> SHOT HER DAUGHTER. RICHMOND, Va., Aug. 27 .- Mrs. Lizzie Hicks, a widow, living in the suburbs of this city, shot and killed her 16 year-old daughter, a beautiful girl, under painful circumstances Tuesday night. The vicinity has been terrorized by burglars, and the widow kept a loaded revolver. She heard a noise and seized the pistol and crept to the back window to listen. While there she heard a light step behind her, and turning quickly and greatly excited, saw a figure standing close beside her. She fired and an awful scream followed as her daughter Carrie cried: "Oh, mamma, you've killed me." She fell in her mother's arms and died. When the mother ascertained that it was her daughter was dead she attempted to kill

### A ROMANTIC EPISODE.

The Halifax Herald says:-The conflagration in St. John's has at least brought happiness to one individual, and given her a home that she had never dreamed of. The story is romantic and stranger than fiction One who was summoned to the distressed city, was James Sted of Seattle, Washington Territory, a man of wealth. He went to St. John's to see his people who had suffered by the fire. He was one of the passengers on the Portia, which arrived from that city on Thursday. On the same steamer were a number of young women who went to Halifax to secure places as domestic servants. All these were forced to leave home as a result of the fire. Among the number was a Miss Struggles. On the passage up she became acquainted with Mr. Sted of Seattle, referred to above. It was love at first sight as subsequent developments showed. The question of their future life was setiled while gazing upon the waves as

GOOD MANAGEMENT ON A C. P. R. STEAMER. VANCOUVER, Aug. 26. - The "Empress Japan" arrived here yesterday afternoon. On the evening of Aug. 10, 800 miles from Yokohama, fire broke out in the afterhold and for a time the ship was in great danger, but the good seamanship of Capt. Lee avoided disaster. He was compelled, how ever, to put back to Hakodate, six hundred miles distant. The first intimation of fire was the going out of the electric lights, caused by the fusion of wires in an undis- lovely and rich looking piece of furniture of covered place. Smoke was seen issuing it. from the bulkhead in the afterhold as well as from the ventilators. Without giving alarm to the passengers the captain put about and stramed full speed for Hakodate. Holes were cut in the bulkhead and water forced in. This continued till morning. when the hatch was opened and chests of tea and sacks of sugar hoisted on deck. In the effort to locate the fire the vapor from the tea suffocated the men and it was impossible to play upon the spot where the fire was or pluck more tea or sugar away. The head was then closed and water pumped into the bulkhead, which became cooler. So serious was the danger at one time that the ship' boats were cut down, watered and provisioned in case they should be required.

SAW HER HUSBAND DEVOURED BY BEARS. Boise City, Idaho, Aug. 10.-William Easton, aged 68 years, who came to Idaho in 1865 from Cairo. Ill., was devoured by two cinnamon bears on Aug. 5. His aged wife, who is an invalid, witnessed the dreadful tragedy, but she was powerless to assist er fated husband. The scene of the horrifying occurrence

was Easton's ranch, eight miles west of Elk

City, in Idaho' county. The unfortunate rancher and his wife were eating their breakfast, when they heard a great commotion in the calf pen. Thinking the hogs had broken into the pen to rob the calves of their food, Easton picked up an ordinary carriage whip and went forth to straighten matters out. He climbed into the pen, and seeing a black snout inserted between two fence rails, struck it a sharp blow with the whip. A sullen snarl apprised him that he had encountered a bear instead of a hog, and he started to leave the pen to get a riff: Before he had succeeded in getting over the fence a male bear ran round the pen and seized him by his right leg. He screamed with pain and the animal released him. As quickly as his wound and his age would permit Easton hobbled to a smoke house and tried to crawl through a window. The bear pursued him, and seizing his hip, commenced to ravenously tear the flesh. Agonizing screams issued from the old man's lips. His invalid wife wheeled herself to a window. and when she saw what was taking place, she, too, commenced to shriek. Her husband, already terribly wounded, cried out : "Do not make a noise or you will be killed."

A moment later he fell to the ground and MONTREAL, Aug. 26. - A scene possibly another bear, a half-grown cub, joined the unprecedented in the history o the Prov- first animal in tearing at the prostrate man. "O Lord, help me to bear this death. O

BEAUTIFYING THE FURNITURE. There are thousands of ways of making plain and even ugly furniture look pretty and attractive and which can be done with very little expense if a woman his any gumption. I called on a lady not long since who shows marvellous taste in arranging and furnishing her home. One piece of furniture which particularly attracted my notice was a little splint bottom settee with wooden back of slats which I think can be bought anywhere for \$4. She had painted it white with occasional gilt bands and tied it here and there with bows of red ribbon, making a
