Cheated of its Prey. The Telegraph appeared to experience a feeling of sadness last Friday because it was obliged, like the good paper it is, to publish the news from Ottawa, included in which was a statement by Sir Hibbert Tupper, Minister of Marine, that he had caused the question of alleged infractions of the steamboat law by the St. John corporation ferryboats, to be referred to the Minister of Justice.

Encouraging Crime. The case of the three young men, Pelland, Demartigny and Mercier, who, early in December, attempted to blow up the Nelson monument on Jacques Cartier square, Montreal, with dynamite was before the provincial law examiners of Quebec on 11th, on a resolution that the three young men, who are all law students, should not be allowed to undergo examination for admission to study. The motion was defeated by a vote of three to four.

Business in Gloucester County. Advice from Gloucester County indicate that the severity of this winter's weather will tell upon the business of that locality. The frequent snow-falls have rendered the roads almost impassable, and thereby hindered the progress of all outside work, particularly lumber operations, the volume of which will not be many more than one half that of average former seasons.

Prohibition in Toronto. The Toronto correspondent of the Montreal Witness writes that journal:—"The official statement of the city clerk of Toronto of the votes of that city on the prohibition question gives all information very succinctly. It is as follows: For prohibition, 10,915. Against, 9,171. Majority for, 1,744.

That African Trouble. The fullest details at hand respecting the war in Africa prove that what happened was purely an accident. The French mistook the English for the natives, which is only another way of saying that they mistook them for the rightful owners of the soil—and fired upon them. Of

time last year; but there is no change in value to report. Red pine is in poor demand and there is no change in value, but the stock is sufficient. Oak has not been imported from Canada, there is rather more enquiry, but the stock (which to a large extent consists of United States wood) is still too heavy; there is no change in value to report. Ash has been imported too freely, prices are easier, and the stock is too heavy. Pine deals have moved off more slowly than during the same month the past two years, and the present stock is still too heavy; prices, however, are firmer, although not much advance has yet been established.

AN IMPROVED SHOWING FOR CANADA. LONDON, Jan. 10.—The emigration returns for the year 1893 have just been published by the Imperial Government. The departure of all nationalities, foreign as well as British, from British ports during the last twelve months numbered 307,750, showing a decrease this year as compared with those of last year of 13,637. The British emigrants numbered 208,116, a decrease of 925. Of these 134,301 were English, an increase this year of 487; 22,600 were Scotch, a decrease of 665; and 52,105 were Irish, a decrease of 747.

Mr. Jared Tozer—a prominent fish shipper—informed the editor of the ADVANCE yesterday that he had good authority for the statement that twenty-five tons of bass were taken off in the vicinity of Chatham with small bag nets in one week recently, and he attributed the plot of the Boston market to the illegal fact that these fish were forwarded thereto. We endeavored to induce Mr. Tozer to give us the name of his informant or of some person acquainted with the alleged facts so that the statement might be investigated, but he declined to do so, saying that the ADVANCE would rather shield the parties than expose them.

They have another alleged poisoning case in Annapolis County, N. S. A despatch of last Thursday says:—"The sudden and unexpected death of Christina Jackson, an aged colored woman living at Inglewood, a short distance from Bridgetown, which occurred on the 9th December, has since led to suspicions of foul play, being directed against Rachel Jackson, a daughter-in-law of the deceased. Inquiries have since elicited the fact of the purchase of a box of roach rats at the Medical Hall on the 7th Dec., and that before the death of the old woman, a large dose of medicine, information was laid before the Stipendiary Forestry on Saturday, and a warrant issued for the arrest of the woman, who, in the meantime, had gone to visit friends in Kentville, where she was arrested by Constable Chute on Saturday and brought back to Bridgetown on Monday. On Wednesday an investigation was commenced, and continued today. So far nothing has been elicited to connect her with poisoning the old woman. If it is considered necessary the body will be exhumed and an autopsy made."

against him were true then he was not fit to bring up the children. His honor then took up the charges against Charles Campbell. These he said were of a most serious nature. His honor recited the charges made by Fanny Stewart, of Campbell's visit to her house, and of Seord, McKinney, Officer Killen and others to the same effect. The affidavits and the explanation given of his presence on Sheffield street is that he went to attend the drills. His honor said that he had been sitting testimony for 41 years and could have sworn to it if possible, that these charges could not be true unless there was a conspiracy against Chas. Campbell and that could only have been effected by the use of money. Again, there was the evidence of a policeman, one of the men who are appointed to look after the interest of the citizens. Was it possible that he would be a party to such a conspiracy. If the charges against Charles Campbell were not proven they were nearly on the border line. Perhaps Mr. Campbell should have the benefit of the doubt.

PROSECUTE CHARLES CAMPBELL FOR PERJURY in connection with the affidavits of Fanny Stewart and others, which Campbell swore so emphatically contradicted by affidavits. Mr. Shatford claims that he had proof enough to send Charles Campbell to the penitentiary for some years to come. He also stated he intended to prosecute Robinson and Blair for their connection with the affair as he considered that there could be no possible excuse for their interference.
