at the instance of two members of the school board who were Protestants belonging to Mr. Thomson's congregation. The Bathurst town people have arranged, however, to substitute the Superior school for the Grammar school, and the person who has been en ployed as teacher of the Superior school Bathurst village will be the teacher of the Superior school which is to be established in Bathurst town to take the place of the

Grammar school. The action in regard to the abolition these schools was taken without the slightest reference to religious matters or

WITHOUT ANY PRE-ARRANGEMENT. and was simply due to the ratepayers being unwilling to pay so much for the main tenance of high schools which were attended by such a small number of pupils.

The Bathurst school "difficulty" never has stence in the breasts of the ma Protestants there, and has been by one man, Mr. Thomson whose actions in regard to it have been disapproved by leading members of his own congregation.

There never has been any change in the regulations made for the benefit of Bathurst since 1875, and the schools there are worked under precisely the same rules as those o St. John, Fredericton and other communi ties where there is enough population to maintain e than one school.

It appears to be only necessary that such men as the rev. Thomson should be induced to show themselves in their encouraged him to believe that he had only to go to Queeus and put the finish ing touuches on the work of that erration caterer to the supposed ignorance of th electors of that County. The rev. gentleman's malignity towards the hated Blair, and his inordinate self-conceit, together with prepaid expenses, induced him to leave his "parish" charge and become a political missionary, but when he reached the field, which he was induced to believe was white for the harvest, he was informed, in a friendly way, that he was a misfit and had better go back to Bathurst Village or betake himself to any other place where he would be out of the way of the Queens County opposition, who had made up their minds that they didn't want him, just as soon as they saw him. It was well-known that Mr. Stockton had expressed the opinion that "Thomson was a much better ally outside of Queens than in it" which together with the cool reception he met with at Chipman, was the reason, no doubt, for the contemptuous opinion the rev. gentleman expressed concerning the good looking but otherwise "no good" leader of the opposition. Then, when he managed to secure interviews with Mr. King and Mr. Blakney, he is said to have acted as if he believed they were all together as true blue orangemen in solemn and secret conclave. but he ought to have known that the whole village had sized him up as an "innocent" whose leg was suffering to be "pulled." After being "passed around" for a few days he came to the conclusion that "brother

Pitts" had misled him and that he had bet

ter go home-and he went.

The Sun of Tuesday contains a letter from Mr. Thomson, indicating that he thought his interviews with Messrs. King, Blakney and other gentlemen he sought to convert to his political and religious views, when he made his visit of last week to Queens county, were all "confidential." He is very angry over the results of his mistakes and makes undignified references to his supposed con-Edants on that occasion, and then turns upon his neighbors in Bathurst and even upon thi community. In fact, it is evident that he was entirely unprepared for a continuation of the non-appreciative treatment he has everywhere received for years. He left his flock in the Village, which has been scattered and largely disgusted by his conduct, expecting to have a great reception wherever he went, especially in Queens. He imagined that he would be everywhere recognized as a second King William or Martin Luther, but his disappointment may be imagined when everybody seemed to to Bathurst, he indited his letter gambling dens." This shows the kind of exonerated from all reponsibility. clergyman he is, and how madequately he appreciates the wisdom of not giving him self away. Reputable Presbyterians of Chatham-without a dissenting voice-are congratulating themselves over the fact that they sized him up so accurately when presented himself as a candidate for the pastorate of St. Andrew's church here, and received only one solitary vote in all that large and influential congregation. He should take his rejection on that occasion with better grace than to thus assail a town an which he could find only one person who failed to detect his worthlessness, incapacity and un worthiness as a christian minister and citizen-and that too before he made such a public exhibition of his defects as he has done in this Bathurst School matter.

It has a handsome plate glass front and side windows. The fixtures in the store, however, are the great features of the premises. The shelving and drawers, which extend along each wall, and the dispensing counter in the rear of the store are all of solid oak, and present a handsome appearance. A large plate glass mirror 3x8 feet stands in the centre of the dispensing counter, while on each side of it are small colored glass divisions. The floor is made of birch, cut in strips 13 in. wide, and adds considerably to the general effect.

Back of the main store is the store room and laboratory and also private office Beneath the whole premises is a good cellar and work room and also the hot air furnace which heats the store.

The fixtures were made by The Oxford Furniture Company of Oxford, Nova Scotia, and are certainly a fine piece of work. The whole establishment, which is lighted

Headache

is needed. Aver's Pills, the mildest and most reliable cathartic in use, correct all irregularities of the stomach, liver, and bowels, and, in a brief time, relieve the most distressing headache. These pills are highly recommended by the profession, and the demand for them is universal. "I have been afflicted, for years, with headache and indigestion, and though I spent nearly a fortune in medicines, I never-found any relief until I began to take Ayer's Pills. Six bottles of these Pills completely cured me."—Benjamin Harper, Plymouth, Montserrat, W. I.

"For the cure of headache, Ayer's Cathartic Pills are the most efficient medicine I ever used."-Robert K. James, Dorchester, Mass. edies, I have become convinced that Ayer's
Pills are the best. They never fail to relieve
my bilious attacks in a short time; and I am sure my system retains its tone longer after the use of these Pills, than has been the case with any other medicine I have tried."— H. S. Sledge, Weimar, Texas.
