

Miramichi and the North Shore, etc.

See Mr. Ward's Boot and Shoe advt. "Zephyr"—See announcement for the season. EARLY ROSE SEED potatoes. See Mr. W. S. Legg's advertisement. POLICE—Chatham has now two policemen—Messrs. Kelly and Wood. That's right. FURNITURE &c.—See Mr. Ward's advt. PRICE WEBBER is coming. Read the account in our advertising columns. ROBINS are adding their familiar and pleasant notes to the other evidences of spring. TA-RA-RA BOOM DEAT, vice Little Annie Rooney, deceased, is the popular vocal horse. "MIRAMICHI" will probably begin running on her usual route for the season early next week. MR. CREAGHAN makes an interesting announcement to dry goods buyers and shoppers generally.

proving that (1) no nets used for the purpose of catching mackerel, herring or spruce hake shall be set or left set on the surface or within twelve feet thereof in the water between the hours of 9 a. m. and 5 p. m. between 1st June and the 31st of August in each year; (2) no fleet of gill nets of a greater length than sixty fathoms shall be set to any single mooring between the 1st day of June and the 31st day of August. Contravention of these regulations renders the persons caught liable to heavy penalties. FIRE-BUGS at Newcastle have been charged with burning several buildings, and are, naturally, a great desire on all hands to detect them. The detective force is organized on an independent basis and the right wing don't know what the left wing is doing. A correspondent furnishes an account of an interesting detective episode in our prominent firewards played an amusing and well-intentioned part, arresting some of their own number on suspicion, simply because one of the party was seen lighting a match, and afterwards disappearing in a ditch while fighting at his companion for applying Shakespearean quotations to their midnight perquisitions in search of incendiaries. It will be a serious matter for the "bugs" however, if they are caught, and we hope they will be.

lumbering, was 20 years with the Dominion Government as fishery inspector. He erected the famous fish-breeding establishment on the Restigouche. Mr. John P. Mowatt started salmon exporting in immense quantities, erecting large freezers, some 15 years since. He made the first shipment of frozen salmon to London, England, in 1879, and shortly afterwards sent a huge cargo to Germany amounting to \$54,000, the shippers netting a profit in the transaction of \$10,000. In 1888 he erected large freezers in British Columbia and brought that season to the United States and Canada 200,000 lbs. of frozen fish from the Fraser river. Mr. Mowatt controls receivers and freezers all along the Baie des Chaleurs from Campbellton to Gaspe, the frozen fish being shipped to the United States markets in his own vessels. He is also largely engaged in the cedar shingle business with two large mills. He exports cedar and timber to Great Britain, giving employment to over 100 men in his branch. He introduced and is the manufacturer of the noted sugar cured salmon which is so favorably known. He has gained much experience in travelling, not only throughout the Dominion and the United States, but he has also across the Atlantic. He has had his buildings twice burned down, and met with an accident without compensation for 15 months, yet by his indomitable energy and wonderful constitution he has succeeded in building up these large industries and always managing to look after his increasing business in its various branches. Mr. Mowatt is a town councillor. The first officer appointed by the government in the fishery department in the Restigouche district was a Mowatt and the position is held in the family to this day. Among the many successful business men in Campbellton, Mr. A. McG. McDonald, the popular chemist and druggist has attained considerable prominence. Seven years ago Mr. Belonie LeBlanc, manufacturer and dealer in fine boots and shoes, opened a store in Campbellton. Only fine goods are manufactured. This notice would not be complete without a complimentary word about J. E. Price, of the I. C. R., J. M. Allister, M. P., and Desmond's hotel, closely adjoining the station, the proprietor of which is quite a favorite with railway men and a large portion of the travelling community. Tourists should have a trip to Campbellton and the Restigouche valley in the summer months, to admire the scenery of this smiling country, participate in the salmon and trout fishing, for which the vicinity is celebrated, enjoy the boating and bathing in the waters, visit the many historic spots in the neighborhood, and linger a while in one of the finest regions for sport in the continent.

ed, and to see the light part taken in the homage by many of these present. Many never condescended to bend the knee, but lounged back in sumptuous indifference, while at the close there came but a feeble and meaningless amen. It was not worth the church needed so much as the deep, spiritual power of prayer: standing, which was scriptural and implied service; kneeling, which betokened consciousness of sin; and another which was so popular among an elegant people of modern society, it was that of sitting and implied equality. If in the presence of the Queen, they would know that they had no right to sit, and would never attempt it, and yet they would do so in the presence of God. They apparently felt themselves the equal of Him. Altho' God's awful majesty was there, they assumed the right to sit. Strong, able-bodied men rolled back in their seats, and the occupants of pews cried out that they were miserable sinners, while the carpets in their richly furnished pews had never been touched by the benediction kne.

LIST OF VESSELS IN TRANS-ATLANTIC TRADE WITH NORTH SHORE PORTS SECTOR OF 1892. Miramichi. America, Flag, Reg., Tonnage, Master, Port, Last reported.

BASE BALLS—The opening juvenile match game of the season is to take place at Newcastle on Saturday evening, a Chatham nine captained by Frank Sadler and a Newcastle nine by Hubs Sinclair. BOOK-BINDING—Persons having magazines, or other periodicals to bind, old books to be rebound, or any similar work, can have their orders attended to at the ADVANCE office, where information as to styles, prices etc., may be obtained. JOHN JARDINE, Sr., of the firm of J. & T. Jardine, of Jardineville, Kent, died last week. Mr. Jardine was in his 80th year. He had carried on for a great many years a shipping and mercantile business, and was very generally respected. GOING TO MONCTON—The Moncton Times is responsible for the statement that "in consequence of the recent changes in the running of trains on the Northern division of the I. C. R., eight railroad men will remove their families from Newcastle to Moncton at an early date."

Death of Arthur Johnston, Esq. One of the oldest and best known residents of Chatham—Mr. Arthur Johnston—died on Tuesday morning about six o'clock, at the age of 73. Mr. Johnston served for twenty-one years and six months to the British army, in the second regiment, and had three good conduct and service medals, his services being chiefly in India. He has lived for more than thirty years in Chatham and drawn the pension to which he was entitled during that time. He was a much respected citizen. A New Departure. Mr. R. Fairman of the Newcastle foundry had a fine pig in his possession last week. There were no bones in it however, for it was a pig of lead of his own make, but shaped on lines beyond his control, the pattern and lead being furnished by John C. Miller, Esq., of Millerton, who is addressing his well equipped mill, and mechanical genius to the work of producing such on the most approved modern lines. The lead pig was cast by Mr. Fairman, and it is said he has made a good job of it, and that in saying a good deal for a solid piece of that heavy metal 13 feet long and 15 inches deep, with a width of 7 inches in the centre and four inches at each end, the weight being given as 5,000 lbs. "It couldn't be that much?" said some of those who were discussing the weighty subject, and almost everybody thought Mr. Fairman was quoting the weight of the casting rather than the mark, but, after all, there are, according to the dimensions given, about 77 cubic feet in it, and as a cubic foot of lead weighs a little more than 708 lbs., it seems that the pig is a strong five thousand pounds.

Church Officers. In addition to the church officers reported elected last week, we have the following Easter Monday returns: Church Wardens: Wm. Hudson and Jonathan Foster. Vestrymen: J. H. Abbott, O. Smith, W. A. P. Rhodes, Thos. Dickinson, W. A. D. Steven, John Stevenson, Fred E. Sayre, David Palmer, Allan Fries, John W. Wathen, James E. Atkinson and David T. Wathen. Organists: Richmōnt, Miss E. Hannah, Kingston, Mrs. R. Law. Delegates to the Synod: John Stevenson and O. Smith. Substitutes: W. A. D. Steven and Allan Haines. Sexton: Robert Cochrane. Vestry Clerk: Wm. Hudson, jr. DALHOUSIE. The following were elected at the meeting held in St. Mary's church on Easter Monday: H. A. Johnson and Hon. J. C. Barberie, wardens; J. S. Morse, W. S. Smith, Alex. McKay, N. M. Bateman, Stockton Barberie, W. G. Diabrow, M. D., and Capt. C. Powell, vestrymen; W. S. Smith, vestry clerk; Messrs. Johnson and Morse, delegates to synod and D. C. S.; Hon. J. C. Barberie and Alex. McKay, substitutes. Campbellton. (H. McL. in the Toronto Enquirer.) The first stopping place in New Brunswick is the camp town of Campbellton. Campbellton was formerly known as Martin's Point, so called from one Martin, who it is said, built the first ship launch in the County of Restigouche, but the present name was given in honor of Sir George Campbell, Governor of the province in 1831. The district of the Restigouche was occupied by British settlers as far back as 1773, who came out from Scotland to develop the salmon fisheries, and promote a trade with Great Britain. The only inhabitants then on the river were the Micmac Indians, who still hold a reserve of 840 acres at Cross Point, just across from Campbellton, where a Roman Catholic mission has been sustained for more than 200 years. The situation of Campbellton is quite historic and beautiful, lying as it does at a point where the broad picturesque Restigouche unites with the bay that has no rival on the North American sea-board. Campbellton has a population of over 2,500. It is situated in the parish of Arlington, is well laid out, having fine broad streets, fine houses, comfortable residences, good schools and churches—in short, a growing, progressive town, filled with an industrious and enterprising people. FAMOUS FOR CHURCHES. The moral and religious tone at once impresses the stranger. The buildings of all religious denominations are not behind the steeple houses in the province—Episcopal, Roman Catholic, Presbyterian, Methodist and Baptist, all can be pointed to with pride. Campbellton has enjoyed a healthy growth in population and trade, new buildings are steadily going up, and the town is not behind in those essential elements which tend to sure prosperity. It is a central point on the Intercolonial, and some of its best and neatest homes are owned by railway officials and employees. In fact without the monthly pay of the I. C. R. Campbellton merchants would suffer. The medical and legal professions are well represented, and the surroundings of the town at once impress one. A healthy climate prevails, and in fact, everything calculated to influence a judgment favorable to the town and to the district. Admiration from every visitor is a result of the possession of a commodious and modern hotel, which cannot fail to attract a great number of tourists year by year. A large curling and skating rink has recently been erected, and other public buildings are about to be constructed. SOME OF THE ENTERPRISES. Among the more important enterprises are the lumber and shingle mill industries, which have materially aided to the prosperity of Campbellton. Foremost among these, with a few other interests, reference is especially due to the successful business conducted by the present mayor of the town, Alexander's lumber and shingle industries. In the general dealing trade of Campbellton Mr. A. E. Alexander occupies the leading position. He has acquired an excellent reputation for the reliable and substantial manner in which his large business is carried on. Mr. Alexander has invested largely in real estate, and owns a number of houses in town. He was elected to the position of mayor by a large majority, and has filled other important offices. His chief business, however, is in lumbering and cedar shingles. He controls large lumber camps up the Restigouche west of the town with an output of \$25,000 worth last season. Already running several shingle mills in the district which are kept busy night and day, Mr. Alexander is completing a large mill for this industry equipped with 10 machines of the most improved kind, to be ready for operation in June next. A huge smoke-stack and an engine capacity of 160 horse-power, fitted with new furnaces entirely consuming all refuse, with the latest new cedar mill machinery, will make it one of the largest concerns in the Dominion. THE FROZEN FISH INDUSTRY. Mr. John P. Mowatt, who is so largely engaged in the export of frozen fish from the Restigouche district, came to Campbellton in 1877. His father, John Mowatt, settled at Desisle on the Restigouche in 1835, and, after spending many years

Young Men's Christian Association of Chatham. Meetings held every week in their rooms upstairs, Harry's Building, at 10 o'clock, on Sunday morning at 10 o'clock, for Prayer and Praise. Monday evening at 8 o'clock, for Bible Study. Tuesday evening at 8 o'clock, for Training class. All young men are most cordially invited to all of these meetings. "Golden Medical Discovery" cures those diseases which come from blood impurities—scrofula and skin diseases, sores and swellings. But does it! It's put up by the thousands of gallons, and sold to hundreds of thousands. Can it cure as though it had been compounded just for you? Its makers say that thousands of people who have had Teiter and Salt-rheum, Eczema, and Erysipelas, Carbuncles and Sore Eyes, Thick Neck and Enlarged Glands, are cured because they use it. Suppose that this is so. Suppose that a quick-witted man was far-seeing enough to know that to cleanse the blood was to cleanse the life. Suppose that by many experiments, and after many failures, he discovered this golden key to health and that his faith in it for you is so strong that you can go to your druggist, buy a bottle, and if it doesn't cure you, you can get your money returned—cheerfully. Will you try it? The remedy to have faith in, it is the remedy the makers themselves have faith in.

Halifax, April 22.—The Furness Line steamer Incheula arrived early this morning, 12 days from London. Captain Newton reports fine weather for the first four days of the passage; then strong westerly breezes for the next four days and light N. W. wind the remainder of the trip. They crossed the banks north of 45.30 and on Tuesday met two icebergs of medium size. Yesterday morning when 60 miles E. by S. of Cape Canso, the steamer met a heavy field of ice; they went around the edge of it and were obliged to go south 60 miles. They sighted Cape Canso and the ice was close in shore and extended as far north as the eye could reach. THE PROHIBITION COMMISSION. MONTREAL, April 20.—The third and, for the present, the final session of the Royal Commission on the question of prohibition took place yesterday in Standard Buildings and when the members rose it was understood that they were not to meet again until called by the chairman, Sir Joseph Hickson. In fact, only three of them were present yesterday. Mr. G. A. Giguault did not put in an appearance at all, and ex-Mayor Clark, of Toronto, left for home before the session took place. The remaining members, Judge Herbert S. Macdonald, of Brockville, Rev. Dr. McLeod, D. D., of Fredericton, and Sir Joseph Hickson, were occupied in arranging the preliminary details as to the form in which the tabulated statistics shall appear. It is not likely that the members will meet again until they are ready to start upon their journey through the country, which will probably take place in June next. For the present the secretary to the commission, Mr. P. Monaghan of Halifax, will remain in town in order to classify and arrange the mass of information now pouring in upon the much vexed question of the liquor traffic. ALEX. MACKENZIE. Quebec Chronicle: Men called him grand, because he refused to allow them to grind their axes on his gristlestone. They called him stupid because he was not "smart" enough to see the political knave, or to see his position for the ulterior ends of the consequences, follows in his party. In his day, he was criticized unmercifully, by a rabid and truculent press. Now the same press preach his virtues, and sing psalms to his memory. At last justice has been done him, and Canada mourns the loss of a great and distinguished man.

PUBLIC WEALTH—The contract for building the proposed public wharf at Douglas-town was taken at public competition on Tuesday by Mr. Benjamin Flood, who is also contractor for the Negro's Dominion Government wharf, at \$935. It is to be completed by June 1st. FIRST ARRIVALS—The first arrival on our harbor this season was the schr. Minnie Scott, Capt. Kennedy, from Sumner, which reached Chatham on Monday afternoon. She was closely followed on Monday by the schr. Frank, Capt. Miller, from Tiquish, which proceeded to Newcastle. TEMPERANCE MEETING—There will be a public temperance meeting in the Temperance Hall, this Thursday evening the 28th inst., under the auspices of Chatham Lodge, No. 150, I. O. G. T. All are invited to attend. W. R. Robinson, Esq., Grand Sect., and others will address the meeting. Lecture to commence at 8 o'clock local time. THE MALCOLM TAYLOR business "boots up severely" in the Royal Gazette, which contains an announcement by Messrs. David J. Johnston, John Richardson and Thomas Phillips. Deeds say that they have been appointed trustees of the absconding or concealed debtor. David J. Johnston, no doubt, meant, instead of David J. Johnston, as the Gazette is noted for the incorrectness of its proper names.

Death of Arthur Johnston, Esq. (Continued). This pondorous piece of metal is to form a part of the work of producing such on the most approved modern lines. The lead pig was cast by Mr. Fairman, and it is said he has made a good job of it, and that in saying a good deal for a solid piece of that heavy metal 13 feet long and 15 inches deep, with a width of 7 inches in the centre and four inches at each end, the weight being given as 5,000 lbs. "It couldn't be that much?" said some of those who were discussing the weighty subject, and almost everybody thought Mr. Fairman was quoting the weight of the casting rather than the mark, but, after all, there are, according to the dimensions given, about 77 cubic feet in it, and as a cubic foot of lead weighs a little more than 708 lbs., it seems that the pig is a strong five thousand pounds.

BIG FIRE AT DOAKTOWN. Harvie Doak's barns burned—Calves and Sheep Roasted! Agricultural implements, etc., destroyed! The Public Hall and Baptist Church Consumed! Other Properties Ignited, but saved! Fields and a graveyard burned over. DOAKTOWN, APRIL 25th. [SPECIAL CORRESPONDENCE OF THE ADVANCE.] Yesterday, the wind blew a strong gale from the west. At one o'clock Harvie Doak's barn was observed to be on fire, the smoke coming through every crevice, while the family were at dinner. Mr. Attridge gave the alarm from below and Mr. Swim from above. A great many people ran to try and save the building, but the heat and smoke were so great that it drove every person away. The horses were with difficulty, got out, some calves and sheep however, could not be rescued. Wagons, agricultural implements, hay, oats, threshing mill and many things too numerous to mention were consumed. The flames swept about and cinders fell on the public hall and school house, which were consumed in one. This divided the force and water being farther to haul and carry, the flames got the mastery. The crowd removed a great deal of the furniture, which was much broken by excited people, who would throw valuable articles out of upstairs windows, causing people below to have narrow escapes from being killed. The flames also caught in the dry stubble and spread to the adjoining fields, running to Mr. W. Robinson's place, which was saved with great difficulty. Every scholar was pressed in service to put out the fire that was running wild on the grass. The Baptist church was next on fire, which further split up our forces, but a good fight was made for it. Water and ladders were hard to get. H. Swim mounted the burning roof but scarcity of water made him unable to hold his position and he was driven down. Mr. Samuel Fresse forced the door with a log of wood, and he and his wife and Miss Adelia Attridge forced the two organs out of the door. Additional numbers now rushed down from the schoolhouse and succeeded in saving the seats and library before the building was destroyed. The fire burned all over the burying ground and the fence was saved with difficulty. At same time of the alarm of the church being on fire, a similar alarm was given that Mr. Attridge's premises had caught. Mr. A. gathered what hands he could and ran to the rescue. He found his wife had kept the fire in check alone, so now, with the water from the well, the roof was down, and putting it out when it would catch, they were confined in one of Attridge's premises. The widow Fresse's house and barn were, with difficulty, saved. The community have suffered a great loss in the school house and church. Mr. Doak's loss is also very great, but Doaktown is full of pluck and energy and will not be long in replacing its buildings by better ones. The fire is attributed to different causes. At this season the conditions are favourable for fires by passing trains and it may have originated in that way. At all events great watchfulness is needed by property owners.

Campbellton Civic Election. CAMPBELLTON, N. B., April 19.—The civic elections for this town took place today and resulted in the election of an entire new council, except one, and the mayor. The candidates for the mayoralty were A. E. Alexander, the late chief magistrate, and Mr. W. A. Mott, barrister-at-law, a native of this place and an exemplary young man in every particular. Of course the chief interest was in the mayoralty contest, the election of the councillors being merely a side issue as it were. The contest was a hot one throughout and almost every voter in the town was polled. The retiring mayor has been a good official and untiring officer in every particular, and he leaves the chair with a clean record, and while the town has lost a good official, we are confident that they have also a zealous official and a thorough gentleman in the person of Mr. Mott to govern the affairs for the next year. The councillors elected for the town are as follows: Ward 1, Asker and Taylor; ward 2, Adams and Parker; ward 3, Sprout and Ducaud. NEWS AND NOTES. HE IS LARGER THAN JEMBO. NEW YORK, April 18.—Rajah, a big elephant, who came from East Indian ports on the steamer "City of Bangkok," reached this city this morning. He came from Rangoon, is about 40 years of age, and is said to measure 11 feet 11 inches in height or two inches more than Bannam's famous Jumbo. SMALL-POX BROUGHT FROM CHINA. VANCOUVER, B. C., April 22.—On the arrival of the C. P. R. steamer Empress of Japan here, with a large number of Chinese immigrants on board, it was discovered there was a case of small-pox among the celestials. The steamer was ordered into quarantine and the Dominion government advised of the matter. MRS. PARNELL AND HER TENANTS. DUBLIN, April 21.—At the Wicklow session today Mrs. Parnell, brought a suit against 12 of her tenants for non-payment of rent. Several applications were dismissed by the court on the tenants producing receipts which their rent was not due. In other cases tenants refused to pay unless an abatement allowed by Mr. Parnell sometime before his death, was given them. SHYLOCK WAS RIGHT. ZANZIBAR, April 22.—Tribal fighting has taken place at Uganda between the Protestant and Catholic converts in that country. King Mwanga, the ruler of Uganda, who was leading the latter forces, killed the principal Protestant chief, Capt. Lugard, the Agent of the British East Africa Company, and under the role control and management of Mr. Geo. P. Scobie. Said horse will make the season in charge of Mr. James Conway, groom, in Chatham, New Brunswick, every Saturday, Sunday and Nelson parish. He will be at Mr. Stothart's, near the Chatham Ferry, every Monday morning and Wednesday afternoon, and will be in the Monday nights—going alternate weeks up the Northwest and Southwest Miramichi rivers, and being at Mr. George P. Scobie's farm, Chatham, every Saturday. TERMS:—For season, with foal, \$5; no foal, half price. Following is Zephyr's certificate of registry: [Translation.] SOCIETY OF THE AGRICULTURAL FISHERIES, AVENUE DE L'OPERA 21, PARIS. The Stud Book Commission for horses of France, certify that after careful examination and verification they have admitted to their register this 15th Sept., 1892, the following Percheron horse, foaled in 1882, said by Bernard, dam Julia, color grey with white on the forehead, hind legs and tail, said Zephyr's number in the stud book being 1256, and dam said to be pure blooded French bred horse. Signed by the President of the Commission, EUG. GUYOT. This certificate that the above registered horse has been sold to D. McMillan. G. PIERRE.

IMPORTANT NOTICE To Store Keepers, Traders, and the General Public. PEREMPTORY SALE OF SPRING AND SUMMER DRY GOODS. THE ENORMOUS stocks of SUTHERLAND & CREAGHAN both at Chatham and Newcastle, thrown on the market regardless of COST or consequences. \$75,000.00 worth of new and seasonable merchandise to be sacrificed—no reserve—all must go. Having purchased for spot cash the stock and real estate at Chatham and doubled the capacity of the premises, I have decided to continue the business at Chatham as well as at Newcastle on my own account. My long business experience of 18 years on the Miramichi, and the kindness I have always received, impel me to make greater efforts to please the public—who will find my stores at Chatham and Newcastle first-class warehouses in every respect. Ladies will have no cause to send outside for goods or samples. The very latest designs can always be found on my counters as soon as they leave the makers' hands. I have just returned from a business visit to the leading centres of trade in the United States and Canada having selected large lots of the latest novelties for spring and summer wear. As competition is a test, I respectfully invite keener comparison and inspection of these merchandises—no trouble to show goods or give samples.—Chatham and Newcastle. J. D. CREAGHAN, Successor to Sutherland & Creaghan. HALIFAX! JAMES A. MORRISON, COMMISSION AND GENERAL MERCHANT. SPECIALTIES: TEA, SUGAR AND MOLASSES. AGENT FOR: WARREN CAKEBREAD & CO., TEA MERCHANTS, LONDON, ENGLAND. DACOSTA & CO., BARBAODES, W. I., AC. AC. Reference: Thos. Fysha, Esq., Manager Bank of Nova Scotia.

THE LIGHTSHIP lost her mainmast in an attempt to leave her dock for calking, and she was brought to Chatham on Monday to be hauled out for that and other repair purposes. The old craft will, therefore, be very late in getting into position. It has always been a matter of wonder with shipmasters and others well informed on such subjects, why so important a service is performed by a second-hand schooner instead of a properly constructed lightship. ROYAL SCARLET CHAPTER.—At a meeting of the Royal Scarlet Chapter of Orangemen held in the Temperance Hall, Newcastle, the following companions were elected officers: D. Morrison, W. C. in C. Daniel McQuarrie, E. C. in C. R. Fairman, Chas. O'Donnell, Treas. S. A. Russell, Scribe. Thos. C. Hill, D. of C. F. Reid, Sir H. K. at Arms. Keith Anderson, O. H.

THE CONWAY SCOT CASE CONVICTION REMOVED. (St. John Sun News.) SUPREME COURT AT FREDERICTON. Ex parte James Conway.—Solicitor General Pugsley moves for a rule nisi to remove a C. T. A. conviction made by Police Magistrate McCullay of Chatham against the application on the following grounds: (1) The conviction was made in the absence of the defendant who was not served with the sum-

MONCTON, APRIL 25th. [SPECIAL CORRESPONDENCE OF THE ADVANCE.] Yesterday, the wind blew a strong gale from the west. At one o'clock Harvie Doak's barn was observed to be on fire, the smoke coming through every crevice, while the family were at dinner. Mr. Attridge gave the alarm from below and Mr. Swim from above. A great many people ran to try and save the building, but the heat and smoke were so great that it drove every person away. The horses were with difficulty, got out, some calves and sheep however, could not be rescued. Wagons, agricultural implements, hay, oats, threshing mill and many things too numerous to mention were consumed. The flames swept about and cinders fell on the public hall and school house, which were consumed in one. This divided the force and water being farther to haul and carry, the flames got the mastery. The crowd removed a great deal of the furniture, which was much broken by excited people, who would throw valuable articles out of upstairs windows, causing people below to have narrow escapes from being killed. The flames also caught in the dry stubble and spread to the adjoining fields, running to Mr. W. Robinson's place, which was saved with great difficulty. Every scholar was pressed in service to put out the fire that was running wild on the grass. The Baptist church was next on fire, which further split up our forces, but a good fight was made for it. Water and ladders were hard to get. H. Swim mounted the burning roof but scarcity of water made him unable to hold his position and he was driven down.
