ARTILLERY ASSOCIATION.—OTTAWA, Feb. 16.—At the annual meeting of the Dominion Artillery Association...

Mr. Salter's Wooden-legged Burglar. "Speaking of burglars," said Mr. Millet Salter, the other morning, "there was one in my house last night. I was awakened by Mrs. Salter and informed that he was in the kitchen and after listening I said, 'If that a burglar, he has a wooden leg and I'm not afraid of any cripple. So I got up, lighted a lamp and went to the kitchen and there was the cat with her head in a pitcher, which she was moving around and jumping it on the floor, causing the table legs, the stove and everything else in the kitchen to rattle. I was left on the table with a little milk in it, and the cat having put her head in to get the milk, couldn't get it out again without assistance, which I promptly rendered. I soon put an end to that burglar and Mrs. S. was very glad to see me get back alive after going so boldly to the kitchen to face him.'"

Getting Full. The following was in the St. John Globe last week and in the Advocate yesterday—'as original matter in both cases—showing the coincidental affinity existing between great minds.'—'The moon will make amends for getting full twice last month, by not getting full at all this month. That is perhaps the humorous aspect, but there is a more interesting one in the fact that a month without full moon only happens once in about 200 years. The irregularity is not in the moon's habits, for they are of the greatest regularity. It is the irregularities of the calendar that place Luna in this false position. The interval between moons is always 29 and a half days, so that February is the only month that possibly can be without a full moon, and that only when the preceding full moon occurs on the 30th or 31st of January. The last full moon was on January 21st, and the moon will not be full again until the 21st of the 21st. After that once a month till the end of the year.'"

Chatham Again Ahead. WINNIPEG, Feb. 17.—The skating races held here in the Thistle Skating Rink last night brought out a large number of the sport loving public, who had the pleasure of seeing some good sport. The rink was well filled with spectators. The entries in all races were numerous. The honors of the evening went to E. B. Wyse of Chatham, N. B., who won two of the events; and in the mile race, E. B. Wyse, A. Erb and J. Innis were entered. Wyse dashed to the front and stayed there to the finish, coming in a lap and a half ahead of Erb in the time of 3:14.

The number of Italian pilgrims, estimated at about 160,000, made their entry in procession somewhat later.

Loah, Sirs, bit there's awf' w'ark on Joev'st raist, Ottawa, and speak'ly shocking till a new-comer, who may happen to be safly unacquainted w' the vices and enormities of a vain and wicked world. Listen to this from the Ottawa correspondence of the London Advertiser, under date, too, mind you, o' Feb. 5th:—'The new comers are surprised at the way in which Sunday is observed in some quarters. To-night as I write a full dress dinner party is in full progress at the Russell House.'"

THE TORONTO HOME FOR INCURABLES. PARKDALE, Ont., Feb. 27th, 1893.—Gentlemen, it gives me pleasure to let you know I have derived great benefit from the use of Nervine. I have been a great sufferer from Neuralgia in the face, and last two years was quite a martyr to the malady. So soon as I observed the Nervine advertised in a bottle from your druggists, Messrs. John Gray & Co., Parkdale, and the effect was marvellous, pain ceased and I can enjoy sound sleep at night, and rise refreshed. I cannot speak too highly of it and heartily recommend it. ALEXANDER STEEN.
