

and he was on Nancy's wheel at the quarter. There was no sound in the densely packed grand stand as the mare flew past the quarter pole in 31.4, 2.06 gait. As she started along the back stretch, trotting as true as a die, head well up, her feet striking the ground with the regularity of a pendulum...

over for the three-year-old stake, and at Sharpburg, Ky. she scored another easy victory, closing the season without a defeat and with loss of but one heat, which was the first in her career. In her four-year-old form she was very successful and last year she was only once defeated in attempts to beat time. She beat Margaret S., at Chicago, in straight heats, the last one in 2:12; and at Independence, Iowa, she beat Allerton and Margaret S. in 2:12, 2:12, and at Buffalo she beat Belle Hamlin in a mile dash in 2:16. At Richmond, Ind., September 30, over a regular track, she gained a record of 2:09 against time.

Two inches long and oval in shape, and fell with great force, doing great damage to crops. Potatoes and turnips were completely destroyed. Several people were injured by the falling limbs of trees. The width of the hail shower was about three miles. Torrents of rain fell before the hail came. Several persons were stung with lightning. Mr. Attridge's shed that was attached to his barn was completely wrecked by lightning and wind and carried some distance from its former position. A great deal of glass was broken and people were terrified, the darkness being almost total. Hay is much damaged, as well as grain.

with these Scott Act people's money when it is offered to them, and to cast their ballots according to their honest judgment and not the one that is upon which they will be called to pronounce.

An improvement on the mill at Lepreau. From Heron. That will very good and the performance of the new Marysville was a creditable one, but the Herald ignores the fact that Mr. Charles Sargent's mill (one gang) out on Friday, 12th inst., 97,865 s. f. deals in its ordinary working-day of 10 hours. This is a Miramichi mill, and not a new one either.

They turn with disgust from your platitudes about "the rights of our sex?" Because their husbands give them every right of love and kindness they want.

Chesee may be taken between the fingers, or it may be put on a bit of bread with a knife, and eaten on that, but a fork is not used with it. Artichokes are, of course, eaten with the fingers, each leaf being dipped in the dressing.

As the mare, still keeping up her beautiful gait, went by the half-mile pole in 1:03.4 a man in front of the grand stand called "1:04 at the half," a mighty yell from the crowd. "Keep quiet as the finish!" shouted Starter Walker, but the warning was not heeded. The crowd had subsided of his own accord. Its own breathless interest in the event kept it quiet. Not a sound was heard as she moved past the three-quarter pole and came into the home stretch. Abe Kenna, under the lath, moved to Nancy's trotting race. Doble spoke gently to her and her feet flew faster than the eye could distinguish them. "She'll do it; she'll do it, by God!" yelled an irrepressible enthusiast, and there was a faint yell as the fastest quarter of trotting hoofs ever heard on a trotting track swept under the wire.

This year she has made several unsuccessful attempts to lower her record, and last week, at Grand Rapids, Mich., with the advantage of a magnificent sulky, she trotted in 2:09, the track being a trifles low.

The recent freight appears to have made havoc of roads and bridges in many sections of the country, particularly in this county and Gloucester. The destruction done on the Bathurst road is, as far as heard from, very great. A gully about twenty feet long and ten feet deep was torn out of the highway at the north end of the Bathurst bridge. The bridge, fortunately, higher than its north approach, and had not a part of the abutments and roadway on that side given way, the whole structure would, in all probability, have been destroyed.

A first class programme of athletic games and amusements, including horse racing, boat-racing, sack-racing, lawn ball, matches of war, etc., will be carried out by an efficient committee of gentlemen, who will do all in their power to provide for the happy enjoyment and innocent and orderly recreation of all who patronize the entertainment.

Drummond, Quebec, had the Scott Act in force for seven years, until Thursday last, when it was repealed by a large majority. Four years ago there was an election for repeal, when the Act was sustained by its great majority. Experience with its working, however, demonstrated its inefficiency to control and reduce the traffic and the present result has followed. Notwithstanding it is to vote on the same question within a few weeks and the indications are that the electors will show they are tired of a measure of local prohibition that doesn't prohibit.

Setting aside all considerations of the morality of prize fighting, of its tendencies to lower the standards of the refinement of persons who read about or witness it, there can be no question concerning the general interest attending the training of John L. Sullivan, at Bay Head, L. I. Even in the present civilization the perfect development of the body is ambitiously striven for, though seldom attained. Health and strength are two great factors in success, no matter what may be the means chosen to attain it.

All praise is eaten from a fork, and it is as well to get your knife no use except for cutting or buttering something, and when it is roasting it should be laid sideways on your plate. Every vegetable can be eaten with a fork, the use of a spoon being limited to a few desserts and for your coffee and tea, and there is its place in to repose in the cancer. Bouillon is drank from the cups in which it is served; when it is jellied it is eaten with a dessert spoon. Nothing excuses the chasing of a small particle of something to eat around your plate to polish it up. The old idea that one must eat everything that is given to one no longer exists, and the result is that children are no longer made glibbers.

There was a moment's pause, a hasty counting of watches and then an umbrella was held up to the air from near the grand stand. It was accompanied by loud lunged howls and then Doble broke loose. Hats, canes and coats were tossed wildly in the air, men slapped each other on the back and shook hands with each other in sheer delight. Incidentally they kept on yelling. The load cheers which went up told Doble even before he had slowed up that the record was broken and as he came back to the judge's stand his face was covered with a smile as wide as the visor of his cap. He had said that Nancy Hanks would be held to record and she had done it. As he stepped from his stand he was surrounded by men who were wrung his hand again and again. When he had a chance to use a hand he lifted his cap in acknowledgment of the cheers of the crowd. Loud calls for "Doble, Doble" went up, and the veteran reinsman, climbing into the grand stand, again removed his cap from that head which holds so much knowledge concerning trotters, and bowed respectfully to the wild applause that greeted him.

His hair was made several unsuccessful attempts to lower her record, and last week, at Grand Rapids, Mich., with the advantage of a magnificent sulky, she trotted in 2:09, the track being a trifles low.
