I have given my very serious risk of loss and failure which

been able to consider and mature." Her Majesty also said she trusted a hav only. and equalized rates in London bills and of a number of minor measures, and prays the blessing of Providence may rest upon the labors of Parliament.

At a meeting of ladies in Halifax, the other day, called by Lady Aberdeen for the purpose of forming a council in connection with the National Women's Council of Canada, Mrs. Leonowens told the following beautiful story :

Her excellency's speech carries me back 2,000 years ago to the first woman's council that ever was founded-in India There was a little girl named Keesa, who lived in the city of Totami. She was a farmer's daughter, married to a farmer. She knew nothing of what it was to be a mother-knew nothing of her married responsibility, and before she was 15 years old she was a mother. Herlittle boy, said to have been a beautiful boy, grew up to be the joy of the city, which is called after her to this day. One day he fell into a fit, and died. The poor little mother did not know what to do. What was this terrible thing that had come over her boy? She poured water on his face, carressed him, called for her husband who was away, she ran about the streets asking someone for medicine to cure her baby. No one gave her any counsel. Finally Keesa went to Buddha and said : "I hear you are a wise man ; give me some medicine to cure my boy." BUDDHA SAW HOW INEXPERIENCED SHE

mustard seed; but when you go into has happened there as has touched you. she took up her baby and sat upon in payment thereof be sold at public auction in that I have undertaken," and suddenly on Saturday, the first day of September, next, at on Saturday, the first day of September, next, at a light shone upon her and she said "No! tion I had with you and Mr. Clark, of remises situate lying and being in the Parish of I shall not seek for the mustard seed; Alabama, a few days ago, in regard to my bury my baby and go back to my good serious consideration. The result is, I man and tell him I cannot find the seed." am more settled than ever in the determination to allow the bill to become a law

was sick for all those who had suffered as she had.

found the mustard seed." That was THE LITTLE GRAIN THAT BECAME THE FIRST COUNCIL OF WOMEN. She went and taught other women how

to tend their babies. She told her husband, "Our child is dead, but I am going to teach myself so that if I should have another child I can train him."

Dairying Service.

OFFICE OF DAIRY COMMISSIONER. CENTRAL EXPERIMENTAL FARM. OTTAWA, 3rd Aug., 1894.

EDITOR MIRAMICHI ADVANCE. The Dominion Government has made provision for the maintenance of travelling dairy in New Brunswick. will be under the direction of the Dairy Commissioner for the Dominion.

WASHINGTON, Aug. 27 .- The president o-day sent the following letter to Representative Catchings, of Mississippi, who consented to its publication in view of its

public character and importance :-EXECUTIVE MANSION, WASHINGTON, Aug. 27, 1894. "To Hon. T. C. CATCHINGS :-

Buddha asked her what she had done entered upon by congress, nothing was

iastically endorse. It is, therefore, with resinous matters, of which the wax in a feeling of the utmost disappointment that I submit to a denial of this privilege. "I do not claim to be better than the masses of my party, nor do I wish to the skin, form a compound which tends avoid any responsibility, which, on account of the passage of this law, I ought

to bear as a member of the Democratic organization. Neither will I permit myself to be separated from my party to sible for the refreshing influence of the such an extent as might be implied by my bath veto of the tariff legislation, which though disappointing, is still chargeable to Democratic effort. But there are provisions in this bill which are not in the line with honest tariff reform, and it contains inconsistencies and crudities which ought not to appear in the tariff laws or laws of any kind. Besides there were, as you and I well know, incidents accompanying the passing of the bill which made every sincere tariff reformer un nappy, while influences surrounded it in its later stages, and interferred with its final construction which ought not to be recognized or tolerated in Democratic tariff reform councils. And yet, notwithstanding all its vicissitudes and all the bad treatment it received at the hands of provement to existing conditions. It will certainly lighten many tariff burdens that now rest heavily upon the people. It is not only a barrier against the return of mad protection, but it furnishes a vantage ground from which must be waged further aggressive operations against protected monopoly and govern-

"I take my place with the rank and file of the Democratic party who believe in tariff reform, and who know what it is. who refuse to accept the results embodied in this bill as the close of the war, who are not blinded to the fact that the livery of Democratic reform has been stolen and worn in the service of Republican protection, and who have marked the places where the deadly blight of treason has blasted the councils of the brave in its hour of might. "Trusts and combinations—the com

Smith, of London, was second command, Captain Macdougall, Toronto, adjutant, while the surgeons were Der. Sewell, of Quebec, and McLearn, of Fred ricton. Sgt. Major Phillips, of St. Johns, P. Q. was regimental sergeantmajor. Quartermaster-Sergeant Walker, of Fredericton, quartermaster. Hospital

surgeons, while the regimental bugler was Bugler Hays, of Fredericton. Keep the Skin Clean.

The importance of cleanliness for the healthy performance of the functions of life is the subject of a lecture delivered at the London Institute by Professor Vivian Lewes, and published in Nature. We may, says professor Lewes, live for days without giving our stomach any work to do, the liver may cease action for several days before death ensues, but it is almost impossible to survive for the same length of time if the functions the skin are entirely stopped. Indeed. the professor cites the case of a child which, being gilded all over to pose as a statue, died in a few hours. The sudorifferous ducts, of which there are about 3,500 to the square inch of skin, perform the important function of throwing off the moisture produced during the combustion of waste tissue by the oxygen of the blood, and secrete about 23 ounces of perspiration in the twenty-four hours, being principally derived from the body,

the ear is a type; these, mixing the solid matter and dirt adhering to to clog the pores of the skin; and is the removal of this, by the morning tub and rough towels, which is respon-

Every day when the money is put into the vaults of the cellar masons are waiting and at once wall up recent letter of the secretary of the treas. the doors with hydraulic mortar. Water is then turned on and kept running until the cellar is flooded. The burglar would thus have to work in a diving suit and break down a cement wall before he could even start to loot the vaults. When the officers arrive next morning the water is drawn off, the masonry is torn down, and

In the Slums of Great Cities.

Mr. Carroll D. Wright, United States commissioner of labor, who has been making an inquiry into the slums of the cities of Chicago, New York, Philadelphia and Britannia will land her guests at Torquay Baltimore, states that he found the chief and proceed to Cowes, where she will go munerative employment of American institution of the slums was the saloon. out of commission unless the Vigilant The results of his investigation show that compels her to contest for the Cape May With materials cheapened by their Chicago, in the city as a whole, has a saloon Cup, September 9th. to every 212 persons and in the slums one to

every 129 persons. Philadelphia has an air Mr. Gould said, "is that the holder must darkest part of the city. The tables show or any other vessel, and I do not see how

whole city it is 51.68. slums is still more remarkable. In New of England regatta at Plymouth, Sept. born population is 40.63 per cent. of the whole, while the proportion increased in the slums to 57.51 per cent. In Chicago the illiterate constitute 4.64 of the entire population, while in the slums 5.64 of the native born are illiterate. It must be onsidered, though, that 33.86 per cent. of the foreign-born in the slums are illiterate, while there are only 8,31 per cent. of the foreign-born illiterate in the entire city.

According to the eleventh census the number of persons to a dwelling in Baltimore was 6.2, in Chicago, 8.6; in-New York, 18.52; in Philadelphia, 5.6. The averages for the slum districts are about the same for Baltimore and Philadelphia, there being the former city 7.71 persons to a dwelling and in Philadelphia 7.34 persons, but i Chicago the slum population averages 15.5 persons to each dwelling and in New York

A somewhat remarkable feature of th inquiry was that it showed little, if any more sickness existing in the slums than Sergeant Cotton, of St. Johns, P. Q. in the other quarters of the cities, Infan mortality, however, was enormous, and much of the apparent exemption from the consequences of over-crowding, unsanitary conditions and starvation may be accounted for by the fact that sick people from the dens and dives of the slums are generall got rid of by sending them to the hospitals.

About Timber Limits.

to the St. John Telegraph says:- "Surveyor-General Tweedie is in the city and has been engaged since Saturday last in hearing dispute which has arisen between C. Bostwick of St. John and S. H. White Sussex regarding lines of blocks of timbe lands situate in Kings and St. Joh counties, the licenses for which granted to these gentlemen at the of licenses in 1893. An order of survey was issued not long ago from the crown land department to Deputy Surveyors A. Hanson and Paterson who completed a survey and made returns to the department last week. Mr. Bostwick protests against the survey and against the lines run by the other day, the neat and new Baptist church Hanson and Patterson being recognized by the department as the established boundries, which evaporates without producing any claiming that the surveyors did not run out sensible moisture of the skin. This the lines pursuant to instructions and order al in its construction. Now, there seems to trivance for regulating the temperature General Tweedie at the crown land office of the body, as the conversion of the here, on Saturday last, and was adjourned perspiration into vapor renders latent till this morning, when it was again proceedan enormous amount of heat, which, ed with. at law, but are for the purpose of determing what shall hereafter be regarded as the lines of the licenses. It is becoming more and more apparent that the block lines of crown timber lands in the various counties of the province should all be run over again. The present surveyor-general has recognized the importance of this want, as he has already had many important surveys

This makes the 51st year of the lumberng operations of Mr. William McKay, of Ottawa. "I have taken rafts" he says in answer to a question, "down past Ottawa for the last fifty years-ever since 1844; some years only one raft and other years three or four, besides taking out sawlogs several years." Mr. McKay is the only lumberman in Canada continuously in the square timber business for half a century. McKay says he came to Ottawa in 1838, and in 1841 went shantying with the late Hon. James Skead on the Bonnechere river. "I made my first raft of red pine during the winter of 1844-45 on the Madawaska river, there being no demand for

ground rent on the limit on which I made my first raft for nearly fifty years." "Was it difficult getting timber to market when you commenced ?" "Yes, at that time the rivers were not improved and there were no slides or booms as there are now." "You must have seen many changes in your long business experiences?" "Yes, prices for timber and supply have varied much. When When I commenced first I paid as high as 25 per cent. interest on money advanced to purchase supplies, &c. the average wages for men were from 10 dols. to 14 dols. pe month. Hewers got 20 dols, per month, and these were the highest priced men There was far more square timber taken out then than now, for this was long before the era of sawlogs. I have known of 100 rafts passing here in one season. This year ten rafts will be the limit." "Are there many

men in the trade who commenced when you A cyclone swept along the shore of the | did?" "I know of no one alive who was in damage. In some cases entire villages | cept Mr. N. V. Noel, now manager of the were swept into the sea. Many steamers | Quebec bank here, who worked on the I am the only one who has continuously made square timber for that length of time. Prices have varied very much. I have sold timber as low as fourpence per foot and as high as 36 cents per foot for no better timber. The raft that has just passed Ottawa" concluded Mr. McKay, "is as good a raft as I ever took to Market both in manufacture and quality." This raft was taken out in the Amable du Fore river, a branch of the Mattawa river.

SHE COVERS THE DISTANCE IN 2.054 AT ASK FOR RECORD OF 2.061 MADE BY NANCY HANKS IN 1892. THE PEREORMANCE WONDERFUL.

CHICAGO, Aug. 22 .- Alix, Monro Salisbury's wonderful little mare, created a sensation at Washington Park yesterday by turning the track in 2.051, in an attempt to beat the record for the course, 2.061 made by Nancy Hanks in 1892. The concensus of opinion among well-known horsemen after the race was that the performance was the grandest ever accomplished by a trotter, as the track was fully two seconds slow and the day hardly well adapted for record

smashing. The weather was bright and clear, but a chilly wind blew from the northwest. although it died out almost entirely before the mare was brought out. After two attempts to get Alix going right, McDowell nodded for the word, and went to the first quarter in 0.311. When the time was shown from the timer's stand it was conceded that little better than 2.07 would be

At the half, made in 1.031, the mare was oined by a running mate, and finished out. seemingly well within herself, an even second better than Nancy's record for the track. Great enthusiasın was displayed at the finish. McDowell stated afterward that the back stretch was cuppy, and the far turns too loose and holding. He is certain that Alix will do 2.03 or better before the неазоц is over.

Has church building enterprise been injudiciously favored up-river? It would seemse, for, at Doaktown-which was finished only in July 1893-was sold under mortgage held by the gentleman who was chiefly instrumentbe trouble of a similar kind a little further up the Southwest, as we find the following in the Fredericton Herald of last Saturday "A Boiestown correspondent writes:
