Militant Moral Reformers.

The guarrel between two such prominent men in the local prohibition ranks as Scott Act Inspector Brown and Past Grand Worthy Patriarch Anslow may be of much interest to themselves and a few of their respective adherents, but we regret that the ADVANCE is dragged into it We, however, published and criticised the Inspector's first letter, and he, very properly, claims that as Mr. Anslow has a newspaper of his own it would be unfair on our part to deny him an opportunity to meet his opponent in the press. Some local public interest attaches to certain portions of the Inspector's letter such, for instance, as that in which the declares he was not paid for his services by the temperance people's committee, of which the Past Grand Worthy Patriarch was the head. The Municipal Council and public were made to believe that Mr. Brown had been paid by the Temperance people for the full period of Lis engagement with

Bathurst Notes.

Bathurst has a new hotel, the "Wilbur House." Mr. Percy Wilbur, the proprietor, recently purchased the residence of Dr. Wm. P. Bishop and has since and is yet making extensive improvements on it, remodelling and renovating, to make it suitable for a first-class hotel. A mansard roof is being added to it which will afford much more room and at the same time lend much to its already good appearance. The large stables in the rear will also be fitted up in fine style, and Percy expects to receive a good share of patronage from those who "go driving." The proprietor is popular and no doubt will be a success as a hotel
