Cuticura Remedies,

About seven years ago I had a humor break out upon my face; it started in a small blotch and looked like the sting of a bee, then it spread and looked like a ringvorm, and became very painful. I at once went to one of the best doctors in the city, and he could do me no good. No less than twelve of the best doctors have had a trial at my face, and all of them failed. I will not give you a list of their names, but will say that they were from Boston, New York, and Maine, also from England, France, and Canada. I have teen a hotel cook and steward for years. In the summer I cook at watering places; that is why I have had an opportunity of bei g among good doctors. They could not core my face, and I had given up all hopes of ever being any better. Last June, I went to Moosehead Lake, Maine, to cook for the season. My face was so bad I did not like to be At the lake I met a gentleman from England He told me to use your CUTICURA REMEDIES, and they would cure me at once. I did so, The resuit was, in three weeks the sores on my face were lealed up. I used it all the season. My face is all well, and no sears to be seen. I have recommended it to a number, and in every case it has cured them. It would take a great deal of money to put me back where I was one year ago, providing I did not know what your Curicusa would do. I shall recommend

Sometimes we would go together, at other times one would stay at the camp and attend to the furs, while the other would go over the "line." The child was asleep at last, wrapped up in a blanket and one of the smaller sails; and Augusta, feeling quite worn out with solitude and the pressure of heavy thoughts, began to think that the best thing she could do would be to try to follow his example, when suddenly there came a knock at the boards which served for a door to the shanty.

It is wonderful how, under the pressure of a great calamity, we forget our quarrels and our spites and are ready to jump at the prospect of the human companionship of our deadliest enemy. And "the moral of that is," as the White Queen says, that as we are all night and day face to face with the last dread calamity-Deathwe should throughout our lives behave as

Augusta hid her head against the biscuit bag, and at last sunk into blissful oblivion; for to the young sleep is a constant friend. Once or twice she woke, but only to drop off again; and when she finally opened her eyes it was quite light and the rain had ceased.
