THE LUMBER CUT on the Restigonche this year will be between four or five millions of spruce, and about five or six millons of cedar. The cut of spruce will therefore be much smaller than last year, and that of cedar very much larger. The manufacturing of shingles has become quite an industry on the North Shore.

SHINGLE MILL: - David Richards is short ly to commence the erection of a shingle mill just below Campbellton, on the line the I. C. R. Mr. Richards who has been lumbering on the Restigouche for some years is developing an extensive business in that section.

OBITUARY:-Wm. McLaggan, one of the most prominent residents of Blackville, die suddenly, of apoplexy, at his residence in that place on Wednesday of last week Few men in Northumberland county were better known or better appreciated for sterling integrity and thorough independence o character.

To REBUILD :- The St. Lawrence Lumber Company will rebuild their mill at Bathurst. Men are now engaged in clearing away the debris of the late fire from the site of the destroyed mill, and the new establishment is to be completed by the opening of navigation next spring. It is to be fitted with all the modern improvements and will be one of the | Moncton Transcript. most efficient lumber mills in the Dominion

IMPROVED:-- Jas. J. Pierce, Esq., who is a veteran amongst the North Shore newspaper men, has had editorial charge of the Newcastle Advocate for the last two weeks, while its publisher, Mr. Anslow, has been away on a collecting trip. If the publisher has been as successful in his business tour and improved his position as much as the accomplished interim editor has improved the tone of the paper, his many friends have | up-stairs, Barry's Building, as follows :abundant reason to congratulate him.

SMALL Pox: - Last week's Campbellton Pioneer says: -- As soon as the health officers of the town, learned of the two cases of smallpox in a settlement near St. Moise on the line of I. C. R. about 75 miles from here, the provincial board at Fredericton was notified of the facts by wire. Since then the board and Dr. Doherty, inspector of the board of health for the county, have been in correspondence, and no doubt every necessary precaution will be exercised to stay the spread of the disease.

A WRECK:-A despatch to the Quebec Signal Service from Superintendent Campbeil, of St. Paul's Island, dated October 16, 6 p. m., says:- "Large quantities of wreckage and timber are west of St. Paul's Island this evening. The cargo consists of all sizes of scantlings, decking, knees, etc., which have been washed ashore all broken up. One empty flour barrel which has come ashore is marked 'A. R & Co. Hx.' It looks as if a collision had occurred within twenty miles of the island."

Coal is scarce and a good many house holders are without their usual winter supply. The cause of the shortage seems to be due to the business having been "cut up" last season, three or four going into it in a spasmodic way, with the result that there was more of certain kinds of coal than could be got rid of and some of it had to be held until this year. This year, each of the "dealers" imported cautiously, the result being that the supply is short-especially of anthracite. WHERE TO FIND GAME: - The north shore and the upper St. John are favorite resorts of the hunters this year: Partridge, duck and geese are to be found in large quantities along the Restigouche between Campbellton and Dalhousie. On the Quebec shore for day evening, it was decided to extend a call instance, geese are more plentiful than they have been for twenty years. The river is Hampton. Four candidates were proposed, practically dotted with them. Further u the Restigouche are duck and partridge in abundance. On a portage road, abou thirty miles from Campbellton, one hunte is known to have shot fifty-three partridges between the hours of 7.30 and 9.30. On th Dungarvon and Bartholemew in Northumberland, partridges are plentiful, and on the he lost his balance and fell to the deck and lakes about there are large numbers of duck. On the plains of Bartholemew there are lots of caribou. In Victoria partridges are said to be more plentiful than for years. -

PERSONAL :- W. C. Milner, E:q., collector of customs, Sackville, was in town of Tuesday. He is an old newspaper man, although not advanced in years. While he doesn't, for a moment, hint that he feels at all unenmfortable at the receipt of customs. he admits that he found it very trying, at first, to refrain from newspaper work.

Heavy Fire at Bathurst A few minutes past midnight on Monday night an alarm was given at Bathurst, consequent upon the discovery of fire in the basement of the H. Meahan & Co. general store on Water street. A fresh northeast wind fanned the flames which soon burned fiercely, communicating with Mr. Jas. Hickson's watch and jewe'ery shop and John Donnelly's saloon. The crowd that had gathered lacked appliances for checking the conflagration and mainly assisted in removing the contents of the burning buildings and of those threatened. From the three buildings named the fire crossed the street and burned Mrs. Sinclair's confectionery and fancy goods store, Jas. Hickson's residence, the building occupied by the Merchants' Bank and McKenna Bros.' tailoring establishment, the residence of K. F. Burns, Esq., M. P., and also the Skating and Curling rink. Powers' hotel took fire and was badly da maged, but a determined fight tostop the flames there succ eded and ended a conflagration that seriously threatened to destroy a large portion of the town. As it is, great damage was done. The St. Lawrence Lumber Company's fine stores, office and warehouses were scorched and the large plate glass windows cracked badly with the great heat from the fire
