Fire Alarm.

On Monday about 12 o'clock there an alarm of fire, caused by the roof of St. John's church taking fire in places, from sparks from an adjoining himney no doubt. The shingles of the roof are old and unpainted making them more than usually liable to ignition. A number of men soon had the new ladders recently provided by the Street and Fire Commissioners in use and thereby reached the points of danger with buckets water, and the trouble was ended in a few minutes.

More Improvement.

Mr. Alex. Robinson of St. John Street is constantly improving his surroundings. He has, as many of our readers know, one of the best equipped carriage and sleigh factories in the province and turns out work equal to the best imported, and superior to most of the stock brought in from outside, and also carries a very complete assortment of agricultural machinery and implements, in which he is doing an ever-increasing trade. His latest step in advance is the enlargement of his shelter-house for carriages and agricultural implements and the erection thereon of a sixty-feet high flag staff which will display the old flag in honor of the Queen's birthday to-day. We have no citizens who surpass Mr. Robinson efforts to improve the appearance of

The Fire-hose and its Handlers.

We do not know what the merits of the natters at issue between the old hosemen and the Street and Fire commissioners are, but the latter had better take decisive steps to prevent friction between the former and the new hosemen. Firemen, like members of church choirs, are very sensitive as to their rights, and they require delicate handling. The time to settle chronic misunderstandings, however, is not when a fire alarm is being sounded. The hosemen do not own the fire extinguishing plant, neither do the commission. ers. The tax-payers provide hose, etc. for the purpose of its being used in extinguishing fires, and it is not only unseemly, but almost criminal for any one to make of his personal grievances an occasion for interfering with getting hose out and the scene of a fire in the shortest possible We have efficient policemen now and whenever a fire a arm is sounded they should go to the engine house and settle any disputes which the commissioners cannot provide against beforehand

The meaning of the Telegraph's heading s. no doubt, that it wishes its readers to understand that the building that is being torn down is good enough for a Dominion public building. These St. John papers, fact, seem to imagine that anything is good enough for the North Shore.

ANADIAN WOMEN TO PRESENT A GIFT TO T DUKE OF YORK AND HIS BRIDE. OTTAWA, May 19th, 1893.

MY DEAR LADY TILLEY: The engagement of His Royal Highness the Duke of York to the Princess Victoria Mary of Teck having now been officially announced, the question has arisen whether the women of Canada, like those in other parts of Her Majesty's dominions, would not like to present a wedding gift to their

Royal Highnesses. I write to ask you if you would be kind enough to take steps to ascertain whether n the Province of New Brunswick, there would be such a desire and whether subscriptions would be given. I think any sum, however small, should be accepted and hat no individual subscription should exceed \$5.00, and I would further suggest that, if sufficient money for the purpose be raised, that the present should take the form of the best appointed sleigh that can be made in Canada, complete with fur obes, harness, bells, etc. Inasmuch as the grace of a wedding

present is largely enhanced by its being presented before the date of the marriage, I venture to ask you to take as quickly as this matter, and if you agree with the proposal would you kindly send me a telegraph For convenience, a small committee of

Believe me, dear Lady Tilley,

Lady Tilley publishes the above letter with Lady Derby's permission, and re quests that the press generally will be kind enough to copy it, and also asks that the Mayor of each city and town will at once call a meeting of the ladies to form committees and solicit subscriptions. Lady Tilley will be happy to receive the amounts col lected and forward them with the names to the Countess of Derby at Ottawa. All

SQUIRE TAPLEY SPEAKS.

The ex-Police Magistrate of Old Portland City

Gives Evidence in an Important Matter now before

There is no more familiar figure in St. John than ex-Police Magistrate Tapley, who for so many years presided over the court of the old city of Portland. Squire Tapley, as of the inquiries which you have been able he is familiarly styled by everybody, has been very ill, and in fact says himself that he had at one time not much hopes of regaining his health. But to day he is well again and able to attend to the duties of his office without fatigue or exhaustion. It has been stated that this remarkable change, which has been noticed and commented on by all the friends and acquaintances of Squire Tapley, was due to the use of Hawker's nerve and stomach tonic and Hawker's liver pills. On Wednesday last Manager Russell of

the Hawker Medicine Co. invited a Sun relists should be in not later than the 10th porter to join him on a call on Squire Tap ley and ascertain if this statement were true. They were heartily greeted by the venerable magistrate, and he spoke freely regarding RHEUMATISM CURED IN A DAY: -South his cure. He began to take Hawker's nerve and stomach tonic and Hawker's liver pills about two monhts ago. Within a week after beginning their use, he was frequently stopped on the street and asked the secret of the marvellous change in his manner and appearance. To all such inquiries he had but one answer Hawker's nerve and stomach tonic and Hawker's liver pills had wrought the miracle. That was two months ago, and to-day, after having used about eight bottles of tonic and two boxes of the pills, at a cost of only \$4.50, Squire Tapley declares himself a new man. His appetite returned, his sleep is restful and refreshing and he feels thoroughly renewed and invigorated in every respect. "You may use these statements freely,"

said Squire Tapley to Manager Russell. "I feel that I ought to recommend Hawker's nerve and stomach tonic and Hawker's liver pills; and I am doing it every day. Many of my friends are using them on my recom-
