- AUGUST 27, 1891

The Kent Election. The election to fill the vacancy in the Assembly representation of Kent County, caused by the resignation of Hon. O. J. LeBlanc, is ordered. Nomination will be on Tuesday, 8th Sept., and polling on 15th. Much interest seems to be centred in this election, and, judging from the bitterness of Sun, Times, Gleaner and other opposition papers, in connection with it, we assume that Mr. Gogain's defeat, which is now assured, will be very discouraging to the St. John faction in the legislature. It would, of course, not affect the Government's stability, even should an opposition man be elected. It would, however, cause great rejoicing in the ranks of the Hanington-Alward-Stockton party. is a matter of regret that Mr. Gogain should permit his sympathies to be enlisted by such men as those who seek the overthrow of the Blair administration, while his chances for election would have been good had he kept himself clear of the gentlemen with whom many of his best personal friends are constrained to vote for Mr. Legere because they prefer the government to the opposition, and realise that the election of Mr. Gogain would place

Kent in a weak position amongst the counties of the Province. The Opposition organs are addressing themseives, just now, to the work of decrying the administration, and they throw out hints of dishonesty and corruption which, in the light of the facts, have the unmistakeable stamp of childish twaddle. All of the Opposition leaders, save Mr. Hanington, supported the Government up to within a session or two of the last general election, and they were familiar with all of its acts. In fact, Messrs. Stockton and Alward, who stand next to Mr. Hanington in the party, were government supporters in every session of the late House and their reason for going into opposition, just before the general election, was because, knowing the Protestants outnumbered the Roman Catholics in St. John, they felt they could make their re-election sure by raising a religious cry over the appointment of Mr. Ritchie to be police magistrate. Dr. Athinson and Mr. Phinney did not pretend that the government was not administering honestly and well, but they feeling will soon pass away. It builds up the system; strengthens the muscles; tones the appetite, and makes you feel like a new person. Sold withdrew their support-according to could not obtain certain subsidies and other government favours for their friends. All of these gentlemen have ity, Lost Vigor and Fail had ample opportunity, during the two sessions of the legislature that have been held since the elections, to formulate charges of corruption, dishonesty or mal administration against the govcourage to do so, simply because they lacked the facts on which to proceed. It is true that Mr. Gregory-the outside leader of the Opposition-induced Dr At kinson to make personal charges against Mr Blair, to the effect that he had receivmoney for election purposes from

Mr. Leary of dry dock fame, but everybody knows that those charges were 500 Bbls. Standard, Ex. C. and proved to be entirely unfounded. It was made a contribution of \$1,500 to the Mr. Blair nor Mr. Leary were shown to have had anything whatever to do with the matter. Moreover, it has also turned out that Mr. Leary never had any chance of securing the dry dock contract which it was stated by Dr. Atkinson he had practically been awarded. It has, thus, transpired that the one skirmishing charge which the opposition found the courage to formulate, was absolutely disproved, and the Attorney-General, against whom it was aimed, was exonerated by the com-1,403,493.18 mittee and House of Assembly. It is true that rabid men like Dr. Atkinson I have appointed Mr. Warren C. Winslow agent at the Leary charge and whining over thatham, in place of Mr. T. F. Gillespie. Mr their failure to secure a verdict con-Winslow is authorized to issue renewals of existing trary to the evidence, but it is unreasonable for such men, who are W. M. JARVIS, General Agent, blinded by their party prejudices, to expect the people generally to share their bias. They have a point to gain. themselves might secure their offices. George A. Flett, of Nelson Brick maker successor to G. A. & H. S. Flett has this day made an But when it is so evident that the people of the province have more confithe office of Mr. Warren C. Winslow, Barrister, dence in the government than in the gentlemen who are making such desperate efforts to supplant it, the electors of Kent will naturally refuse to

able representative. It will, of course,

grieve Mr. Phinney to know that Mr.

Legere can do so much and he so little

have, no doubt, made up their minds that one representative is sufficient to rights that are worth considering. be occupied in doing nothing and that it would be a very unwise thing to send Mr. Gogain to the legislature to help the other useless one. That is about the situation in Kent and as Mr. Legere is to be elected, it ought to be County. with as big a majority as possible.

Mr. Phinney's Friend.

The St. John Globe, which is not friendly to the local government, has, at last, had its sense of justice outraged by a recent attack of the Moncton Times upon Premier Blair, in which that paper compared Mr. Blair to Premier Mercier of Quebec-the latter being accused by the Times of "stealing \$100,000." After declaring that "The Moncton Times is one of the chief boodling organs in New Brunswick and one of the most disreputable newspapers ever printed," the Globe quotes its outrageous charges against Mr. Blair and says:

this libellous attack is not material, but he has good ground in it upon which to bring the contemptible defamer into

The readers of the Times are, no doubt. accustomed to its ravings and they wil not have the effect intended. It is probable that when ex-M. P. P. Stevens-the rejected of Westmorland-penned the at tack on Mr. Blair, his condition was the same as when he visited Northumberland just after the late Assembly election and, in the name of the opposition, offered to reduce stumpage to eighty cents a thou sand, if the Northumberland members would oppose Mr. Blair. Such men as Mr. Stevens and such papers as the Times attacks upon the Government by the are fitting champions of Mr. Phinney's opposition candidate in Kent.

Dog-in-the-Manger Policy 'You see' - said a Chockpish man, the other day to a Chatham friend, -"Phinner made a good thing out of the Kent Northern, both before Brown took hold of it and also afterwards, and when Blain disappointed him in his scheme for making another good thing out of the Buctouche and Kingston subsidy he was mad. for when a lawyer has a nice little thing like that arranged for hims If and misses it, he'll go back on his best friend if he thinks he can work it another way by doing so. He now knows he has made a mistake and can't work the thing into his own hands, so he don't want a gov ernment supporter elected, on the principle that as he can't make his pull out Mr. Phinney has associated himself, yet of the government for himself, the County may starve, rather than get anything through its other representative.

Opposition Tactics.

The Sun appears to have changed its views very materially over the question of reducing the stumpage. During the last Assembly elections its greatest canvass for the North Shore against the Government was that the high rate of stumpage was maintained. Now, it seeks to influence the electors of Kent against the Government because of the stumpage reduction. We do not think the people of Kent will like the Sun's change of policy. It was the influence of St. John's repre sentatives in the last House of Assembly that prevented the Government from doing justice to the four Northern Counties in this matter. The St. John men, all of whom supported the Government, opposed the just claims of Kent, Northumberland, Gloucester and Restigouche. As soon, however, as St. John returned opponents of the Government, Mr. Blair was free to do what he had always declared he was desirous of doing-viz., justice to those counties. Then, the Sun and those whom it represented, and who place party above the interests of the people, raised a howl because the stumpage was reduced. One might commend the consistency while condemning the injustice of those who, having always been high stumpage advocates, censured Mr. Blair for reducing it, but what should be said of the Sun and such men as Mr. Phinney, of Kent, who, having always favored retheir own allegations-because they duction, practically condemned the Gov. Without saying anything of their motives it is reasonable to conclude that they are not very safe guides to trust. The Sun now wishes the electors of Kent to send a man to Fredericton to be a follower of Mr. Phinney and the opposition-a party that depends for its existence upon the six representatives of St. John, who are ernment, but they have not had the fighting for power, in order that they may again shape provincial policy in regard to stumpage as well as other subjects affecting the northern counties.

The Sun also condemns the Government because of Mr. LeBlane's appointment to the Legislative Council. It will be remembered that Mr. LeBlanc was a member of the Government and that he sent in his resignation for the purpose of becoming a candidate in the late Dominion election. He did not succeed, however. shown that certain St. John gentlemen In carrying out Mr. Blair's declared intention of filling the vacant seats in the York county election fund, but neither | Legislative Council, as soon as the abolition of that body was assured, Kent County's claims were considered by the Government and Mr. LeBlanc was one of the gentleman appointed.

The Sun now singles out Kent's repre sentative in the upper house and says Mr. Blair will have to explain this appointment "whereby some \$500 a year is added to the annual deficit, \$300 of which goes into Mr. LeBlanc's pocket." The \$300 is the sessional indemnity, but it is not easy to understand why the Sun should single out the case of Mr. LeBlanc, who receives no more than the other members. Kent is, surely, as well entitled as any other county to a representative in the Council, and as Mr. Le-Chatham, N. B. and Mr. Phinney persist in reiterating Blanc had been its representative in both the Assembly and Government, his appointment ought to be considered a very fitting one. The Sun's objection in this case is suggestive of its attitude in other matters towards certain classes in the country, and which led to its party in federal politics being obliged to encourage the establishment of a second conserva-They each think that if they could get tive paper in St. John. The Sun will Mr. Blair and his associates out they have to learn that the success of this country is only marred by the narrowness which assumes that certain sections, classes and creeds must dominate, to the detriment of others. Kent and its people are entitled to equitable representation and their fair share of the benefits arising from public expenditures, whether federal or provincial, and as it cannot show shut themselves out in the cold shades | why that county should be denied a memof opposition, where they will only have ber of the Legislative Council, its people the barren satisfaction of the company | will wonder why that paper uses the of their present solitary and unreason- paltry canvass about Mr. LeBlanc's ses- their land in small pieces? It is no unsional indemnity. We presume it is of a common thing to find a farm with the water needed. In transporting the marine

be grateful and return the compliment. Our roads and bridges need repairs, and at least cost. Farmers should study Can Kent, without any valid reason, afford | these matter. to pit itself against a party which has for years made generous grants to the County? This Gove nment give the subsidies to the St. Louis and Richibucto and to the Buctouche and Moncton Railways, to the extent of \$140,000. Last session, the same Government granted \$37,500 to proposed road between Buctouche an

All over the County, across the many rivers of Kent new bridges have been erected and large expenditure made in th interests of the County. The Blair Government built the large Richibucto main River Bridge at Graham's Point, the St Nicholas River Bridge, the Baldwin and Thompson Bridges, and a number of minor bridges in Weldford, alone, in th last few years. This summer the Governnent has rebuilt the Big Buctouche Bridge, the Kingston Bridge, the new St. Louis Bridge, and is now rebuilding the Cocagne Bridge. The Kouchibouguac. No thweat, and other bridges will be shortly attended to. Kent has been generously treated by the Government, and has certainly nothing to gain by sending oppositionists to Fredericton.

It might advance Mr. Phinney's interests to have Mr. Gogain elected, but the devoloped the fact that there is consider-

public life as a supporter of this Govern-

Mr. Phinney asked the Government to of the various streams, not alone session and, at the beginning of the next upbraided and opposed the Government for having done what he asked them to Consistency is a 'jewel," and it has a rare setting in the person of the present member for Kent.

N.ws and Notas.

E nest Olive, age 17, son of Conducte Olive of the I. C. R., and a clerk in the Moncton branch of the Bank of Nova Scotia at Moneton, was drowned while bathing in Humphrey's mill pond, Moncton, last week.

It is somewhat singular that while almost all other enjoyments grow stale as me grow old, the one who is born with the stincts of an angler is as much a fisherman at sixty as at sixteen. It is likely that the angling instinct is a philosophical one-in philosopher in embryo, and as he grows oldsport which is at all times surrounded by an atmosphere of meditative wisdom. The man who haunts the trout streams with rod and line in his leisure hours, is always one who has a warm heart and a large brain

This is a true bear story. William Wakeman has a field of potatoes at Conn's Mills. George. He attended service in St. Cumberland. Unfortunately the potato bug | Mack's church, and at the close, requested has made its appearance there, putting Mr. an introduction to the rector, Rev. R. E. Wakeman to the necessity of using Paris Smith. He accompanied Mr. Smith to his informed man regarding fishery expositions green to exterminate the pest. Paris green it seems is sweet, at least the fact that a large bear came along, and after the first taste took more, indicates that it is. H went up and down the rows licking the poison lustily. Then bouin went to a drinking trough a few yards away and took a good long draught of water. This settled the fate of his bearship, and he lay down to die.

sixth anniversary celebration of the Salvation army at the Crystal Palace a few weeks ago "The American ladies" who Beacon. were delegates were attired in costumes "somewhat resembling those of the Indian Ayahs." The army in all is now made up of 4 289 distinct organizations, commanded by 10 449 officers. During the Chicago is composed of three parts, a main past year there has been an increase of 255 organizations. The total circulation of their periodicals is over half a million. There are twenty-seven War Crys outside of England, published in thirty-five countries and in fifteen languages. The Army has made particular progress in

The Montreal Gazette tells its readers that the McGreevy inquiry will cost the country \$75,000. That is a large sum. but after all it is not too much to pay for a spigot to stop the leak in so big a barrel as the Public Works Department. In seven years Larkin & Co., made \$950,000 profit out of works which cost them only \$2,200. 000, and no doubt Mr. Andrew C. Bancroft. the alias of Monsieur Michael Connolly. has made an equally good thing in proportion out of the Kingston graving dock. The country would willingly vote an extra \$5, 000 to build an addition to the penitentiary

for the benefit of the gang. The uses made of the refuse of Par women's hair are carefully unravelled, and do duty for false hair by-and by. Men's hair collected outside the barbers' serves for filters through which sirups are strained; bits of sponge are cut up and used for spirit lamps; bits of bread if dirty are toasted and grated, and sold to the restaurants for spreading on ham or cutlets; sometimes they are carbonized and made into tooth powder. Sirdine boxes are cut up into tin soldiers or into sockets for candlesticks. A silk hat has a whole chapter of adventures in store for the necessary quantity at the United States rag-pickers numbering close on to 20,000, Mass, to one-fifth its bulk, thus reducing

> Philadelphia, went over to Camden, N, J., and was married by Rev. Mr. Borrell to Miss Minnie Farrel. Then he went structed of vulcanite. The pumps will be before Rev. Mr. Finlaw, under the alias in duplicate and will each have a capacity of Arthur Williams, and was uni ed in the holy bonds of matrinopy to Laura Joice. On the following night, under the name of Edward Martin, he became the husband of Mary Louis, Rev. Mr. Van Horn performing the ceremony. An hour later as Charles Mullen he took unto himself as a bride Sarah Price before Rev. Mr. Morrell, and later in the evening he became Samuel Matthews, and was married to Margaret Reed by Rev. Mr. Soey. plays. This quintaple record in the role of a bridegroom would have got him into United States government the most interesttrouble had it not happened that the brides in the case were all one and the Up to the present time no comprehensive same person, like himself adopting aliases. It appears, likewise, that the bridegroom was a reporter of the Phi'adelphia Press. sent over to write up the loose marriage ceremony in vogue in New Jersey, where the clergymen marry anybody and everybody who come along for the usual fees. A trial in the United States courts has

The other night Henry D. Wilson, of

intelligent electors will make no mistake able wealth embraced in the sunken logs in distinguishing between that gentle- in the logging streams of Michigan. In man's interest; and the intere to of the dragging the Au Sable River for sunken whole County. It ought to be an easy logs, 100,000,000 feet was secured within a short distance, and now the statement is Mr. Phinney, himself, first got into going the rounds that it is believed there is 150,000,000 feet of logs sunk in the Au ment. "I was sent here to support this | Sable alone. These have been calculated Government' were the words uttered by at \$6.00 per thousand, which amounts to Mr. Phinney a few hours before he voted \$900,000. And the query arises, if this is against the Government he was elected | the wealth at the bottom of one river, how much wealth is lying at the bottom reduce the stumpage at the end of one Michigan but in logging streams elsewhere as well? An explanation may here found for the shortage which lumbermen been unable to account have run hundreds of thousands of feet short of the scale in the woods. As this deficiency never shows itself in logs brought in by rail a strong argument is made for the transporting of logs by rail. -Canada Lumberman.

There is no longer any debt on the St. Mark's Episcopal church, St. George, the encumbrance having been removed recently in a rather unexpected manner. It happened in this way. Some years ago, Mr. Jewett, then quite a lad, started from St. George, his native place, to seek fame and fortune in the great world outside. Like many another New Brunswick lad. other words, that the young fisherman is a he was full of pluck and energy, and when he secured a situation his abilities quickly er he grows more attached to that species of brought promotion and wealth. At the present time he is manager of a bank in one of the suburban towns of Boston, and is possessed of quite a large share of the world's "gear." This summer he was seized with a longing to see his native place. A few weeks ago he arrived in St. residence, and while there inquired if there was any indebtedness on the church. try. He was told that there was, and when the amount was stated, he drew out his check book, and wrote a check for the amount To say that the rector was surprised at the stranger's generosity was speaking very mildly, Mr. Jewett said he felt impelled to do something for his native Gen. Booth conducted the twenty- place, and he could think of nothing better than extinguishing the debt on the church of his childhood .- St. Andrew's

A Great Fishery Exhibit.

The fisheries building that is being erected in connection with the World's fair at building 365 feet long and 165 feet wide, and two circular buildings each 133 feet 6 inches in diameter, connected with the main structure by two curved arcades.

The two circular buildings, in one of

which will be installed the angling exhibit

and in the other the aquaria, are precisely

similiar in size and exterior appearance. They are not in reality circular, but polygons | For the most part these will be what are of many sides. The result is that the vulgarly called "Fakes" intended only as severity of the simple curve is obviated by a catch-pennies and necessarily def ctive besuccession of obtuse angles which lends grace and lightness to the general design. The the original sources of information. We western building is perfectly plain within, think the public have been sufficiently warnas in it the varied exhibit of angling ap- ed against the trashy and wholly unreliable pliances is to be placed. The aquaria will be found in the eastern building, and there is little doubt but that this will be one of the chief points of interest of the whole Exposition. In the center will be a circular gratulate you upon the success of your basin 30 feet in diameter, in the middle of which will rise a towering mass of rockwork. From clefts and crevices in this rockwork miniature cascades will ripple down to the masses of reeds, rushes and ornamental semi-aquatic plants in the basin, amid which will be seen gorgeously brilliant fishes disporting. Around this basin there will be a circular walk 16 ft. wide, reached by two broad entrances. These entrances pass through the inner series of tanks. The larger section of these tanks will be devoted to fresh water fishes, the smaller to those from salt water. This series contains the tanks of greatest capacity. They will have vertical sides, as they will be inspected from both sides, and the bottom will be rounded. They will vary in capacity from 7,000 to 17,-000 gallons each. The sea water for the marine fishes will be secured by eyaporating All this work employs a regiment of Fish Commission Station at Wood's Hole, and each earning from twenty pence to both quantity and weight for transportation about 80 per cent. The fresh water re quired to restore it to its proper density Why will so many farmers still work will be supplied from Lake Michigan. From

brought on each trip.

Surrounding these great tanks, which will

five be about 7 feet wide, there will be a second General Business. be vaulted over and the walks above the clear glass fronts of the tanks will be made MIRAMICHI of glass, so that all of the light will perforce come through the tanks. Around the outer STEAM NAVIGATION CO'Y.

circumference of the walk will be placed the

second series of tanks. These will be some-

what smaller than those in the inner series,

ranging from 750 to 1,500 gallons each in

capacity. The entire length of the glass

fronts of the aquaria will be about 575 feet,

or over 3,000 square feet of surface. The

panorama presented will be one of surpassing

interest and beauty, and the whole exhibit

will rival the greatest permanent aquaria

of the world, not only in size but in the

number and character of the specimens dis-

played. Thus it is already known that Dr.

Ladislao Neeto, the director of the National

Museum at Rio Janeiro, Brazil, and who

organised the magnificent exhibit of Brazil in

the fishery exposition at Berlin proposes to

send a much more complete exhibit to

The total water capacity of the aquaria,

exclusive of two huge reservoirs which are

to be placed in the main structure, will be

18,725 cubic feet or about 140,000 gallons.

This will weigh 1,192,425 lbs., or almost

It is the intention of the State Fish Com-

mission of the different states to make pro-

vision for a comprehensive exhibit of native

and cultivated live fish, with hatcheries,

appliances and equipments for transporta-

tion, models of fish ways in use, etc. Each

State will have its special exhibit, and in

addition to this there will be a large govern-

ment display of shell and sea fish. The

coast states will send especially large dis-

ing will be that of the Fish Commission.

display has ever been made of the fauna be-

longing to this country. It is intended that

such an exhibitian shall be made in Chicago.

This ought to be interesting in considera-

tion merely of the fact that fishing was the

earliest industry of the new world, dating

from the period of the discovery of America

by Columbus. The Commission proposes to

exhibit alive in aquaria the principal forms

of fishes and invertebrates of both oceans,

the Gulf of Mexico, the great lakes, and the

inland rivers, with particular reference to

Not only will marine creatures of all sorts

be shown, but the finny denizens of the

streams also, and likewise the whitefish, the

catfish, the big pickerel, and the huge stur-

geons of the interior waters. Such a task

will necessarily be of great magnitude, inas-

much as the labor and skill required to fetch

the fishes in good condition from points so

remote over thousands of miles of railway

must be enormous and of the very highest

order. It has been announced hitherto that

such an exhibition was impossible, but

thanks to modern devices and the discov-

eries of the Fish Commission, no serious

difficulties are anticipated. The marine

fishes will be captured off the coast and for-

warded alive by rail, in tanks filled with sea-

water, to Chicago. Not only on the Atlan-

tic seaboard, but on the Pacific likewise,

the vessels of the commission will devote at-

tention to this work. They will secure the

scaly captives in seines, select such desirable

ones as are caught in the pound nets of the

fishermen, and take them in tanks ashore,

where they will be shipped to the Exposi-

tion. The tanks utilized for transportation

will be of sufficient size not to crowd the

occupants and provided with a device for

The main structure will contain a full and

complete exhibit of all the various applianc s

used in the fishing industry in all countries

and in all times, while the special depart

ment of angling will have the whole of the

west wing for its exhibit. It is the inten-

tion of the department of fish and fisheries

to make the exhibits of foreign nations as

large as possible, and thus far there is every

reason to believe that the highest degree of

Captain Joseph W. Collins, Chief of the
