It is a sound, clean pine twenty two feet long and of thirty-six inches diameter at the small end. It will, therefore produce 1336 feet of merchantable lumber, according to the New Brunswick scale. None of our mills are calculated to cut such a large log, so this specimen will be made into timber. It is hauled out and now lies on the bank of the Lord and Foy.

### The Bands.

St Michael's Band made a very creditable appearance in their uniforms on Christmas A LITTLE MIXED:-Somebody belonging to Day, when they paraded on the street about the Moncton Times, who does not appear to ten o'clock and attended Mass at the probe very clear-headed, has been writing about | Cathedral about 10.30. They played the a trip over the Canada Eastern railway, Adeste Fideles before Mass and also a closing piece. After Mass they went to the Hotel and says is in first-class order, "considering Dieu, where they played for about half an hour in one of the hospitable wards and afterwards had lunch which was furnished by the good sisters. In the afternoon they marched out and played through some of the town streets and at the post office square. Among the instruments used by this band on Christmas Day were two new Besson cornets, which with other new instruments previous. ly procured, make their outfit in this respect a first-class one. The leader, Mr. Arch. Mc. Eachran, deserves great credit for the state of efficiency to which he has brought the band in a comparatively short time, their music being very favorably commented on

by all who heard it. The 73rd band did not make any arrangements for a parade on Christmas day, as some of the leading members were away for the day or otherwise engaged, but a few of them got together and had a march-out in the interest by their fine music.

### Letter from Mr. W. C. DesBrisay.

To the Editor of the Advance. an article in your issue of the 17th instant, headed "Miramichi News Found at Ottawa," wherein my name appears more prominently take decided objection. I will thank you right before your readers. Just here I may the writer of the article alludes to me as any intention on the part of either Professor "Mr. DesBrisay, who is in some way connected with the Privy Council Office," and elsewhere introduces my name in a way that, if not savouring of ill-will, at least betrays very considerable insolence. Prof. Smythe and I are very old friends,

and correspond regularly, and, since seeing him in Chatham some ten weeks ago, a business matter has occasioned three or four letters a week passing between us. It was in one of these, dated 4th December, that he wrote the paragraph respecting Mr. Adams' departure, and with which he said he enclosed a 'dodger.' This letter I received on Monday the 7th December, but no 'dodger' was enclosed. I mentioned the circumstance to a New Brunswick gentleman, who is also "in some way connected with the Privy Council Office," and who is acquainted with Mr. Adams, We were in the dark without the 'dodger,' and agreed in thinking afternoon, attracting much attention and it nothing more serious than some report with public men-to which we are all more which might connect Mr. Adams' departure with the unpleasantness of appearing before an election court. Answering Mr. Smythe that day, I mentioned that he had not enclosed the 'dodger,' and on the following place on Thursday evening last at the Friday or Saturday, I received another letter from him, with which was enclosed the 'dodger' without note or comment. On receipt, I showed it to my N. B. friend, like myself "in some way connected with the battalion. The affair was got up entirely by | Privy Council Office," and desirous of an exthe members of the band, and was for the planation; he enquired of another friend, purpose of manifesting their appreciation of who, he thought, might have heard somethe service Mr. White had rendered them thing. About this time, Mr. Adams arrived and their regret over the announcement that | in Ottawa, and the circumstance that I had he was about to remove from Chatham to received this 'dodger' came to his knowone of the larger American cities. There ledge. I do not know what importance he was a supper, which was tabled in the sat- attached to it, but he neither called on me, isfactory and satisfying manner usual at nor sent for me, to enquire about it. I was Leonard's, the chair at which was occupied waited on, however, by a friend of Mr. by Mr. W. R. Gould and the vice chair by Adams' (I know not whether at his request Mr. Ernest Haviland. After the substantials or not) to whom I gave the 'dodger,' and had been disposed of Mr. J. F. Johnston, in who produced a telegram from a Mr. Lawbehalf of his fellow-members of the band- lor, or Lawless, or some party in Miramichi

"in some way connected with" the law, expressing his anxiety to pay \$100 for Prof. Smythe's letter. While declining to trade, tention to take up your residence in another I read to this gentleman that portion of Mr. Smythe's letter which appeared in your last issue, at the same time assuring him that, in penning the letter, Mr. Smythe was actuated by no unfriendliness to Mr. Adams. I was inclined to be impatient when Mr. Adams' friend asked to be allowed to make a memorandum of what Mr. Smythe had written me, but knowing Mr, Smythe's entire innocence, and that a refusal on my part would be liable to misconstruction, I consented and allowed the extract to be

I have since learnel the explanation of the 'dodger.' I fancy no one will accuse me of maliciously circulating the slander, although the writer of the article in the Advance speaks of Mr. Smythe making a "conexpressed his thanks with an ability and tribution to the fund of Ottawa scandals," as eloquence which were emulated or approach | though I was their custodian. But I sined during the evening only by the vice. cerely regret that Professor Smythe should notoriety. I have known him intimately After the presentation, the evening was for twenty-three years, and, in all that time, I never remember him saying or writing an ill-natured word about anyone, although he has had occasionally ample provocation for retort. That he had not the faintest animus in writing me as he did, is evidenced by the facts that he forgot to enclose the 'lodger' and did not send it until I had written for it and then forward d it without remark. Indeed, I have had conveved to me from Mr. Adams an expression of his obligation to Prof. Smythe for having been the unconscious instrument of hi ferreting out the author of the slander, and of his assurance that Mr. Smythe's communication to me was made in no unfriendly spirit. I regret that the writer in the Ad vance should seek to prejudice Prot. Smythe with your community; he would discover animus in Mr. Smythe's action because he says the 'dodger' was "a very old chestnut when Prof. Smythe forwarded it to Ottawa, yet he admits a few lines before, that it has only been "recently put in circulation," and if a "chestnut," why was the man of law s

auxious to squander \$100 in obtaining it and its covering letter ? The writer says that "the business is no a creditable on e for the parties concerned. I wish he were a litt'e less vague, because if he includes me among "the parties concerned," and insinuates that I had any share in the "business" to which discredit attaches, or that I am the depositary of Ottawa scandals, or if he imagines that my posi tion in the Privy Council Office warrants address by Rev. N. McKay. Subject: -The him in offering me \$100 to part with a private letter to serve his personal ends, I wish to remind him that my name is an honorable one in the Miramichi, and to let him know that I can defend my own honour, and if he has no investment yet for that \$100 he can put it up, that, when I take up my pen, will not come out second best.

> Yours faithfully, WILLIAM C. DESBRISAY. Ottawa, December 21, 1891.

[Mr. DesBrisay displays an unseasonable asperity of tone, and fails to do justice to the proverbial good-nature of the aucient for the consecration of sons to the ministry; tip the scale at over two hundred pounds. It was employed only to indicate his identity. On the whole Mr. DesBrisay's explanations, divested of the flourish of metaphorical tomahawks, knives, razors and broken glass bottles, which seem to glint and scintillate all over the closing paragraph of his letter, ought to satisfy us all, including the Smiths, that the whole affair, so far as these two gentlemen (Prof. Smythe and our correspondent) are concerned, was only the outcome of an innocent predilection for gossip connected or less inclined. As we conjure up, in the embers of our comfortable open fire -which is what the poets do when they are particularly retrospective-the pleasant faces and forms of the two gentlemen, who, like David and Jonathan and Damon and Pythias, have long known and loved each other, and realise how really innocent and genial both of them are, we think of the softening influences of the holiday season-while these and the spirit of the dying year prompt us to place our hands on both of their heads saying "bless you my children" and to forgive our correspondent for the severe things he writes about those remarks of ours in our issue of 17th inst. Yes, we forgive both of them, collectively, and Mr. DesBrisay individually and ask all the Smiths on the Miramichi to do likewise. - EDITOR.]

CASE THAT FAIRLY OUTRIVALS THE WONDER FUL HAMILTON CURE.

IOPELESS, HELPLESS, AND GIVEN UP AS "ON STORY AS INTESTIGATED BY A RE-PORTER.

Halifax Herald, December 16th. A few months ago all Canada was a tounded by a remarkable cure reported from the city of Hamilton, Oat., and vouched for by the press and many of the leading resideats of that city. In the Hamilton case the man (a Mr. Marshall) had been pronounced incurable, and after rigid exsmination by half a score of physicians, the Royal Templars of Temperance paid him the \$1,000 members of that order are entitled to when pronounced totally incapacitated from labor. The remarkable narrative of Mr. Marshall's care and the remedy to which he owed his recovery were given wide Smythe or himse'f of any unfriendly feeling publicity by the pre s throughout the Dominion, and naturally it brought a ray of these gentlemen will, doubtiess, admit that hope to others who were similarly suffering. it had a different complexion in its earlier Among the homes to which it thus brought stages and was especially rough on the hope was that of Mr. Joseph Jerritt, of North West Arm, C. B., and Mr. Jerritt's recovery may be regarded as even more marvellous than that of Mr. Marshall, and many others whose cures have recently been recorded. One thing, however, is certain, and that is that never before in the history of Cape Breton has medicine wrought such an almost miraculous cure. In the year 1879 Mr. Jerritt received a fall from a truck wagon, the wheel of which passed over the small of his back. Those with him succeeded in restoring him to consciousness and took him t his home which was near by. For six months he was unable to perform any work and even after a lapse of a year was troubled with severe pains and weakness of the limbs.

He was able, however, to do light work about the farm, and about a year later shipped on a vessel bound for Charleston, S C. While on this trip Mr. Jerritt was engaged in furling a sail, when he overreached himself, and felt something start, as though something had burst in his left side. He became almost helpless, and on the arrival of the vessel at Charleston, he was taken to the hospital for medical treatment. Here he remained for over two months under the most skilful physicians. His side became strong again, but his limbs grew weak and frequent ly the pains were intense. Mr. Jerritt then returned home, he continued to grow worse and the pains never left him. After his re turn home he made an attempt to work but had to give it up, and gradually became worse and worse until at last he was entirely helpless and was looked upon by his friends as one who not only could not recover, but whose time on earth was short. It was in this condition, depressed in mind, helpless, and continually suffering intense pain, that a last a ray of hope came to him. One day The discovery was his "Favorite Prescrip- he read in the Halifax Herald of Mr. Marshall's remarkable cure. Symptoms in this case were those of his own, and despite the fact that he had already expended hundreds of dollars in patent medicines and medical treatment, without receiving any benefit, he determined to try the remedy that had reway in it, you can get your money back by stored Mr. Marshall to health. The result is that he is again restored to health and strength. Hearing from various sources of Mr. Jerritt's remarkable recovery the local reporter determined to investigate the matter, and gives his story as told to him. "In my early days," said Mr. Jerritt, "I was one of the strongest young men in our village. Until I received the fall in 1879 I did not know anything about sickness, and after that time I did not know a perfectly well day. I tried to fight the trouble off and to work, and partially succeeded up to ship while bound for Charleston

the time I received the strain on board the then my limbs have continued to grow wors: until I was compelled to give up work altogether and send for a doctor. I may add that all kinds of medicine were tried but none did me any permanent good. The physicians of our place said my disease was locomotor ataxy and although several of them treated me, none gave much hope of recovery; in fact the impression became general that "poor Joe must soon go." After the failure of doctors' treatment I again resorted to patent medicinrs of which I believe I have find myself even worse than before. My alone having to use two chairs to steady my and death. My left leg swelled to an enormous size and the doctors pronounced it drop y. My feet and legs have been cold for over five years until the last three months. It was impossible for me to sleep with the pain which would continually be in my legs and body. Mustard drafts were app'iel, but no sooner would they be taken off than the pair would return. About one year ago lost all feeling from my legs: they would feel like ice and to move them caused the reatest agony. I prayed that God would ake me from this world and give me relief from the torment which I was hourly in.

Thus I lived; not lived, but existed, a suffering being without one day's relief from the most excruciating pangs from the disease. How the face of the hitherto sufferer brightened as he began to tell of the release, as it were, from death, and continuing he said :- "But from the blackest day of my sickness a glimmer of hope shone when my little girl who brought home my paper real the advertisement of Dr. Williams' Pink Pills, and I got her to read to me the cure effected in the case of John Marshall, of Hamilton. As soon as she read the statements contained therein, I saw at once that his case was similar to mine and I told my wife that I believed I would be a well man again if I only could succeed in obtaining some of this medicine. I sent to our drug store but found none there, I then decided to send to Brockville, Ont., for the Pills, but my neighbors only laughed at me saying that they were just like all other patent medicines, no good. This was in August, I forwarded the money and in a few days received two boxes of Pills. deciding to give them a fair trial. After taking them a short time the pains left me, Bebbington, Fredericton, and supplied by and to-day I am not troubled with an ache or pain. True, my limbs have not yet enmore labor had been expended upon the tirely recovered their former strength, but it makes me happy to know that if five boxes will enable me to stand with just a little assistance more will continue and complete the cure. Dead legs for a year are not easily made perfectly strong again but," here Mr. Jerritt threw both legs high in the air, "this is something myself or my friends never hoped to see. All my neighbors gave me up for dead, but thank God my strength is returning and after three months I feel like a new man. You need not fear to state my case plainly, as I am well known in Cape Adams, to Mr. Des Brisay at Ottawa, and as mentioned. My weight since I began taking the Pills has increased from 125 pounds to 146 pounds and I am heavier now than I have been for five years. I hope what I have told you will induce other sufferers to try this wonderful medicine, and I am sure they will have as good reason to feel grateful for it as

They, one and all gave the credit to the treatment with Dr. Williams, Pink Pills, and are naturally enthusiastic in speaking of them. The proprietors of Dr. Williams' Pink

They are offered to the public as a neverfailing blood builder and nerve restorer, curing all diseases such as paralysis, rheumatism, sciatica, palpitation of the heart, headache, pale and sallow complexion, muscular weakness, etc. These Pills are also a specific for the troubles peculiar to females, such as suppression, bearing down pains, chronic constipation and all forms of weakness, building up the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over work, or excesses of any nature. The proprietors deem it their duty to cau-

tion the public against imitations. These Pills are never sold in any form except in boxes, the wrapper around which bears the trade mark "Dr. Williams' Pink Pills for Pale People." They are sold by all druggists or will be sent post-paid upon receipt of price, 50 cents a box-by addressing the Dr. Williams' Medicine Co, Brockville, Ont. or Morristown, N. Y.
