Dumas, Stockton, Siveright, Howe, Ferris, Dumas, Stockton, P. Bell, Parry, Pitts, Allen, Smith, (St. John), Hon. Mr. Tweedie, D. Lewis, Mr. Phinney.

Municipalities. Hon. Mr. Emerson, Messrs. Russell, O'Brien, (Northumberland), Russell, Wells, Blanchard, Ferris, McLeod, Hon. Mr. Mitchell, Messrs. Alward, Stockton, Hon. Mr. Blair, Messrs. Flowering, Theriault, Howe, Puder, Gagnon, Dible, Klam, Shaw and Scott.

The Library. Mr. Hill, Hon. Mr. Mitchell, Messrs. Siveright, Alward and Stockton.

Law Practice and Procedure. Hon. Messrs. Blair and White, Mr. Mott, Hon. Mr. Emerson, Messrs. Powell, Phinney and St. John.

AN URGENT STATEMENT EXPRESSED. Hon. Mr. Blair as a matter of privilege, called attention to a report that appeared in the Ottawa newspaper, in which it was stated that Mr. Blair had accepted Rev. Mr. Mullin of Stanley, to a seat on the floor of the house at the opening of the legislature and that Mr. Mullin had been elected by the sergeant-at-arms by his (Mr. Blair's) orders. Mr. Blair said he had no knowledge of Rev. Mr. Mullin having been present at the opening until after the public statement referred to appeared, he had not seen the sergeant-at-arms any direction whatever concerning any person on the floor of the house on opening day, nor had he any communication with that officer in any way whatever on the subject. He presumed the story was published with the same object as many others in the same paper for the purpose of prejudicing its readers against him.

Mr. Mullin explained that he had told Mr. Blair that he might take a seat on the floor of the house, and had been informed by that gentleman, after the opening, that he had been ordered out by the sergeant-at-arms, after that officer had consulted with Mr. Blair. He (Mr. Blair) would be understood as being entirely responsible for Mr. Mullin taking a seat on the floor. He also explained to say that after the statement Mr. Blair had just made, he must assume that Mr. Mullin was in error when he stated that he saw the sergeant-at-arms speak with Mr. Blair and then come directly over to whether he was and order him out.

MR. FITZ. Mr. Fitz gave notice of enquiry for Tuesday next as to whether the government had taken any steps towards securing additional information as to the Torrence system of registration of titles.

MARCUS C. ATKINSON. Mr. Phinney presented the petition of M. P. P. Atkinson of Carleton county claiming that he was defrauded out of a seat in the legisla and praying that the matter be referred to the committee on privileges.

Mr. Phinney moved to refer it and Mr. Blair contended that two days' notice should be given of the resolution. After debate, which lasted nearly three hours, the speaker decided that the matter of the resolution being one of privilege, the hon. member was not to be allowed and Mr. Fitz announced when the speaker merely said, "The honorable gentleman will pass his notice up."

WORKING TIME. The house meets at half-past two every day, the forenoon being fully occupied by the members in the various committees. It is in the committee rooms where most of the real work of the session is done, and the working members who are a large majority have their time pretty fully occupied. There is a belief abroad that the fact of the house not meeting until the afternoon, gives the members the forenoon to themselves, but this is an erroneous idea, for the work in the house is, perhaps, less onerous than in the committees.

MR. SPEAKER BURCHILL. It is a matter of satisfaction to all who take an interest in the proper conduct of legislative matters at Fredericton, and particularly so to Miramichi people, that Speaker Burchill has already, by his able and impartial discharge of the duties of his position, gained the entire confidence of the house, irrespective of party. His bearing is dignified, his decisions in points of order raised prompt and clearly and tersely expressed, and his control of the house unmistakably effective, whenever he has occasion to exercise it. He is not a martinet, but the members, from the earnest to the least, realize that a master is in the chair, and while there has, so far, been no occasion for the application of the whip, it is evident that it will fall when the requirements of good order and the maintenance of legislative dignity require the operation.

OTTAWA NOTES. OTTAWA, March 10.—After an all night session on the Manitoba school debate closed on Thursday morning at six o'clock. The resolution was defeated by 120 to 70. All the Liberals present voted for the resolution, but also five Conservatives, Messrs. McCarthy, O'Brien, Jeannotte, Dugas and Pelletier.

In the Commons on Friday, there was a small attendance. In supply on the vote for the expenses of the government's prohibition commission, Sir Richard Cartwright said this appropriation should be classed as one designed to enable the government to evade dealing with the question which the finance minister used to describe as the most important before the country.

Hon. Mr. Foster said the report of the commission would be obtained before next session.

Mr. Charlton denounced the commission

in aid of agriculture. He said the grant had been estimated as worth a three cent stamp to each farmer in the province and he named the sum of \$10,000 as the amount of it. He understood the sum by one-half, but that is considered a remarkably close estimate for Mr. Stockton to make, and if his criticism is a correct one there must be over 700,000 farmers in New Brunswick, which is a startling rate of increase in the population, which was less than 400,000 in 1891—counting men, women and children.

THE NEW OPPOSITION PLANK. Mr. Stockton's declaration of the new plank in the opposition platform, viz., to have a Legislative Council of eight or ten men," is said to have increased his popularity with his followers, as it is waggishly conjectured that he will propose to the government that, at the expiration of the present house, he and his whole following be appointed to compose his new upper house, as it is hoped, for the sake of appearances and in the interest of even feble criticism of the administration, that the learned doctor will be able to retain the number of adherents named, to go with him into the proposed retirement.

A NEW RECORD. A new record in the passing of the Address in reply to the Speech from the throne was made on Thursday last. Never before in New Brunswick did an Address pass in less than five hours after the delivery of the speech.

HEARD HIM RISE. Dr. Alward made a closing speech of no debate on the Address on Thursday and he was slow and ponderous, as usual. He was drawing a word-picture of his alleged sensations while listening to the speech of Attorney-General Blair and was rolling out such sentences as "When I looked around this gorgeous assembly chamber, when I heard the charges of my noble colleague, the leader of the opposition, when I saw the honorable Attorney General in his place, and when I heard him rise."

"Heard me rise?" interrupted the Attorney-General.

The effect was a ripple of laughter throughout the assembly and galleries, which had the effect of making the St. John Democrats a little more careful in the matter of his phraseology.

ONE FOR MR. STOCKTON. Sir John General White had almost a knock-out on Saturday from Mr. Stockton in the debate on the question of order brought on by Mr. Phinney's proposition to refer to the privilege committee. Mr. Stockton had cited from the record of proceedings of the House of Commons at Ottawa, to show that when Mr. Weldon of St. John moved his resolution to refer the matter of Mr. Baird taking the seat for Queens County which Mr. G. G. King had been elected to occupy, to the committee on Privileges and Elections, it passed at once without the usual two days' notice and without objection from anybody.

Mr. White, however, said that Mr. Stockton was quite mistaken in assuming that the resolution had been made without the two days' notice. If he would look at the record of votes and proceedings he would doubtless find that such notice was given.

Well," said Mr. Stockton, "I find by the official record, now in my hand, that Mr. Weldon moved his resolution on the day after the opening of parliament, and perhaps the hon. gentleman can explain where the two days' notice could possibly have been given."

And, then, the blood present Solicitor-General and ex-speaker parlayed the issue by ignoring his former contention and arguing that the reason why the two days' notice had not been given in that particular case was because there was not sufficient time between the opening and the moving of the resolution, to admit of Mr. Weldon conforming to the allegations. Like Sullivan in his closing round with Corbett, the Solicitor-General was a little dazed, but still in the ring."

MR. FITZ WANTED TO MAKE A SPEECH. Mr. Fitz wanted to make a speech when he gave notice of an enquiry of the government on Saturday. He asked Mr. Speaker if he would be in order to proceed to state by he gave notice of the enquiry. That, of course, was not to be allowed and Mr. Fitz announced when the speaker merely said, "The honorable gentleman will pass his notice up."

Hon. Mr. Foster said the report of the commission would be obtained before next session.

Mr. Charlton denounced the commission

as a colossal farce and Mr. Christie endorsed Mr. Charlton's views. Replying to Mr. Scriver's questions, Hon. Mr. Foster said the total cost of the prohibition commission would be about \$30,000. The commissioners were paid \$10 per day each. He said Mr. Charlton's mission was to find fault with all things and he believed the house would agree that the honorable gentleman was quite intemperate in his remarks. The house spent most of the afternoon and all of the evening session in supply on the main estimates. On the item of \$6,500 to complete Cape Tormentine harbor work Davis and others stated that much money had been spent to enable Mr. Wood, M. P., to carry his lumber over the Tormentine Railway to deep water.

Ministers Foster and Outmet showed from the record that not one dollar had been diverted from the purpose for which it was voted, viz., towards the ferry service between P. E. I. and the main land. There was a lively discussion in the banking and commerce committee over Mr. Blair's bill to authorize the organization of a sugar combine. Mr. Lister read an article from the Halifax Herald (conservative) urging that Mr. Blair's operations be watched, and said telegrams had been received from leading Conservatives in Halifax urging that the bill be opposed.

Mr. Blair appeared as promoter of the bill and said he would assent to some amendments. Sir Richard Cartwright asked that the Solicitor General explain the government's policy with respect to the bill, but Hon. Mr. Corran remained silent. Two clauses of the bill, which appeared to authorize the company to obtain control of all sugar refineries in the Dominion, were struck out with a view of limiting its operations to the Maritime Provinces. Discussion upon remaining sections was continued until the committee adjourned.

The House passed a large number of items, including the grants for Dartmouth post office, Halifax drill hall, Chatham post office and the St. John custom house.

HEARD HIM RISE. Dr. Alward made a closing speech of no debate on the Address on Thursday and he was slow and ponderous, as usual. SEED TESTING. The work of testing the germinating power of grain and other agricultural seeds is now in active progress at the Central Experimental Farm in Ottawa. Up to the present over 1,600 samples have been tested and reported on this season, and on the whole with very gratifying results, showing a good percentage of vitality. There are, however, some districts in the Dominion from which samples have been received of very poor quality and quite unfit for seed. In some parts of Manitoba the harvest season of 1891 was very unfavorable and considerable quantities of grain were left out in stock or stacked all winter and threshed in the spring of 1892. A number of samples of such grain have been tested and found to have a very low percentage of vitality, many of them ranging from 15 to 40 per cent. only, and are quite unfit for seed. In some other parts of the Dominion, and especially in some sections of Ontario and Quebec, the weather during the last harvest period was very wet, and the grain in the stock was subject to repeated wettings before it could be housed, and in the meantime some of it sprouted. A large proportion of such samples also show a low degree of germinating power, and as seed will be likely to result in poor crops.

SEED DISTRIBUTION. Last year 16,905 sample bags of various sorts of grain, weighing 3 lbs. each, were sent free through the mail to 9,114 farmers residing in different parts of the Dominion. This large quantity of grain, over 25 tons, was all of first quality and consisted of the most promising sorts which have been tested on the several Experimental Farms. By instruction of the Hon. Minister of Agriculture a similar distribution is now in progress for this year, and already over 3,000 samples have been sent out, and a large number are being mailed daily. The object of this distribution is to place in the hands of good farmers in all parts of the country samples of the best varieties of oats, barley, wheat, peas, &c., so that they may shortly be available for seed in every district in the country, and eventually result in the displacing of poor, mixed and infertile sorts, with varieties possessed of greater vigour and fertility. The number of samples sent to one applicant is limited to two in each case, and on this basis a very large number can still be supplied. With careful and judicious handling these 3 lb. samples will generally produce from one to three bushels the first year, and at the end of the second season the grower usually has seed enough for a large field. The advantages resulting from this large distribution of the best sorts of grain obtainable will no doubt in a few years be generally manifest in an improvement in the quality and an increase in the quantity of the average grain crops of the Dominion. A circular is sent with each sample which the recipients are expected to fill up and return at the close of the season, with particulars as to the character and growth of the grain. The request is also made that a sample of not less than one pound of the product be returned to the Central Experimental Farm, so that information may be had as to the measure of success attending its growth. Samples are sent to applicants as long as the supply lasts. Letters can be sent to the Experimental Farm at Ottawa free of postage.

WM SAUNDERS, Director Experimental Farms, Ottawa, March 9th, 1893.

P. E. Island. The Provincial legislature of P. E. Island was opened by the Hon. William Sullivan, administrator of the government, on the afternoon of the 8th inst. The speech from the throne does not foreshadow any very important legislation. There are the usual congratulations on the success of the crops and exhibition, and brief reference is made to the cheese making industry and the new road machines. It is intimated that bills reducing the cost of legislation and providing for a plebiscite on the prohibition question will be submitted. It is thought the session will not be a long one.

DEATH OF CAPT. CRAIGIE.—Capt. H. W. Craigie died at his residence, Harbour Street, on Saturday last, after an illness of four days. He was a native of Perth, Scotland. For some years he was in the employ of the Miller Tanning and Leather Company, but was lately with James Brown. He received very attention and all that medical aid could do. The captain will be remembered as a temporary resident of both Chatham and Newcastle a few years ago. He derived his title of captain during his connection with local forces in the Cape wars, and his experiences therein formed the subject of several lectures delivered by him here and elsewhere. He married in Montreal, his wife and two children surviving him.

PERSONAL.—Mr. Thos. Blair is in charge of the agencies of the Bank of Nova Scotia in Chatham and Newcastle, Inspector Watters, who so acceptably filled the position immediately after the lamented death of the late F. R. Morrison, returning to his regular duties.

Mr. John MacLaren, Inspector of Customs is visiting the Miramichi.

Another Canadian has come to the front in the Army, by the appointment of Colonel E. L. Street, lately commanding the 1st Battalion of the Devonshire Regiment, to take command of a Regimental District. Colonel Street is a son of James W. Street of St. Andrews, and cousin of Mr. E. Lee Street of Newcastle. Colonel Street has been much service and was with Lord Roberts in Afghanistan.

Mr. Rupert Blair is visiting his Miramichi relatives and friends.

A W. C. T. U. entertainment, which included vocal and instrumental music, readings, speeches and refreshments, was given in Temperance Hall, Chatham, on Tuesday evening.

The programme included speeches by Miss Tweedie, Rev. Jos. McCoy, Rev. Neil McKay, Rev. Mr. Marshall and Mr. R. B. Bennett, a recitation by Mr. J. L. Stewart; solos by Mrs. Shaw and Mrs. Pallen, a duet by Misses Edgar; quartettes, by Miss Edgar, Mrs. Nicol, Mr. Nicol and Mr. Dickson, and Misses Edgar and Messrs. Dickson and Norman Edgar; a violin solo by Mr. Herbert McDonald accompanied by Bertie McLean, with several choruses, all of which were very much enjoyed. The other accompaniments were by Mrs. Marshall, Miss Carter and Prof. Smythe.

Death of Hon. John McAdam. Hon. John McAdam, of Milltown, is dead. He was a lumberman and merchant, and was one of the representatives of Charlotte at Fredericton almost continuously from 1854 to confederation and for some years after the union. From 1867 to 1870 he held provincial portfolio. He represented Charlotte in the second parliament at Ottawa, but was defeated in 1874 and returned to provincial politics, sitting in the legislature until he was defeated in 1886, being then nearly 80 years old. Mr. McAdam was born in 1807. He was a consistent liberal conservative and an estimable man in public and private life.

Fire at Church Point. Last Sunday morning about four o'clock the store of Mr. Alexander Davidson, at Church Point, Miramichi, was burned, together with its valuable contents. The cause of the disaster is not known, as Mr. Davidson was in St. John at the time, and his clerk, a young man named Stewart, says he had no fire in the store on Saturday. An Indian who saw the light caused by the flames was the first to give the alarm, and it was reported that a team was seen being rapidly driven down the road about the time the fire started. It is thought possible that as attempts had been previously made to rob the store, the fire might have been the outcome of another of the same kind. Mr. Davidson has about \$2,700 worth of stock, besides two cases of shoes and two of boots and shoes, which had just been received and were partially opened. He had \$2,000 insurance through Mr. W. C. Winslow's agency here and his loss over and above that is about \$1,000. He informed us yesterday that he would be able to go on with his business in an old building formerly used as a dwelling until he could erect a new one, which he proposes to do as soon as possible. His many friends are glad to learn that although the wind was blowing directly from the burning store on his fine house, the latter was not injured, so that the disaster is not as far-reaching as it might have been.

Great Fire in Boston. BOSTON, March 10.—One of the most destructive fires in the history of Boston, next in magnitude to the famous one of Thanksgiving day, 1870, and in the same district, broke out shortly after a o'clock this afternoon, and before it was placed under control, three hours after, had burned over more than a square, had reduced to ashes several of the magnificent new buildings recently completed on the territory burned over three and a half years ago, had consumed property valued by a conservative estimate at \$4,500,000, and been attended by scenes of panic and distress never before equalled in the memory of citizens now living, and had destroyed several human lives, and maimed at least 30 persons, some of whom will die of their injuries. At 4:25 o'clock the alarm was rung in from box 52. It was soon followed by a second, and then by a general alarm. The flames broke out in the toy department of Horace, Partridge & Co., who occupied the fifth and sixth floors of the seven-story building, corner of Essex and Lincoln streets, owned by F. L. Ames. The cause is at present unknown, but the start is described by those nearest it as resembling the bursting of a fire cracker. The flames spread with incredible rapidity, and in a very few moments the entire interior of the building was burning. There were many employees of the Partridge company at work at the time, and the other floors of the building were sprinkled with human beings. The usual avenues of escape were at once cut off, and then began a scramble for life which sickened the beholders. The panic-stricken inmates fled to windows and roof; some escaped by shining down telegraph poles, others by leaping into blankets and nets. Several jumped to the pavement, six or eight stories below, and were terribly mangled, and others—how many cannot be told—fell back into the cauldron of flames, or were overcome by the dense black smoke, which suffocated all who did not speedily escape. The entire fire department of Boston was specially on the scene. The departments of Somerville, Cambridge, Newton, Quincy and Brockton arrived later by train, and aid was requested to be in readiness from more distant cities.

It is estimated that the loss will be in the vicinity of \$4,500,000. The insurance is \$4,000,000.
