Sugars under 14 Dutch standard, imported direct, are free, while those imported otherwise than direct pay only five per cent. All refined sugars and sugar over 14 standard, pay eighttenths of a cent per tb. The late duties were 1½c fb. and 35 per cent. ad valorem. All spirit duties are increased 12½ cents per gallon. Champagne is increased 30c.

Salt duties are reduced one half and there are some slight changes in the molasses duties. Tobacco is to pay 5 cents per to additional taxation. These changes are in

### Another Jack O' Lantern.

A new political jack o' lantern has been evolved out of the the "dismal swamp" in which "forty second member" of the local legislature is located. So many of these delusions have been floated bethat it is a wonder the opposition papers have not become accustomed to them, but their capacity for being sold appears unlimited and as long as the astute gentleman who is "after Blair with a big knife" has a finger in the pie they seem to be perfectly reckless in their credulity. A gentle-Chatham Driving Park man named Eben Hall owns a property at St. Stephen. He occupies a portion of it as a farm and residence. Some time since he accidentally discovered that it was rich in nickel. He leased a portion of it to a nephew, who apthe Celebration of Dominion plied for and obtained a mining license under the old act, and having developed the mineral richness of the place sufficiently, sold out his rights for some \$30,000. That has upset Mr. Hall. Mr. Hall is a speculative kind of

person, but it is all in his mind. If we remember aright he was once the victim of an absorbing interest in the Utopia serpent. While he might that. seem to understand all about such get down to the hard pan of reality in ordinary human affairs, and it is not, grievance. To show the use that can give correspondence from Fredericton better than to spend money foolishly, Mr. Blair with its "little hatchet":-

Hall, owner of the celebrated Heathland farm near St. Stephen, in which the nickel mer, promises a sequel of more than ordinary interest, in which it is generally believed will be found the secret of the new provincial mining act passed at the last session of the Legislature. Mr. Hall spent a considersituated is about two miles from St. acres of land. On the 1st of July last year, while Mr. Hall was working his horse in duced him to send it to St. John to Mr. Best A first class female teacher to take charge of after and inspected the premises. He found richest part being in about the middle of the farm. Mr. Hall afterwards leased to his acres in the upper end of the farm upon condition the lessee pay \$300 if he found mineral value on it, and a further sum of \$500 when he should begin to work it. Silver and gold in smaller quantity, but of a very er land nearer the house. Specimens of this Mr. Hall's nephew, Chas. Libbey, took to quartz was worth \$140 per ton. The word soon went round among speculators and Hall. Mr Carrol, it is stated, has received \$30,000 for his interest in the 20 acres menpart of the case. Some time after the discovery, Mr. Hall says, early last fall, the latter spoke to Hon. Mr. Mitchell, provincial secretary, about procuring a mining license-that would be under the old act. The secretary, some months afterwards, Mr. Ha'll having been absent in a lumber operaation in the meantime, when asked about all about it; and, before anything more was heard respecting it, the new mineral act had been passed through the house and declared law, by which it is provided that any person, on making the necessary application orizing him to search upon any five square miles of land he pleases to apply for, whether crown lands or lands owned by private persons. This done, there is further provision for the granting of mining leases on any portion of the lands thus selected on which minerals may be found, which gives the lessees power to enter upon the land, tear up the earth, erect buildings, tear down buildings, etc., if necessary, upon compen sation-to be agreed on by arbitrators appointed for the purpose, if it is impossible for the lessee to agree thereon with the owncovery is that Mr. W. Mr. McMullen had been looking into the auditors' report, and among other Senate contingencies found 338 inkstands, costing \$258; 416 knives, \$373; 3.048 pencils, \$323; 228 pairs of scissors, \$136, and 144 scrap-books, \$93. Mr. McMullen asked what had become of all the things, of which these were only a few, how could 90 Senators use them all and why should the country pay for them. He suggested a committee to try to devise a means of regulating this expenditure. After this introduction the House swam into the farthest depths of the subject.

In the senate, Premier Abbot made the same statement as that read to the common yesterday by Sir Hector Langevin.

Senator Scott, leader of the opposition, asked if Sir John Thompson had been requested to form a government, and also as to the truth of the statements contained in the Montreal Herald's interview, where Hon. Mr. Chapieau is made to say that he had been promised the portfolio of railway to a searching criticism as to their and canals by Sir John Macdonald and

Premier Abbot replied that the statement read was strictly and literally accurate in saying that the governor general had applied to Sir John Thompson for advice and that was all that occured. As to the interview he really could not undertake to say whether or not any such publication was correct, but he might say that the government have determined on no advice to be tendered to his excellency with respect to any minister.

Representatives from all the provinces, spoke in eulogy of Senator Abbot and commended the choice of that gentleman as

In response, Premier Abbot said he con-

curred with those who had spoken, that the senate had cause for congratulation upon the fact that this honor had been conferred emerging from a transition state with plenty of useful work before it. For himself he never aspired to, hoped for, wished for, or worked for any position higher than that he had held as leader of the senate. The position of premier had come to him, he felt, not because of any extraordinary personal merits, but very much in the nature of vote cut down Mr. Foster was agreeable principle on which presidential candidates were chosen in the states. "A Back Number."

This is the slighting remark that is often applied to women who try to seem young, though they no longer look so. Sometimes appearances are deceitful. Female weakness, functional troubles, displacements and irregularites will add fifteen years to a woman's looks. These troubles are removed by the use of Dr. Pierce's Favorite Prescription. Try this remedy, all you whose beauty and freshness is fading from such causes, and no longer figure in society as a "back number." It's guaranteed to give satisfaction in every case, or money paid for it returned. See guarantee on bottle-wrapper.
