossin in York, where he was supposed to be prospecting for minerals, and he called himself Ross, or Deroche, here. The detective was fortunate, even although his man slipped through two stolen watches in the hotel safe, stakes in a bet he had made with a Chatham man that the cases were genuine gold, so Mr. Flanagan, being convinced that they were dishonestly obtained by Deroche, was glad enough to hand them over to Mr. Roberts on the latter settling the Doctor's

Whitscaps in the North.

It is reported here that a man living at Belledane, ne r Buthurst, with a woman who is not his wife, was taken out of his house Saturday night by whitecaps, fearfully maltreated and finally murdered. The report may not be wholly true, but it has some foundation in it .- Moncton Times.

The above refers to what its inventors think, no doubt, is a clever attempt to get up an orthodox "Jack the Ripper" sensation. The story was in circulation in and below Bathurst on Saturday last, but had little foundation in fact. It seems that a sailor was "boarding for a few days" at a house in Belledune. One night last week two place, and met the funeral cortege, which companying their intimation with an instalwas conveyed by a special train that had ment of the rough usage he was to expect other friends, about thirty members of H ir- lett. As he was no longer visible at Relleam Lodge of that city. A Misonic Lodge dune and had failed to put in an appearance his sister, awaited him, it occured to certain Malthy. The cortege proceeded to the ingenious minds that the circumstances were a sufficient basis upon which to construct a story of the horrible mutilation of the man, followed by his bleeding to death and the body being then divided in pieces between his three murderers, each of whom was made responsible by the others for the concealment of his share of the crime. As the supposed victim was seen at Jacquet Masons present. The fraternal solicitude River last Monday night, the story has lost interest at the North.

The Lord Mayor's Banquet.

At the inaugural banquet of the Lord Mayor, of London, to the British Ministry on Monday last, Lord Salisbury said he regarded as a good omen of peace throughout the world and of general entente among the nations the fact that the czarowitz was about to visit India as a guest of the Queen. Referring to trade with America, he said that the McKinley tariff law would certain. ly affect some portion of the British commerce. The free traders would rejoice after the recent electoral victories as a protest against the extravagant and utterly selfish protection, but they must not draw conclusions too rashly; they must still face the prospect of prohibitive tariffs. England had no retaliatory schemes, as she had reduced her own tariff to the lowest point. Referring to the relation between labor and Chatham by train and put up at the Adams | capital, he said that if they had an eight hours bill forbidding men to exercise their referred to and also some others, together strength and skill an hour or two more. with some rings, etc. Detective Roberts, of thus imposing hindrances on production. The government, he declared, would not interfere at all in disputes between capital and labor. State interference would do more harm than good, and the differences would, in course of time, adjust themselves. He further said that he believed the Mc-Kinley tariff was due to an idea that the American pig had failed to receive proper treatment at the hands of Europe. He dehis fingers, for the latter had deposited the fended England's desire to augment and consolidate her territory on the ground that all other countries are protective and compelled her to depend on trade within the queen's empire for the vital force of British commerce. STANLEY'S CREAT BOOK. "In Darkest Africa."

written by Stanley and the original and genuine one which certain dishonest publishers are endeavoring to imitate and deceive the public with. It is published by Charles Scribner's Sons and will be issued in July through the Earle Publishing House of St. John, who are the general agents for the Maritime Provinces and Newfoundland. The public are especially warned against spurious Stanley books, so called, now being offered to purchasers and declared by the vendors to be the work of that famous explorer.

Any one wishing to see a sample copy of the book may do so by sending me a postal card notice to that effect.

ANNOUNCEMENT

Beginning with the issue of November 6th, when the ADVANCE enters upon its

Seventeenth Year of Publication!

I propose to make important changes in the terms on which the paper will be furnished to Subscribers. These include 1st. Strict adherence to the system of cash in advance for all sub-

scriptions. 2nd. The reduction of the price

of the paper to One Dollar a Year!

It is to be particularly understood that all outstanding subscription accounts due after November 6th, 1890, are to be settled on the old terms, viz., \$2 per year, the advertised credit rate.

I have made special arrangements with the AND THE

of Montreal by which I will furnish either of those papers and the

"ADVANCE"

TOGETHER AT

One Dollar and Sixty Cents a Year!

I have made the foregoing changes in the business of the ADVANCE for two reasons.

The first is because many patrons who have been given credit. have abused the privilege to such an extent as to make the business of publishing the paper a non-paying one, and it is necessary, in my own interest and that of those who do pay, that I should no longer continue to furnish the AD JANCE to those non-paying subscribers. The second reason is, that I wish to meet the competition of the city weeklies, which are made up from the type of the dailies and, therefore, cost little for production in comparison with a local paper like the ADVANCE, the type of which must be set up especially

Having published the ADVANCE for sixteen years, and endeavored to make it a creditable representative of Miramichi and North Shore enterprise - a paper which may be taken into any household without fear that it has catered to sensationalism at the sacrifice of that cleanliness of matter, which is too often neglected by the press of the day-I have reason to hope the foregoing announcement will meet with general approval and be the means of largely increasing the circulation
