CEATHAM, N. B., - - - MAY 18, 1893. A STUDY OF FACES. A dry eye means a hard heart.

Brown eyes are the most kindly. Voltaire had the typical foxy face. A pouting upper lip indicates timidity. Italians have the best mouths and chins. Black eyes are the most rash and impet-

Large ears are found on the heads of Coarse hair always indicates coarse organization. Very full cheeks indicate great digestive

A projecting under lip shows malignity and avarice. A double chin is invariably a sign of a lover of the table.

Pointed noses generally belong to meddlesome people. Blue eyes belong to people of an enthusi astic turn of mind Large eyes in a small face always betoken maliciousness.

Narrow thin nostrils indicate small lungs and low vitality. Power of language is indicated by fullness beneath the eyes. A retreating chin is always bad; it shows lack of resolution.

If the forehead be shorter than the nose, the sign is of stupidity. Oblique eyes are unfavorable; they show cunning and deceit.

PERSONALITIES. Cornelius Vanderbilt has paid the mother

of a boy crushed by his carriage \$365 for the injuries the child sustained. Edward Farrer is the authority for the statement that Goldwin Smith will start an annexation paper in Toronto in April, with a capital of \$200,000.

The richest woman in the world, Donna Isadora Cousino of South America, from her coal mines alone is said to have an income of \$80,000 per month. She has been a widow for ten years.

The comet medal of the Astronomical academy of the Pacific coast has been awarded to Edwin Holmes, of London, Eng., for his discovery of the unexpected comet on November 6. A Grecian peasant unearthed a statue on the Isle of Egina and sold it to an English traveler for a trifle. The Englishman is reported to have sold it to the British museum for an enormous sum.

Pope Leo XIII. owns a pearl left him by his predecessor on the throne of St Peter, which is worth £20,000, and the chain of thirty-two pearls owned by the Empress Frederick is estimated at £35,000. Ex-King Milan and his divorced wife, Natalie, have become reconciled. What the political result, if any, of this will be cannot be prophesied, but the official statement has caused popular rejoicing in

If the hoopskirt is to be in vogue again it will be a revelation in more senses than one, to the men who are under 25. It was abandoned about 1870.-Cincinnati

Now that hoopskirts have become the fashion in Chicago, it is a conundrum how young women who ride bicycles can follow that amusement and still be fashionable in dress.-Grand Rapids Democrat.

The war upon crinoline is in fierce progress in London and Paris, although Worth has not yet announced the revival of the monstrosity, nor has any London beauty dared to revive the hoop of 1864-70. The arbitraters of fashion say that the attack is too early since it is not yet certain that society will be asked to accept the expansive horror.—New York Journal.

MRS. ISABELLA LETSON, OI

For eight years I was troubled with a sore on my leg which resulted from having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines but with no benefit. In 1883 it became so bad that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my leg swelled to twice its natural size. ELEVEN RUNNING SORES

a living skeleton (I lost 70 lbs. in four months). Friends advised me to go to the Hospital; but I would not, for I knew they would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black erysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscess on the neck by B.B.B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three, I threw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my leg was entirely healed up; pieces of loose bone had worked out of it and the cords came back to their natural places again.
