Miramichi Advance.

CHATHAM, N. B., DECEMBER 1, 1892.

The Jaffa and Jerusalem Railway. The first railway line in Syria and Palestine, connecting Jaffa with Jerusalem, was opened on September 26, by the Governor of Jerusalem, Ibrahim Hakki Pasha, and by the Sultan's Special Envoy, Djial Pasha, General and Aide-de-Camp of his Imperial Majesty, in presence of several distinguished officials of the Ministry of Public Works, who arrived purposely from Constantinople to witness the event, and to examine the works to see if the line were constructed in accordance with the plans and terms of the concession. The president of the railway company and several other gentlemen and engineers arrived also from Paris for the occasion. All the inhabitants of Jerusalem and the neighboring districts gathered near the railway station; most of them were struck with amazement. A banquet was given by the railway company. The line is now open for traffic; two trains run every day from Jaffa to Jerusalem and the opposite way, passing by the towns of Ramleh and Lydda and several villages. Intending tourists may now be assured of finding comfortable accommodation on their journey to Jerusalem. Starting from Jaffa in the afternoon at two o'clock, they reach Jerusalem in three hours and a half, arriving in the Holy City between six and seven o'clock in the evening.

In these days we consult Baedeker, who informs us that Jaffa pronounced Yafa, is a town with some extent of wheat, sesame, grain, oranges, silk and soap; a landing place, of course, for thousands of Mussulmans, Jewish, and Christian pilgrims, the residence of a Turkish kaimkum subordinate to the Pasha of Jerusalem. The harbor, for small vessels only, is a basin formed by natural rocks under water and by the remains of ancient works of masonry; its northern entrance, by the mole or pier, is endangered by sandbanks, and that from the northwest is very narrow. Larger vessels and steamers anchor in the roads half a mile from the shore; passengers are landed by the boatmen. The town, built of tufa, with narrow, dusty streets, lies on a yellow beach, at the foot of a rock 116 feet high; to the north are orchards and palm trees. There is a Greek monastery on the quay, and a Latin hospice, founded in 1654, said to occupy the site of the house of "one Simon, a tanner"—but the Mohammedans claim this distinction for the site of a mosque near the Fanar, or lighthouse; an Armenian monastery, too, in which Napoleon, when it was a French military hospital, ordered the plague patients to be put to death by poison. At Jaffa, also, four thousand prisoners of war, by his order, were deliberately massacred. In the eighth century there was a Greek Church of St. Peter, on the supposed site of Tabitha's house. A German religious colony is settled at Saron, two miles from the town. Joppa was occupied in the twelfth century by the knights crusaders, and was the scene of conflicts between Saladin and Richard Coeur de Lion. The distance southeast to Jerusalem, by the ordinary road, is about thirty-six miles. Ramleh and Lydda were towns of much note in the times of the crusades and of the Arab rulers of Syria. The city of Jerusalem has been often described. —Illustrated London News.

Dr. Wood's Norway Pine Syrup cures coughs, colds, asthma, bronchitis, hoarseness and consumption taken in time.

Lead as a Tooth Filling. Dr. S. S. Davidson of Ottawa, in the "Dominion Dental Journal," says: "On June 14, a physician practicing in Ottawa and well known for his hunting propensities, came to my office to have a lower wisdom tooth treated. After this was accomplished he asked me if there were any other teeth in that vicinity that required treatment. Examining the second molar, I found what I thought to be an amalgam filling in the grinding surface, which had the appearance of years of service. I remarked that the filling in the tooth was still giving good service. He declared he never had a tooth filled, and never before had required the service of a dentist. Upon closer examination I found the cavity filled with a grain of No. 4 shot. This had been jammed in so hard that it completely stopped the opening to the cavity. Around the edge an oxide had formed, and to all appearance was preserving that tooth as well as the most carefully inserted gold filling. The only way the worthy doctor could account for it was in eating a tempting morsel of wild duck, of which he is very fond, the shot being embedded in the meat had crowded into the cavity unknown to him and there remained. Strange to say, he would not have it removed and replaced by a more costly filling, remarking 'That is good enough for me.'"

Headache

Usually results from a deranged stomach or a sluggish liver. In either case, an aperient is needed. Ayer's Pills, the mildest and most reliable cathartic in use, correct all irregularities of the stomach, liver, and bowels, and, in a brief time, relieve the most distressing headache. These pills are highly recommended by the profession, and the demand for them is universal. "I have been afflicted, for years, with headache and indigestion, and though I spent nearly a fortune in the purchase of the most expensive medicines, I never found any relief until I began to take Ayer's Pills. Six bottles of these pills completely cured me."—Benjamin Harper, Plymouth, Vermont, N. B. "A long sufferer from headache, I was

CURED BY

two boxes of Ayer's Pills."—Emma Keyes, Hubbardston, Mass. "For the cure of headache, Ayer's Cathartic Pills are the most efficient medicine I ever used."—Robert E. James, Dorchester, Mass. "For years I was subject to constipation and nervous headache, caused by derangement of the bowels. After using Ayer's Pills, I have become convinced that Ayer's Pills are the best. They never fail to relieve my bilious attacks in a short time, and I am sure my system retains its tone longer after the use of these Pills, than has been the case with any other medicine I have tried."—H. S. Sledge, Weimar, Texas.

Ayer's Pills

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass. Every Dose Effective.
