No CHOLERA. - There is no truth in the rumors afloat yesterday and to-day that a case of cholera had been discovered at Yarmouth.

Neither is it true that there is cholera at Banger. A despatch to the Globe says the report arose from the fact that a man in a camp near Moosehead Lake was taken with cramps, was removed to his home at Bangor and died. The doctors made a thorough investigation, but found no sign of cholera.

The truth is there is no cholera this side of New York, there have only been five or six cases there altogether, no new cases have been found since Tuesday last, and no alarm is felt in the big city.

There is no cause for alarm in St. John. and people should keep cool .- Globe 19th.

To BE DISINFECTED:-In accordance with instructions from the Postmaster General before being delivered. Postmaster Hanington has had a small room in the top of the building fitted up for the purpose. A wire netting has been strung around the room on which the mails will be spread out. Then a sulphur fire will be lighted and the doors closed. The fire will be allowed to burn about two hours, as it is thought every westige of disease will be killed in that time. The mails from New York arriving both morning and afternoon will be disinfected, but nothing will be done with mails from other points in the United States. This will be continued till all evidences of cholera have disappeared. Globe 19th.

THE CARROLL SAFE:-The steamer "Carcoll," from Halifax, reported overdue at Boston with sixty cabin passengers, was towed into Booth bay harbor, Maine, on Sunday at 10.30 with machinery disabled. The fishing schooner "Maggie E. Mc-Kenzie," fell in with the disabled steamer on Saturday at 6 p. m., 70 miles southeast of Seguen, and laid by her all night, it being too rough to render assistance. On Sunde at 7 a. m. the steamer was boarded and supplied with provisions, and then taken in between the Railway Bridge and Derby Neales, solicitor for defendant, Malcolm tow by the "McKenzie." ANOTHER OLD RESIDENT of Bartibog, in the person of Mrs. Connell, relict of the late Michael Connell, has joined the silent majority at the age of 76. She died on Monlast week. Mrs. Connell and her late ad were amongst the pioneer settlers of Bartibog district, going there when the road between Chatham and Bathurst was little better than a bridle path, and assisting in establishing a community that, although still a rural one, is distinguished for the sturdy independence and industry of its people. His entire letter in the Weslevan is as wide of the real uestion involved as is his opening sentence. My letter in the Gazette of the 23rd of the doors and chairs had to be placed in the August was not written to institute charges against the Rev. Robert S. Crisp. It was not written for the purpose of putting the Rev. Mr. Crisp on trial before the conference. I did not intimate that I wanted to appear before the conference to prove charges against Mr. Crisp. To put the case in that way is illogical and misleading and mischievous. What I wanted was, and what I now want is, to bring myself before the conference, or in other words to have my case reconsidered by the conference. There is a wide difference between putting such should be the result the conference the evidences of Christianity could rely upon would know in what way to deal with Mr. the human conscience to resist the onset of

I want the charges that have been laid against myself to be reopened and I want the Rev. Robert S. Crisp to be a witness in my case. I would not deem it advisable for me to involve myself, or my witnesses, in an expenditure of time and money on account of Rev. Mr. Crisp. But to bring out the whole truth in reference to my own case is an entirely different matter.
